

# PORTLANDERS PLAN COOS BAY VISIT

Rose City Men Will Aid Citizens of Rich Coast Empire in Campaign for Railroad Facilities — Oregon-Idaho Congress.

Portland and Willamette Valley business interests are preparing to send a big delegation to the annual meeting of the Oregon & Idaho Development league, August 20-21, not so much for the sake of attending the league as to win the people of Coos Bay, where the convention is to be held, from their San Francisco patronage to a permanent loyalty to Portland business houses.

Securing a representative attendance at the session comes in line with the campaign of Portland commercial bodies, announced exclusively in the Journal some time ago, to bend every energy toward developing business enterprises of the state tributary to Portland.

The plans made at the time included not only irrigation projects in central Oregon, but the adoption of any legitimate means by which the business which coast cities have been giving San Francisco might be won for Portland.

### Invitation from Coos Bay.

The commercial bodies of Coos Bay have issued a very fascinating invitation to the boards of trade and to commercial clubs and development leagues of the state to attend the great booster congress to be held on Coos Bay August 20-21. They offer a great program of entertainments and all who have been on that beautiful inland Mediterranean know the unlimited capacity of the people down there to show their appreciation for visitors. Read the following and plan your affairs to take in Coos Bay at the most delightful season of the year:

"There will be held on Coos Bay August 20 and 21 the annual meeting of the Oregon & Idaho Development league. This league was organized a year ago by some of the most prominent men of the two states, headed by Senator Chamberlain, who

was at that time governor of Oregon. "The object and purposes of this organization are and have been to more closely ally the business and commercial organizations of the two states that are directly affected by either limited transportation facilities, or, as in a greater portion of the two states, by no modern transportation facilities at all. This condition affects the material interest of the two states, and particularly the area of such states without transportation facilities, which is by far the major portion thereof. In fact, it has become a common expression by public speakers of press and platform that 'we have an empire not touched by rail.' This condition affects every community of the two states. Are not the citizens of the Willamette and Umpqua more particularly affected by it? Your citizens do not average over 70 miles from water transportation, yet you have to pay tribute to a transportation condition averaging 250 miles.

"You also have an empire directly to the east of you, but there is no railroad or modern transportation condition which will assist in either the upbuilding of that section or your own development.

"In a very short time the Panama canal will become a fact and European emigration will come directly to our shores. Would it not be more directly to our interest to have them landing at our own seaport rather than by the bay of San Francisco or Puget Sound? These are some of the many important features to be discussed by this congress.

"That the work of this congress may be effective by more thorough organization and co-operation we invite you to send a delegation to co-operate with us in this work.

"The cities of the bay are planning to give our delegations and visitors

an entertainment more especially fitted to this locality, such as parade of launches carrying the delegates and visitors the entire length of the bay to the seashore, 'crab lunch,' demonstration and drill by the life-saving crew—the taking of persons from our largest vessels by the life-savers, 'clam bake'—a trip by launches up the scenic river of Coos; a trip to one of the most modern sawmills of the coast, where a ship with a capacity of 2,000,000 feet is loaded in twenty-three hours; trap-shooting and dancing will also be some of the features.

"You are especially invited to bring your wives, daughters and sweethearts.

"The climatic conditions and scenery here are unequalled anywhere and many have signified their intention of taking this time for their rest and vacation, so join them.

"Col. E. Hofer, of Salem, and Mr. Riley Atkinson, of Boise, Idaho, respectively president and secretary of the league, have authorized the local organizations of the bay to extend invitations to all commercial bodies interested and arrange for a program of social entertainment. The list of speakers is being compiled by the officers of the league and will be issued later. We would say, however, that the senators, representatives and governors of the two states have been invited to be present and take part in the discussions. Already we have assurances of the presence of other prominent speakers.

"We will in a very short time, send you for distribution our program and tickets that will entitle delegates and visitors to the courtesies of our program and entertainments.

"Hoping you will have a delegation present and that you will so notify us at an early date, we remain," etc.

### Choose Teachers at Jefferson.

Mrs. Edna B. Allen, of Jefferson, has been elected teacher of the eighth grade in the Lebanon public school for this year. A full corps of teachers has now been secured, as follows: Prof. F. M. Stotler, superintendent; Miss Esther Johnson and Leslie P. Miller, high school; Mrs. Edna B. Allen, eighth grade; Miss Lulu B. Pohl, seventh grade; Jos. Benner, room 4 and principal of the Second street building; Miss Alpha Donaca, room 3; Miss Edna B. Knotts, room 2; Miss Lillian Hardwick, primary.

## STUDY THE ABOVE MAP

BLOOMER'S ADDITION to the City of Newport, Oregon, is now on the market for the first time. The tract is located about half way between Nye Creek and Newport, and consists of some 30 lots, on the rising ground directly above the ocean. Each lot is but a few steps from the beach and commands a view of the ocean or surf for miles north and south. To the north can be seen Jump Off Joe and the Yaquina Head Light. To the south the entrance to Yaquina Bay and the Lifesaving Station. The property is about a five-minute walk from the boat landing in Newport. It is reached by a new six-foot board walk, which runs in a straight line from the Ocean House Hotel in a northwest direction to the lots. This is now the most popular walk in Newport on account of its beautiful surroundings and magnificent view of the Pacific when the end is reached at BLOOMER'S ADDITION. Here before the observer the ocean and the beach stretch for miles and miles.

### A WORD ABOUT YAQUINA BAY

You could not find a more interesting location to spend your summer than around this beautiful bay, which is commended by those who know, to be the most beautiful summer resort, NATURALLY, of any on the Pacific coast, barring none. Hunting and fishing are unequalled, and the many places of interest close to Newport, such as the Lighthouse, Otter Rock, Seal Rocks, etc., make it an ideal place to own a summer home.

### NOW LOOK AT THE MAP

You will see that BLOOMER'S ADDITION is right on the ocean, and yet has the great advantage of being close to the bay and town, with no steep hills to climb to reach it. The beach in front of the property is good for bathing and the gathering of rock oysters. Mr. Bloomer has already built two beautiful cottages on these lots for his own personal use. Mr. Bloomer is a Seattle man, and intends to make this the most popular addition to Newport.
