AFTER CHICAGO GRAFTERS

[United Press Leased Wire.]
Chicago, July 22.—In his war on grafters State's Attorney Wayman has secured the greatest number of indictments ever voted by a grand jury in a single day. One hundred and five were returned yesterday, involving more than 300 persons, representing big and small alleged grafters.

The charges affect the levee districts, slot machines, saloons, gambling, and even country towns. The action of the state's attorney is the political sensation of the hour as it

is freely predicted that Wayman is after game higher up. He is said to be hot after the city administration. He caught a lot of the small fry in his net, in the hope that he might be able to wring from some of these men a confession involving "high ups."

JEFFRIES SAYS HE WILL FIGHT JOHNSON

[United Press Leased Wire.]
New York, July 22.—In a telegram addressed to a friend here today, James J. Jeffries announced that at the close of his theatrical engagement he will come to New York and post a forfeit for a fight with Jack Johnson. Jeffries is now in Minneapolis. His theatrical engagement will close on July 25.

Dr. Elliot soon found that people don't care for a star's advice on the best books to read, but are merely curious to line up a star's opinion alongside of their own.

REYELT'S STABLE BURNED

Had Such Headway When Discovered that the Horse Could Not be Saved.

At 3 o'clock this morning a fire started in the small barn belonging to C. W. Reyelt in the rear of his butcher shop on South Commercial street and burned the structure, together with a horse which was tied in the place.

Five minutes before the fire was noticed, Officer Eckhart passed down through the alley back of the barn and he is positive that there was no fire at that time, but after coming out of the alley onto Ferry street the officer met the night watchman of the sawmill and had talked with him but a few minutes when he discovered the fire. Officer Phelan also discovered the blaze and ran from the corner of Ferry and Commercial streets to the engine house to give the alarm. The fire department was on the ground within two minutes after the alarm was turned in and the fire was quenched in short order before it could have a chance to spread, but not in time to save the horse.

Owing to the fire having so much headway, Chief Darr could not tell what part of the building it started in, and the owner of the place could not form any idea as to the cause of the blaze.

WOMEN OF FAMILY ALL VOTED

[United Press Leased Wire.]
Denver, Col., July 22.—It looks today as though former Governor Buchtel should have consulted his wife and daughter before he made the sweeping assertion in New York recently that his wife and daughter shunned politics, "as do the majority of women in Colorado." Incidentally it appears that Buchtel did not mean it when he declared that only women of the lower type vote. Either Buchtel was expressing his private opinion far away from home or he was ignorant of the voting proclivities of the feminine branch of his family.

"My mother and I vote, and have not missed an election since we have had the right to vote," said Miss Emma Buchtel. "Logically," she continued, "I think women should vote. They have been given the right and their participation in politics should tend to better the conditions of women in every state of life."

"I do not think women appreciate the right that has been given them. Otherwise women would take a more active interest in politics than they have done heretofore."

"If we had to fight for our rights as the suffragettes of England and the other foreign countries have done, I think that by now an even greater majority of women would be seen at the polls at election times."

think they do not appreciate the power and right of the ballot, because of the many other privileges that we women of America enjoy. I think, perhaps, the women of higher rank—that is, the women of means—do not take a more lively interest in politics because of being wrapped up in more personal affairs. My personal interest would be aroused to a far greater degree if I were mixed in with the active working people and could follow more closely the affairs of the day. But, as it is now, I hardly appreciate my right to vote as much as will our English sisters."

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach. Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days, soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by Capital Drug Store.

STRIKE

(Continued from Page 1.)

ensued. The special police who were guarding the plant attempted to quell the strikers, and fired several volleys before they succeeded in driving the mob away from the tannery.

Officials of the company were in conference with the representatives of the strikers at the time. News of the rioting caused all negotiations to be abandoned.

When the strikers heard that there was little chance of their differences being settled at once they resumed their attacks upon the non-union workmen and special police. The sheriff, seeing that he was unable to cope with the situation alone, requested that troops be sent to the scene.

The riots throughout the day were not of such a serious nature as the first, and, unless General Falk is convinced that peace can be maintained by the civil authorities, he will order the militia to guard the tannery.

Kenosha, Wis., July 22.—Two men were wounded today in a riot, participated in by striking employees of the Allen tannery and non-union men, whom the strikers attempted to prevent from going to work. The injured men are strikers. Their wounds are thought not to be serious.

The rioting around the tannery continued throughout the morning, and finally became so fierce that the sheriff requested that troops be called out. If soldiers are sent to the scene there may be more serious trouble.

Hope of settling the differences between the tannery company and the

striking employees was shattered by the riot today. Officials of the tannery company were in conference with representatives of the strikers when the trouble started. As soon as the news of the riot reached the conference negotiations were broken off, and it now appears that the fight will be long drawn out.

The trouble started when a band of strikers attacked special police, who had been engaged to guard the property of the tannery company. Clubs and coupling pins were wielded by the strikers, and a veritable shower of bricks and stones was poured on the guards.

During the melee, Deputy Morehouse was struck on the head by a brick and knocked unconscious. He sustained a severe scalp wound. Policeman Nelson received a blow on the head from a heavy coupling pin in the hands of a striker. He was taken to a hospital, weak from the loss of blood.

The two strikers who were shot by the guards were foreigners. Neither was injured seriously.

Troops Ordered Out.

Milwaukee, Wis., July 22.—Troop A, First Cavalry, was ordered today to prepare to go to Kenosha. Quiet prevails this morning following the arrival of General Falk.

The strike is the result of the company's refusal to discharge a fireman an d to grant an increase of \$1 a week in wages. The company granted an increase of 50 cents, but refused to make it any more than that sum.

Bowel Complaint in Children.
When six months old the little daughter of E. N. Dewey, a well known merchant of Agnewville, Va., had an attack of cholera infantum.

Chamderlain's Colic, Cholera and Diarrhoea Remedy was given and effected a complete cure. This remedy has proven very successful in cases of bowel complaint in children and when given according to the plain printed directions can be relied upon with perfect confidence. When reduced with water and sweetened it is pleasant to take, which is of great importance when a medicine must be given to small children. For sale by all good druggists.
