SHE HAD THE LAST WORD ANYWAY

[United Press Leased Wire.]
Tacoma, Wash., July 7.—Mrs. Belle Sandefur, 2115 South G street, has the name of being practical enough to put to flight an armed highwayman. The bandit pointed a big revolver in her face last night, and while most women would have complied with his demand for valuables or else have screamed for help, or fainted, Mrs. Sandefur simply said: "I am not to be scared as easily as that by a young man like you," and he fled.

The attempted hold-up was perpetrated as Mrs. Sandefur stepped from a Tacoma avenue car at South 21st street, about 10:30 o'clock last night. The highwayman, who was masked, and appeared quite young, jumped from his place of hiding by the road-

side, and commanded her to hand over her valuables. Mrs. Sandefur defied him, and when another man was approaching the highwayman took to his heels. Mrs. Sandefur hurried home and notified the police, giving a good description of the would-be robber. Officers are on his trail today.

A falling tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or falling Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days, soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by Capital Drug Store.

BIG BARN BURNED IN MORNING FIRE

[United Press Leased Wire.]
Tacoma, Wash., July 7.—The barns of the Carstens Packing Company were completely destroyed, the boarding house and office were damaged, and the entire neighborhood was threatened by a fire which broke out about 2 o'clock this morning. The fire department responded quickly to an alarm turned in by an employe of the Carstens Company, and at 4 o'clock had the blaze extinguished.

HILL WILL BUILD TO CANADIAN LINE

Helena, Mont., July 7.—James J. Hill, the railroad magnate, has decided to build a branch line to the Canadian border and perhaps extend it later to Canadian Pacific territory.

That such a step will be taken is evidenced by a resolution adopted by the board of directors of the Great Northern railroad, directing that the proposed line be constructed from Poplar Valley county, to the Canadian border, a distance of 80 miles. If a report in circulation now here today is based on fact, the line will eventually invade the grain fields of Saskatchewan, thus competing with the Canadian Pacific railroad.

Sally Shaw, sewing.
Geo. L. Schreiber, woodwork and director of drawing and manual arts.
Whole number of teachers employed, 60.
Schools open on Monday, September 27.

The Board of Education is introducing manual training in a modest way. Realizing that woodwork for the boys would leave the girls in the same class unemployed, they have employed a teacher of needlework to occupy their hands while the boys are at their woodwork classes. The manual training for the boys will be carried on with a primitive equipment, going upon the principle of developing a system out of the material and the environment at hand, rather than buying a ready-made system and imposing it where possibly it would not fit. The work will be in charge of

Mr. Schreiber, who has introduced free hand and industrial drawing the past year so successfully, without text-books. The same system of doing things rather than theorizing will be pursued.

HE THINKS CRAPS A NICE BOY'S GAME

[United Press Leased Wire.]
Denver, Colo., July 7.—Advocating crap shooting as a pastime for city boys, whose play space is limited, Luther G. Gulick, president of the Playground Association of America, sprung a sensation today at the sessions of the National Education Association.

Gulick's address started a heated controversy by his advocacy of dice as playthings for city boys. Many of the delegates sided with the playground official, and others were as strongly opposed to the idea. The question promises to remain a bone of contention for some time to come.

The National Education Association is facing a serious financial problem, the outcome of which will probably be that the city offering the largest cash bonus will get the next national convention. The law of registration, which limits the registration of the association to 4000, has created the problem. The exchequer is low and there is no means of raising funds, except through a bonus offered by a city wanting the convention. It is reported that San Francisco has offered \$7000 for the 1910 convention.

Professor George B. Foster, the Chicago minister, charged with heresy, has been dropped from the roll of Baptist ministers. He says he does not care.
