CUBA IS ANGRY AT UNCLE SAM

Havana, July 26.—Great irritation is expressed by Havana newspapers at the United States government's action in regard to the dismissing of James Page, an American citizen, the chief engineer of construction on the Cienfuegos water works and sewerage system under the H. J. Reilly contract.

Engineer Page was recently notified of his discharge by the secretary of public works, against which action American Minister Morgan protested by instruction from Washington. The newspapers generally deem Mr. Morgan's course as unwarrantable interference in Cuba's internal affairs.

The Triunfo, the administration organ, says no protest has been made by the American minister, who, as a personal friend, has merely asked that Mr. Page be reinstated.

In spite of denials, it is known that the American minister personally protested against Page's dismissal to the secretaries of state and public works, and wired a protest to President Gomez at his summer home at Cayo Cristo.

Mr. Morgan's protest is based on the terms of the contract and Governor Magoo's decree appointing Page as chief engineer September 10, 1908, both of which declared that he should retain office until the work was finished unless removed by presidential order for cause after a public hearing.

Secretary Lagueruela admits that Engineer Page's work is satisfactory, and so far as can be learned, he only wants Mr. Page removed to make place for a Cuban.

Excitement over this affair has been intensified on account of its following closely upon the protests of

the United States government to the arms contract and the exchange of the arsenal for railway property on the Prado.

The newspapers complain that this indicates that it is the policy of the new American administration to enforce the Platt Amendment by interfering on the slightest pretext in the internal affairs of Cuba.

Diarrhoea Remedy the Best and Surest.

"It affords me pleasure to state that I consider the preparation known as Chamberlain's Colic, Cholera and Diarrhoea Remedy the best and surest of good results of any I have ever used in my family," says P. E. Herrington, of Mount Aerial, Ky. This is the universal verdict of all who use this remedy. Its cure is so prompt and effectual that people take pleasure in recommending it. For sale by all good druggists.

County School Superintendent Smith reports 618 increase in the school population during the past year.

A falling tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or falling Stomach Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days, soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by Capital Drug Store.

No man gets to be any better in character than he is willing others should be in condition.

STAYTON SAW MILL BURNED

The Miller & Son sawmill and 200,000 feet of lumber were destroyed by fire at noon Saturday, three miles west of Stayton. The loss will approximate \$50,000. There was no insurance.

The fire started around the boiler during the noon hour and in just 17 minutes the big mill was in ruins. The Stayton fire department was rushed to the scene with about 1000 feet of hose, but the mill was doomed before the department arrived. A desperate fight was made to save the lumber piles, and at 4 o'clock this afternoon the fire was under control, after more than half of the lumber had been destroyed.

The mill had been built only about two and a half years, and was owned by Miller & Son, prominent ranchers living near Scio. The principal owner was at work on his farm when the mill burned. The mill was cutting about 40,000 feet per day and employed about 30 men.

Brave Fire Laddies

Often receive severe burns, putting out fires, then use Bucklen's Arnica Salve and forget them. It soon drives out pain. For Burns, Scalds, Wounds, Cuts and Bruises it's earth's greatest healer. Quick! cures Skin Eruptions, Old Sores, Boils, Ulcers, Felons; best Pile Cure made. Relief is instant. 25c at J. C. Perry.

Children Cry FOR FLETCHER'S CASTORIA

TRAIN VALUED AT 1.50

One dollar and a half is the price placed upon a heavily loaded freight train by the Northern Pacific railway according to a story told by John Ryan, of South Tacoma. There is no premium upon heroism any longer, and it looks as though even Mr. Carnegie had gone out of the hero-medal business.

Mr. Ryan states that on last Thursday morning he was on his way to Cle-Elum, walking along the railroad track, and that at a point just this side of Thorp he noticed a spot where the rail had been broken, splitting it for a distance of twelve or fourteen inches, so that it would be impossible for any train to pass over it without going into the ditch.

There was no way to get word to the nearest station and the man had no means of knowing when or from what direction the next train would arrive, so he gave up his journey and waited to give the alarm to some train crew. After a space of nearly three hours a fast freight train appeared approaching from the west, and Ryan, taking off his coat, ran down the track and succeeded in giving warning to the engineer before he had reached the broken rail.

Several members of the train crew praised Ryan for his action, believing that, without his warning, they might have all gone with the train down into the river, and offered to give him a pass back to the city, but he refused, preferring to go on to Cle-Elum for work.

Yesterday Ryan came back to Tacoma and went to the local office of the railroad, where he told the Tribune, he was offered a check for \$1.50—a laborer's hire for the time he had spent looking after the train—and not even the thanks of the company for saving a train from destruction, and the crew from possible death.—Tacoma News.

HE GAVE A FINE PARK TO SILVERTON

A short time before his death, Al Coolidge deeded the five-acre tract of land in this city, commonly known as Coolidge Park, to the city of Silverton, but, for some unknown reason, the deed, although properly signed, had not been presented to the city and placed on record Tuesday afternoon, however, Alf Coolidge handed the deed to Mayor Rauch and that document was accompanied by a check for \$100 to be appropriated in making the necessary improvements in the property, and it is understood that the city will receive a check for \$100 every six months from Coolidge & McClane for an indefinite period, or so long as the park is kept in good condition.

In presenting this beautiful piece of property to the city, it is requested on the part of the members of the Coolidge and McClane families, that the park be called Coolidge and McClane Park, in memory of the donors, Al Coolidge and F. McClane, who were instrumental in the development of Silverton and surrounding country. This request will, of course, be regarded, and it is more than probable that the city will erect a monument at some early date in memory of those honored citizens, who have gone to their eternal rest. Just what action will be taken by the city in the way of beautifying the park cannot be determined until the next meeting of the common council, which will be held August 2, but it is certain that improvements will be speedily made, and Silverton will soon have one of the most beautiful parks in Oregon. Nature alone has made great provisions in affording a place in this city for recreation, and, with the money which has been provided, the park can be made a credit to all Silverton.

