GOODS ROADS BUILDING IN MARION COUNTY.

Traveling over the county shows that the present Marion county court is doing some good roads work in a practical manner.

The grade has been made up the big Ankeny hill in a manner that is very creditable to those responsible for the work.

The grades were laid off by County Surveyor B. B. Herrick, assisted by Supervisor Whiteman and Commissioner Beckwith.

The grade up the big hill is very gentle, and one can almost drive on a trot up or down, and autos and traction engines will find the climb easy and the descent gentle.

The roadway proper is covered with broken rock, just as it is blasted out of the quarry, and it makes a good macadam driveway without the expense of crushing.

Supervisor Whiteman has got a great deal of work done with a small appropriation because he is personally interested in the work.

The Marion county court at the beginning of the present administration laid down the rule that each road district would be confined to the funds that belonged to the district.

No moneys have been taken out of the general county funds and given to this district as has been the custom.

When districts know that all the taxes levied in that district are going to be expended in the district, and no more, they are interested in making them go as far as possible.

The present county court is getting a great deal of donation work done.

The grafting system of working teams only eight hours a day and counting time from hitching up at the barn has been broken up.

Nine and ten hour days are being put in on all road work, and the farmers feel that they are working for themselves.

When the county was handing out the money from the general fund each district was trying to work the court and get all they could out of the general grab-bag.

Work has begun on the Sweigle road district, and the first

section of a macadam road will be built on the way to Silvertown.

The Sweigle district levied a special tax and with what was due them from their share of the road tax, about \$700 is available.

They will have 300 loads of crushed rock available and Mr. Jefferson has been named to put it down.

The present county court finds crushed rock too expensive to use it extensively.

By blasting out the ball properly it is broken up into pieces three to four inches square.

That rolled down properly makes a hard surface road.

The county requires four road rollers instead of two.

Judge Bushey and Commissioners Goulet and Beckwith are getting a great deal of volunteer work done.

When the property owners realize that there is no graft in road work they willingly contribute.

When we speak about graft in road work we do not mean that any county official or road supervisor ever stole a dollar or took one dishonestly.

But any system that can be worked against the public treasury will be worked.

The Marion county court made a grand start in the right direction when it refused to levy a dollar of taxes but for actual fixed charges.

A large general fund that could be reached after by grasping individuals was a constant incentive to corruption.

The people will be willing to levy a special road district tax when they find out two things, to-wit:

First—That they cannot get roads at the expense of the general taxpayer.

Second—That the money they do raise by taxation will be honestly expended.

For establishing these principles Judge Bushey and his colleagues are entitled to credit.

Marion county has about the lowest county tax levy in the state.

Marion county is on the soundest highway policy that has yet been adopted.

This county is getting along without a salaried county roadmaster.

It is not permitting road supervisors to overdraw their accounts a dollar.

It is applying business principles to road building.

While some matters might be done better and would be done differently by other officials, the present county court are not afraid to correct their own work when they have gone wrong.

Must prescribe some of the ingredients that are contained in Hood's Sarsaparilla—for all troubles of the blood, stomach, kidneys and liver.

They include sarsaparilla, stillingia, yellow dock, gentian, wild cherry bark, mandrake, dandelion, juniper berries, pipestem, etc.

The combination and proportions are our own formula and give power to cure beyond the reach of any other prescription or substitute. That's why it is wise to get Hood's and only Hood's.

KENTUCKY FEUDISTS ARE PLACED IN JAIL

[United Press Leased Wire.]
 Jackson, Ky., June 9.—Governor

Smith, his brother, Elisha, and Levi Johnson were arrested today, after a hot pursuit through the mountains by a sheriff's posse, and charged with complicity in the shooting of Ed. Callahan, the famous feudist and friend of the late Judge Hargis.

Governor Smith is the head of the Smith clan, which is one of the strongest feudist organizations in this part of the country.

Bloodhounds put on the trail of the man who shot Callahan led the posse to the Smith home. Occupants of the house were forced to admit that the trio arrested today had dashed up to the house late last night on horses that had been ridden hard. They left the worn-out mounts there, and, taking fresh ones, started into the hills. The officers rode hard, and by making use of short trails finally overtook the men, and placed them under arrest.
