

AFTER AN AMERICAN COMPANY

Canada's Refusal to Sell Fishermen Bait Is Only an Attempt to "Bust a Trust."

[United Press Leased Wire.]
Vancouver, B. C., July 19.—The action of the Dominion government in longer refusing permission to American halibut steamers to buy bait or coal in Canadian ports only regarded as the first move in a diplomatic campaign in which the Canadian authorities intend to assert what they claim as their rights in the Northern British Columbia halibut fisheries. The entire campaign of action is declared to be an elaborate one.

The Canadian government recently laid claim to the rich fishing waters of Hecla Straits and the Dixon entrance, on the ground that, under the Alaskan boundary award, they are extra territorial and exclusively within Canadian jurisdiction, even though they are outside the three-mile limit. This contention has been the subject of international correspondence between Washington, Ottawa and London, and to back up its claim the Canadian government is now making investigations and preparing a large quantity of official data relating to the matter.

It is stated here that the action of the government is a direct result of the lobbying done in Ottawa during recent months in the interests of Ca-

nadian fishing companies. For years the New England Fish Company, an American corporation, has held a virtual monopoly on the industry, through a special dispensation of the Canadian government, which permitted it to operate from Vancouver. Its profits are said to have run into the millions annually.

Attempts by Canadian fishermen to get a foothold in the halibut fishing business have failed, and finally their complaint was carried to Ottawa.

THIS FLYER WAS OF AQUATIC KIND

[United Press Leased Wire.]
Calais, France, July 19.—Perched upon the framework of his wrecked monoplane, Hubert Latham was calmly smoking a cigarette when boats came to his rescue after he had plunged into the waters of the English channel eight miles from the shore today. Latham was uninjured by the accident to his machine and the monoplane was but slightly damaged.

Latham was attempting to cross the channel when the accident occurred. He had traveled eight miles when the monoplane's motor suddenly slowed down and caused the machine to fall. The monoplane was 350 feet above the water when it began to glide swiftly downward. At a short distance above the water the machine dove straight downward into the waves.

Latham clambered onto the framework of the machine and with the aid of a waterproof cigarette and match case was able to enjoy a smoke while boats were putting off from shore to tow him in. He will resume his trials as soon as the monoplane is repaired.

DOG WAS FEEDING ON A HUMAN ARM

[United Press Leased Wire.]
San Francisco, July 19.—Detectives today solved the ghastly mystery attached to the discovery of a mongrel dog slinking along Lombard street with a human arm grasped between his jaws.

Policeman Hurd was patrolling his beat late yesterday when he saw the dog emerge from an alley dragging a bare, glistening human arm. He immediately gave chase and was joined by a score of horrified citizens. After a run of two blocks the animal dropped his burden.

The arm was found to have been neatly severed at the shoulder joint. It was mangled and torn where the dog had mouthed it. Police headquarters, when notified, detailed a squad of detectives upon the case. Early today a report was made that the arm had been unearthed from a dump heap, where it had been thrown by medical students.

BABY IS CRUSHED BY CARS

Mother Struck by Cars and Is Badly Hurt in Vain Attempt to Save the Little One.

[United Press Leased Wire.]
San Rafael, Cal., July 19.—After a heroic but vain attempt to save her baby daughter Vera from beneath the wheels of an electric train, Mrs. Ira Nelson lies in the Cottage hospital in this city suffering from internal injuries. The little girl, who was three and a half years of age, was killed instantly. The accident occurred yesterday about noon.

Mrs. Nelson and the baby were going to Alameda to spend the day. They were waiting for a train at the electric station. The noise caused by the approach of a northbound train attracted Mrs. Nelson's attention and as she glanced at the track she saw the baby girl standing directly in the path of the rushing cars.

With a cry of agony the frantic mother rushed to her baby. She was struck by the forward coach and buried unconscious to the platform. Little Vera's body was pitifully crushed under the heavy trucks. Mrs. Nelson, according to the reports issued from the hospital probably will survive her injuries.

HE TOLD THE WOMAN, SHE TOLD THE POLICE

[United Press Leased Wire.]
Seattle, Wash., July 19.—City Detective Hudson C. Hudson, of Seattle, and Detective Sergeant Thomas Ryan, of San Francisco, who has been working with the local force, announce today that they have run to earth what is considered the most skillful gang of thieves ever arrested on the coast. H. G. Moore, said to be an ex-convict from San Francisco, is the leader of the band. Claude Payne, who told the police that he had acted as Moore's assistant in several jobs, is held as an accomplice. Steve Arana, a former railroad man, was also arrested. Mrs. O. M. Slater, said to have deserted her husband in Portland, Or., is one of the women in the case. A great quantity of jewelry has already been recovered, but is as yet unidentified. Hundreds and possibly thousands of dollars' worth of additional plunder is scattered about Seattle, Vancouver, B. C., Portland and Tacoma.

