Sheep for Sale—

Thirty head of fine Cotswold ewes and 30 head of Shropshire ewes. Will either sell or let out on shares to responsible parties. Phone 721 or see A. T. Wain. 7-15-2t.

Take Advantage—

Of all low prices at the removal sale of Barr's jewelry store. Watches, clocks, diamonds, silverware, cut glass, etc., must all go.

They Take It Easy—

As yet the police have learned nothing of the two men arrested recently for peddling silverware without a license. The fellows do not seem to take their arrest as any matter of consequence and their actions while languishing in the city bastille are quiet and indifferent.

Big Edition Saturday—

The Capital Journal will be a big booster edition Saturday and will contain matter of great value to send east. The Board of Trade will circulate 1,000 copies and many will be sent away by private citizens. Get copy ready for advertisements this evening and hand in early Saturday. Also personal and social items.

The Horses Skidded—

For a time yesterday afternoon citizens passing in front of The Journal office saw the street congested with scrambling horses. A bunch of them being driven north had just crossed the South Commercial street bridge took fright at a passing auto and bolted down the hard pavement. Several men rushed out at the corner of Ferry street and when the frightened animals attempted to stop, about half of them sat down and did the auto stunt—skidded. The man who was driving the bunch also had a mishap when his horse slipped, throwing him to the pavement. Luckily, however, none of the horses were injured and the driver came out right side up.

He Missed the State House—

Some unknown autoist evidently lost control of his machine while attempting to turn in at the state capitol driveway and the result was the careful gardeners now working on the lawn will be compelled to put in a few hours straightening up some newly sprouted plants and level the ground down again. The machine instead of keeping to the driveway ran out onto the side of the new lawn and the big wheels dug deep into the soft dirt for a good many yards.

Had His Case Dismissed—

On the motion of Attorney Carey F. Martin for the plaintiff in the damage suit of F. G. Goodenough vs. the Portland Railway, Light & Power company, Judge Burnett rendered a non-suit as the result of the suit being brought against the wrong company. Goodenough brought suit against the Portland Railway, Light & Power company, in which he alleged that he sustained injuries in boarding one of the company's cars, and for which he asked damages in the sum of \$5,000, but it was brought out yesterday by Attorneys John H. McNary and F. T. Griffith for the railway company that at the time the suit was commenced the property of the present company was in other hands—the Citizen's Light & Traction company by name—and consequently the plaintiff was attempting to recover damages from the wrong party.

Breeze Lost His Dog—

Breeze Gibson, the member of royalty and governor general of Polk county, was much perturbed this afternoon over the probable loss of his good dog "Shep." In some unknown manner Shep got strayed from his ever kind master, Breeze, and wandered off into unknown territory and Breeze was very nervous for a time when he discovered that his best friend had eloped with himself. Shep, in the meantime, had meandered up the stairway of the Bayne building on State street where he found things to suit his fancy and there laid while his master and friend was tearing frantically about town in search of him. Shep was found, however, and Breeze is back on earth again, ready to break into the king row or any old thing.

Bad News for the Fish—

Tomorrow morning a fishing and outing party consisting of Dr. J. D. Shaw, Will McGilchrist, Worth Smith, Ross Wimer and Frank Kaylor will leave for a two weeks' trip in the Independence Prairie country, 20 miles from Detroit. The spot in which the party will camp is full to brim with animal life and especially fish, and many an envious eye will see Dr. Shaw and his friends hiking for the tall timber. The party intends to do nothing but fish, eat salmon berries and wax fat on the expert cooking of the doctor, who, as he said, can handle cooking utensils just "like mother used to." He can diagnose a mulligan, operate on a flap-jack, or hold an autopsy on a pan full of fish, all in strict accordance with the ethics of the profession. He can also explain to the boys the workings of the pneumogastric nerve and deliver an instructive lecture on the sensation produced on the gustatory nerves during the process of deglutition and mastication. He can also eat fish as well as catch them, and administer a pill or dose of opodeldoo to his piscatorial exploiting companions should they need it.

WASH DAY Today and Tomorrow

we will hold a practical demonstration in our big show window with the Coffield Power Washer. We will actually wash clothes and prove to your satisfaction that the wash board is out of date and needed no more if you install a Coffield Power Washer. No complicated parts like other machines, nothing to get out of order, nothing to break. While it washes you rinse and hang out. We will put one in your home on trial. You'll need no further convincing. It proves every claim for itself. You'll like it—you'll want it. See it at work.
