#### SAWTELLE CITIZENS AID THE VETERANS

Soldiers' Home, Sawtelle, Cal., June 19.—The hardtack and water-fed veterans at the soldiers home here today are receiving contributions from sympathetic friends and neighbors of Sawtelle and their scant fare provided by congress is being eked out with donations from the Woman's Relief Corps.

The feature of the daily menu at the home is oleomargarine. Attention has been called to the fact that congress has placed its ban on oleomargarine in foodstuffs but considers it good enough for the veterans. The distribution of pension money, however, has permitted the veterans to ease their appetites and the strain under which the home has been laboring will be relieved by July 1, when the next quarterly allowance becomes available for the purchase of supplies.

This annual reunion of the pathfinders to Oregon will take place Saturday, June 26, at the beautiful grove on the J. A. Hunt place. There is not a more enterprising or public-spirited man in the Waldo Hills than Hon. J. A. #### SOCIAL

(Continued from Page 5.)

C. C. C. Entertains Its Director. The Cherry City Choral Club met in the Christian church Friday night for its regular practice under the direction of its efficient leader, Dr. H. C. Epley.

It appears that the doctor had been quite busy during the early part of the evening working around his new residence which is being erected on South Winter street, and had given little or no thought to the practice until the hour arrived, at which time he hurried to the church without any further preparations save that of putting on his coat and removing his overalls. Entering the door he removed his hat and using the palm of his hand for a hair brush he brushed the dozen or more hairs into place (for you know Doc hasn't as much hair as a football player). Then he proceeded down the aisle to the front of the church, where about 25 members of the chorus were waiting.

For about an hour he led them at a lively pace. About 9 o'clock some of the members who were best informed began to detect the odor of coffee from the not far distant

parlors of the church. But Doc—well, he just felt more like singing than he had for a month, and notwithstanding the fact that good work had been done for one evening he proceeded to dive into the anthem book for more.

It was about 9:05 when suddenly the doors of the church parlors were raised, the lights turned on, and the members with smiles on their faces, watched their director.

As he looked into the adjoining room his eyes fell upon a table loaded with many delicious foods that go to make up a first class feast, prepared with excellent taste by some of the lady members. Four tables had been arranged. One end of each table joined the other three so as

to form four wings and at the farther end of each wing a large "C" had been made of cherries, thus forming the four "C's," the initials of the club. A souvenir card with the four "C's" on it was also found at each plate. The doctor didn't care to sing any more, anyway, but proceeded to the banquet room, followed by the chorus. Doc said it was a complete surprise, and after making one more pass at the few unruly hairs, he bade them all be seated. It was a most enjoyable affair throughout, and after the banquet toasts were indulged in, but the best thing of the evening, aside from the surprised look on Doc's face, was a poem written by Mrs. T. M. Jones, a member of the chorus.