Coolidge and McClane park is conveniently located on the west side of Silver creek, immediately at the foot of a beautiful timber-covered hill, and, without ornamentation, other than which nature has provided, is a most beautiful spot, where people love to assemble in the summer season for recreation.

Mayor Rauch has suggested that an experienced man be employed to furnish specifications of the work required to place the park in a condition that would most likely meet the expectations of those who so generously donated it to the city, and this seems like a very good suggestion. Now that the property has gone into the hands of the city, we should take pride in such a park as will speak creditably for Silverton—Silverton Appeal.

THEY "RELIEVED HIM" MUCH AS POSSIBLE

[United Press Leased Wire.] San Francisco, July 26.—Horace Harcourt, a phrenologist, and Hamil Robinson, a spiritualist, were arrested today and charged with grand larceny. John Bleizfor, a retired Austrian army officer, is the complainant. He alleges that the two men extracted \$400 from him in an effort to cure him of a disease, and they told him nothing could be done to relieve him further.

The phrenologist and his spiritualist friend were arrested by detectives at their office at 1183 Market street.

STOCK MARKET SHOWS MUCH LIFE

[United Press Leased Wire.] New York, July 26.—Efforts were made to boost the stock market today but no interest whatever was taken by the public and the result was a general decline in the big list.

Reports of heavy sales of copper metal were made to influence a favorable quotation toward Amalgamated Copper and its allied shares, but Amalgamated closed 1 1/2 points under Saturday, while there was but little change in Smelting shares.

Lack of interest and nominal trading contributed mostly toward the downfall of the general list today. Brooklyn Rapid Transit came in for a decline of nearly a point although there was a slight advance in St. Paul.

Louisville and Nashville was one of the few stocks to be bullish. Steel shares were active and a trifle lower.

TRIAL OF BRIBE-TAKER DELAYED BY WITNESS

[United Press Leased Wire.] Los Angeles, July 26.—The proceedings in the trial of Thomas Broadhead, who is charged with accepting a bribe, was abruptly postponed today when it was announced that T. T. Earl, the millionaire fruit grower, one of the star witnesses for the defense, could not be found.

The case was continued until next Monday in order to give the attorneys for both sides an opportunity to locate Earl.

DENVER HAS A BAD LODGING HOUSE FIRE

Denver, July 26.—A dozen men, women and children were rescued from a burning lodging house early this morning by firemen and police. The fire was discovered by policemen and the firemen confined the flames to the cellar, where the blaze originated.

Those who were injured were hurried to a hospital and it is understood that all will recover.

LOS ANGELES HAS LODGING HOUSE FIRE

Los Angeles, July 26.—A loss of \$70,000 was the estimated damage done by fire, presumably caused by spontaneous combustion, yesterday at the plant of the Port Costa Milling company, 1709 San Fernando street. The blaze was discovered by a watchman in the milling room. An alarm was turned in immediately and when the firemen arrived the blaze was well under headway and the firemen could not save the building and had a hard fight to prevent the destruction of the Standard Oil company's tanks near by.

Manager Mead stated that the building is owned by the milling company and that there is a large amount of insurance on the stock, machinery and building, but not enough to cover the loss.

SOUVENIR GHOULS WORSE THAN ICE FLOES

[United Press Leased Wire.] San Francisco, July 26.—Though the tiny sloop Gjon survived the icebergs of the Northwest Passage under the able guidance of Captain Amundsen when she made the first known voyage through the long-sought-for straits, the little vessel is being wrecked by the continual onslaughts of curio hunters armed with jack-knives. Since the sloop was hauled to its retreat in Golden Gate park a week ago, an army of souvenir hunters has made an attack on the wood of the sides. Huge slices have been whittled away and now the police have been instructed to arrest any one who desecrates the little boat.

FRISCO ENGRAVERS RETURN TO WORK

[United Press Leased Wire.] San Francisco, July 26.—Following the signing of an agreement, 49 of the 65 members of the local photo engravers' union returned to work in commercial shops today. The engravers were locked out directly by the local newspapers, with the exception of the Daily News, and the commercial shops were dragged into the controversy when they attempted to prepare "cuts" for the daily press.

The proprietors of the commercial shops agreed to maintain a neutral stand regarding the quarrel between the union and the publishers, and the engravers returned to their work.

THOUSANDS STRIKE: TROOPS CALLED OUT

[United Press Leased Wire.] Barcelona, July 26.—Thousands of workmen quit work today, declaring a general strike to show their dissatisfaction of the government's intention to continue the war in Morocco.

The government immediately ordered the troops out, and declared a state of siege, by proclaiming martial law.

OUR SLOGAN

1. We are an independent, conservative bank.
2. We boost our bank, our clients, Salem and the Willamette valley.
3. We collect interest, pay interest and pay dividends.
4. We "knock" no enterprise nor competitor but encourage every legitimate industry and undertaking.
5. We give courteous consideration to the requirements and credits of our clients.
6. We measure our success by the standard of safe, satisfactory service rendered our customers and correspondent banks.
7. We are a progressive bank in a progressive city and the progressive policies of the United States National Bank are evidenced in our modern, up-to-date methods and the erection of the new five-story steel structure as our future home, the completion of which is a boost to every citizen of Salem, and enhances the value of every dollar invested in the city.
8. Our unprecedented growth and increase of deposits is conclusive evidence to us that our citizenship is responsive to the assistance we have rendered the city and are bent on boosting us—for which we express our grateful appreciation.

On the strength of these facts we solicit your banking business.