Moore and his accomplices arrived here March 17, and since that time reports of burglaries have been made almost daily at police headquarters. Moore, who had been lavishing his money and his affections upon Mrs. Slater, tired of her society, and took up with another woman. The latest inamorata, hearing about Mrs. Slater, became jealous and told the police about the operations of the gang, having been let into the secret by Moore himself. The arrests followed.

To Show Prune Districts—
The Oregon Electric is contemplating the running of three or four excursion trains a week from Portland, which will be met here by automobiles and the excursionists will be shown through the prune districts at Rosedale and elsewhere in the vicinity of Salem.

MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is made of natural vegetable roots and herbs, and is a powerful purgative. It is used for constipation, indigestion, and other ailments. It is also used for menstrual irregularities and other gynecological problems. It is a safe and effective medicine for women of all ages.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action to ward off the serious consequences and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

HAY MARKET OF OREGON IS EASIER

Farmers generally are feeling very good over the results of the late rains. While a little hay was damaged no great loss was sustained by anyone. Many thought the hay crop, as well as the spring grain, would be short, owing to the continued dry weather, but the heavy rains during the second week in July have made much more hay than was damaged, and a large acreage of spring grain, which is being rapidly advanced as a result of the showers, is being cut for hay. The result is that the Willamette valley will have more hay than ordinarily, and, whereas many expected high prices for their hay, there will probably be a slump. A few sales were made at from \$12 to \$14 of the very first hay brought in, but only \$10 is being offered now for the best hay. This is a good price, and hay farmers will probably make more money this year than ordinarily.

The potato crop, which was a little uncertain up to two weeks ago, will now be a top-notch crop, and of the very best quality. The rains came just in time to keep the early potatoes growing, without making them "rough," and as a result the late potatoes have been given a start which will insure full hills.

HEED THE WARNING. Many Salem People Have Done So.

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of "brick-dust" sediment and painful in passage. Sluggish kidneys cause a dull pain in the small of the back, headache, dizzy spells, tired, languid feelings and frequent rheumatic twinges.

Doan's Kidney Pills are for the kidneys only; they cure sick kidneys, and rid the blood of uric poison. If you suffer from any of the above symptoms you can use no better remedy.

Salem people recommend Doan's Kidney Pills.
Mrs. Mary Baumgardner, 424 Water street, Salem, Ore., says: "I have found Doan's Kidney Pills to be a remedy of great merit, and I am pleased to endorse them so that other sufferers from kidney complaint may know how to get relief. I procured Doan's Kidney Pills at Dr. Stone's drug store, and several members of our family used them with the most gratifying results. I took Doan's Kidney Pills for a tired, aching back and a dragging down feeling, caused by disordered kidneys. The aching and soreness was removed, the kidneys were made normal and my health became better in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A falling tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days, soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by Capital Drug Store.

YOUNG MEN ARRESTED FOR ROBBING A SWEDE

[United Press Leased Wire.]
Coeur d'Alene, Ida., July 19.—A young man who says his name is Marshall Nevlin, and that his home is in Los Angeles, is being held in jail here today under \$10,000 bonds on a charge of highway robbery.

Horace Peyton, said to be the son of a Spokane millionaire, and Percy Thompson, reported to be a member of a prominent Spokane family, were arrested with Nevlin, but were released on bonds. It is charged that the three young men pulled Charles Reyn, a Swede, into an alley last night and robbed him of \$17.95. The police say Reyn seized Nevlin and yelled loudly for help. A crowd soon gathered, and the arrest of Thompson and Peyton followed.

The bond fixed in Nevlin's case is unusually large, because of the charge made by the arresting officers that a purse resembling the one lost by Reyn during the snuff was found in the prisoner's pocket. Nevlin says he cannot explain how it came there.

A Dainty Toilet Article.

Every lady who desires to keep up her attractive appearance, while at the theatre, attending receptions, when shopping, while traveling and on all occasions should carry in her purse a booklet of Gouard's Oriental Beauty Leaves. This is a dainty little booklet of exquisitely perfumed powdered leaves which are easily removed and applied to the skin. It is invaluable when the face becomes moist and flushed, and is far superior to a powder puff, as it does not spill and soil the clothes.

It removes dirt, soot and grease from the face, imparting a cool, delicate bloom to the complexion. Sent anywhere on receipt of five cents in stamps or coin. T. Hopkins, 37 Great Jones street, New York.
