To Get Claud Emond—
Governor Benson has issued requisition papers asking the governor of California for the return of Claud Emond, who is charged with murder in the first degree for killing Ludwig C. Phil in Portland in 1907. Emond was indicted by the grand jury in Multnomah county for the crime but fled to California.

Some folks Want Him—
A remonstrance has been filed with the county court by the Salem Fruit Union, signed by C. L. Dick, manager, asking that the county court reconsider its intention of discontinuing the services of the county fruit inspector during the summer months and to retain that office permanently at a salary of \$100 per month at least. This will come up for consideration some time this week.

Fined 25 Plunks—
Judge Moores fined Rose Leland, an inhabitant of Ferry street, \$25 this morning for disorderly conduct, on the complaint of the police officers, who were compelled to take a hand in the rough house happening in that locality last night. Judge Moores gave the offender a straight talking to, and warned her if any farther rioting was heard of about her premises, she would not be permitted to pay a fine, but would languish in jail for a time.

If You Can't Pay, Don't Eat—
Officer Jory last night picked up Charles Mead, who is wanted in Monmouth, Or., for jumping a board bill. The jumping of hotel and board bills is becoming quite frequent, but so far none of the delinquent boarders have been able to get away. Just recently Sheriff Minto arrested and held a man who left Dallas owing a board bill, and another man was held up here also for leaving his boarding house without liquidation. Sheriff John Grant, of Polk county, will come over today and take charge of Mead.

Order Rates Lowered—
The railroad commission has written a letter to the Southern Pacific Railway Company regarding the rates on poles, piling and box shooks. Some complaint has been received by the commission from shippers of these articles who declared that rates on piling and poles from points in Oregon to points in California were higher than the rates on lumber shipments and the same higher rates were placed on box shooks also. The commission investigated the matter and found the complaints well founded and has ordered the S. P. company to lower the rates accordingly.

Wants County Road—
A petition has been filed with the county court in the matter of the application of W. Ray et al for the creation of a county road between sections 6 and 7, township 4 south, range 2 west. John E. Kennedy is the petitioner and he asks that the county court appoint a body of viewers to go over the road and to assess and determine how much less the value of the land lying over the proposed route would be if the road was established. The county commissioners are in session this week and they will probably take the matter up before they adjourn.

John Doe is No Parrot—
The John Doe hobo who was arrested by Sheriff Minto, east of town, last Monday for abusing Mrs. John McAllister, because she had nothing cooked up for him to eat, will be examined this afternoon by physicians as to his sanity. The sheriff cannot get a thing out of him, notwithstanding his many efforts. The man has been asked time and again to give his name, but he refuses absolutely to do any more talking. His actions in the county jail tend to show his brain must be off, and if he is found insane this afternoon he will be turned over to the asylum officials, where he will find a warm welcome, should he start the rough house business again. Sheriff Minto has had no trouble with him since he has been in jail, but the big sheriff gets rather peevish when he attempts to strike up a conversation with the unsociable gent.

Wants a Divorce—
For the first time in a good many days a divorce suit has been filed in the circuit court, in which Erma Myrtle Tucker is plaintiff, Chester A. her husband married her when she was of the age of 17 years and he 27, and that he gave her parents the impression that he had the means to support her. But after a few months of married life he changed, and treated her in a cruel and inhuman manner, complaining about her general appearance and getting in bed with his dirty clothes on, and several other offenses on which the grounds for separation are based. The plaintiff asks the court to decree her an absolute separation, \$100 to defray expenses of the suit, one-third of the real property owned by the defendant and permanent alimony in the sum of \$20 per month.

AUTO SPEEDING ON STREETS GROWING INTO AN ABUSE

Speeding automobiles is growing at a terrible rate on the streets of this city. Drivers, not only in the city, but from the country, violate the speed limits, and it is only a question of time and opportunity when there will be victims of speed, and terrible prejudice aroused against automobiles generally. The city laws should be enforced against reckless speeding on the principal streets, before there is a fatality. Whose child shall be run over and killed or maimed is only a question of luck and chance but that parents are in danger of losing their little ones if they let them onto the streets is certain. Let this matter be stopped before some family pays the penalty. Autos are growing in popular favor in this city, and some of the very finest machines in the state are driven here, and we have some careful drivers. But there are, also some who exceed the speed limits, and should be called in and have the law expounded to them, with a good big fine.

"Base Burner Busick"—
The western slope has a great reputation for turning out notorious baseball pitchers, who are as thick as molasses in the east now, but about the latest twirler of the season and one who is expected to do great things, is big "Bill" Busick, the street car manipulator for the local system. Bill, who has an arm like a piece of ticklish lightning and unusually stout, is getting into trim and every night the coming hide flinger can be seen cutting the breeze out in front of the street car barn on Commercial street. Out curves, in curves, shoots both ways, spit ball, "what is it" and several new winning "cofies" are being teased up to the right control by Bill, and when he gets these things in action the poor, unsuspecting batter will have fits and chilblains trying to rap the ball. There will be nothing to it: Bill will pitch the ball and the opponents will be regularly nailed to the plate.

Took Comrade's Trousers—
At the request of Sheriff Stevens, of Multnomah county, Sheriff Minto arrested a Greek by the name of Andrew Coutras in this city this morning and held him for the Multnomah officer. Coutras is charged with larceny in stealing a pair of trousers from his room-mate in a Burnside street lodging house. The accused man says that his room-mate, another Greek, had borrowed money, and had failed to pay it back, and that about the only way in which he could get even was to take the trousers, in which there were a few dollars. The officers from Portland came up this morning and took their prisoner back.

THINK THEY HAVE SPOKANE ROBBERS

[United Press Leased Wire.]
Denver, Colo., June 3.—The police stated today that they were confident that James Shelton and Lillian Stevens, accused of complicity in the Omaha train robbery, were also implicated in the train hold-up near Spokane recently. The police have communicated with the Spokane authorities in an endeavor to identify the pair.

COAST CITIES WANT TO CONTROL TRADE

[United Press Leased Wire.]
San Francisco, June 3.—Believing that the announced policy of the railroads to establish new rates designed to create additional traffic between Chicago and the distributing territory centering at Phoenix and Spokane will be disastrous to coast manufacturing and jobbing interests, commercial organizations, manufacturing, banking and other interests of this city have united in resistance.

Railroad Machinists Strike.

Baltimore, June 3.—An order was issued today by the National Machinists' Union for a general strike of machinists on the Baltimore & Ohio railroad.

THE CALIFORNIA BUILDING AT A.Y.P. EXPOSITION, SEATTLE.

California's handsome building is one of the very striking structures on the grounds of the Alaska-Yukon-Pacific Exposition. It is in the old Spanish Mission type of architecture encountered so frequently in Southern California, and the detail of its front has attracted the attention of artists and architects from all over the country. In the building every county of the golden state will have an exhibit. California, from Siskiyou to San Diego, has shown as much enthusiasm for the Exposition as has Washington itself.

Children Cry FOR FLETCHER'S CASTORIA

So Sore He Swore; He Swears No More.

There was a Merchant mighty sore— In fact, so sore he swore and swore And kept on swearing more and more.

The trouble was that folks, instead Of patronizing him, by Ned! Were buying goods by mail, he said.

One day he got a little hint On how to make his store a mint! Then hope took on a rosy tint.

He came and ADVERTISED his stock! His store was crowded, chuck-a-block, From seven until six o'clock.

So now this Merchant swears no more! No longer is he feeling sore, Since ADVERTISING crowded his store.
