NO. 168.

## FANATICS SURROUND SPANIARDS

Spanish Soldiers Have Their  
Backs to the Wall and  
Are Fighting for  
Their Lives.

## DECLARE HOLY WAR

THIRTY THOUSAND MOORS NOW  
THREATEN SPANISH FORCES  
WITH ANNIHILATION—TRIBES-  
MEN ARE FLOCKING TO THEIR  
STANDARD.

[United Press Leased Wire.]  
Gibraltar, July 30.—Melilla ad-  
vices declare that the Spanish sol-  
diers under General Marina are now  
fighting for their lives. Surrounded  
on every side by 30,000 fanatical  
Moors, the dons are with their backs  
to the wall. The Moors are constant-  
ly being reinforced by natives from  
Cueta and Molmuga.

A proclamation declaring holy war  
against the Spaniards was issued to-  
day at Cueta, and was transmitted  
to Mouaya, the leader of the Kabyle  
tribesmen.

With the holy war on and the  
Moors occupying the positions they

now hold, the Spanish army in the  
field stands in danger of annihila-  
tion.

## HOT-AIR SCRAPPERS TO MEET TONIGHT

[United Press Leased Wire.]  
Denver, July 30.—"I've got to  
fight," said Jack O'Brien this after-  
noon when commenting on his six-  
round, no-decision contest with James  
Flynn tonight at the city auditor-  
ium. Continuing, he said:  
"I'm in such shape with the public  
that I have got to mix things from  
the start or the public will say I'm  
faking again."

Both men are confident and Flynn  
says that he expects to make it clear  
that he is the best man.

There is some opposition develop-  
ing to holding the fight here and the  
feeling against the contest is height-  
ened and aggravated because the  
gloved knights are to battle in a  
building belonging to the city.

## FOREST FIRES ARE DOING GREAT DAMAGE

Spokane, Wash., July 30.—The  
Northern Pacific railroad is sending  
a large force of fire fighters to Bon-  
ner's Ferry, Idaho, today to fight a  
fire which is said to be threatening  
the Kootenay forest. Reports re-  
ceived at the forestry headquarters  
at Missoula, Mont., say that the  
flames have assumed alarming propor-  
tions, and that great damage will re-  
sult if they are not checked quickly.  
Fires are also reported along Clark's  
Fork and Gold Creek, across the Ida-  
ho mountain line. The Idaho fore-  
stry department has asked for aid  
from the Montana side, and men are  
being sent.

## ALICE MINTO MAH HO

Mystery of Little Girl Found  
in Chinese Den in San  
Francisco Rapidly  
Clearing.

## CHILD IS A SYRIAN

MAUD E. WILLIAMS, SALVATION  
ARMY CAPTAIN OF BELLING-  
HAM, WASH., TOOK CHILD TO  
ALAMEDA AT REQUEST OF THE  
REV. MR. BAYNTON.

[United Press Leased Wire.]  
Bellingham, Wash., July 30.—De-  
nying indignantly that she was the  
person who placed the child known  
as Alice Minto (Mah Ho) in the  
hands of a Chinese family of San  
Francisco, and asserting that the  
little girl is of Syrian instead of Ital-  
ian parentage, Miss Maude E. Wil-  
liams, a Salvation Army captain of  
this city, avers the child was given  
to the Chinese by Rev. Raynton of  
the California Home Foundling So-  
ciety.

"Rev. Mr. Baynton gave the child  
to the Chinese family," said Miss  
Williams this morning. "All I had  
to do with the matter was simply  
bringing the child from Alameda for  
Mr. Baynton and turning it over to  
the Chinese woman. I did this sim-  
ply as an accommodation to Mr.  
Baynton because I was familiar with  
the Chinese, having worked among  
them for eight years."

I protest against the assertion  
that I gave the child to the Chinese  
family. Mr. Baynton informed me  
that the child had Oriental blood in  
its veins and for that reason it was  
difficult to place it in a white fam-  
ily. In fact, it was placed in white  
families three times and given up. I  
cannot understand how the records of  
the society show that it was in my  
possession at any time."

## GIVES UP HIS LIFE TO SAVE A NICKEL

[United Press Leased Wire.]  
San Francisco, July 30.—Charles  
C. Todd, freight clerk for the South-  
ern Pacific, was shot and probably  
fatally wounded this morning by  
Lloyd Brubaker, conductor of a North  
Beach car. The shooting was the  
result of an altercation over the pay-  
ment of a fare.

Brubaker was arrested shortly af-  
terward and asserted that Todd pulled  
a gun on him when asked to pay his  
fare. From his cot at the emergency  
hospital Todd avers that he had no  
weapon, or there would have been  
a double shooting.

Todd told the authorities that he  
was at fault. He transferred at Ken-  
tucky and Sixteenth streets. From  
there it is but two blocks to the  
freight warehouse where he is em-  
ployed and he forgot to get a trans-  
fer.

Brubaker demanded money and  
Todd told the carman that he had  
none and was to get off two blocks  
further. Brubaker insisted and a  
moment later the men began to fight.  
Finally Todd was forced from the  
car. Then Brubaker shot the clerk  
through the neck, the bullet rang-  
ing downward and lodging in his  
shoulder.

Brubaker claims he committed the  
deed in self-defense. He says that  
Todd first pointed a small gun at him  
but for some reason the trigger would  
not work. This gave the carman time  
to draw his revolver, which he fired  
only after Telling Todd to put his  
pistol down, according to his story  
to the arresting officers.

State Special Officer Beggs, who  
discovered Todd after Brubaker had  
continued his interrupted trip, found  
no gun on Todd and close examina-  
tion in the vicinity has failed to re-  
veal the weapon alleged to have been  
in Todd's hands at the time of the  
shooting.

## THE TARIFF FINALLY AGREED ON

Rates Reduced on Some Things  
and Materially Increased  
on a Great Many  
Others.

## PRINTERS MUST PAY

TARIFF KEPT UP FOR NEW EN-  
GLAND PAPER MAKERS—AGREE-  
MENT REACHED THROUGH A  
SERIES OF TRADES, EVERY  
CONGRESSMAN GRABBING.

[United Press Leased Wire.]  
Washington, July 30.—President  
Taft will sign the tariff bill as sub-  
mitted to the house today by Rep-  
resentative Sereno Payne as soon as  
it is passed by congress, according  
to reports here today. Although the  
president is not thoroughly satisfied  
he expressed the belief that in the  
main the revision was downward. He  
regards the bill as an improvement  
over the Dingley bill now in effect.

Washington, July 30.—Represent-  
ative Sereno Payne presented the  
tariff bill to the house today. When  
the house acts on the measure it will  
go to the senate. Under the rules  
neither house can amend the mea-  
sure. It must be accepted, rejected or  
referred to a committee.

The bill, as presented to the house,  
is a decided victory for President  
Taft in his fight for downward re-  
vision. The conferees, after receiv-  
ing the President's ultimatum yester-  
day, gave way before his demands  
and made the alterations Taft has  
insisted on. Only the President's  
plain intimation that he would veto  
the measure if they did otherwise  
forced the concessions.

Payne, in presenting the bill to the  
house, explained that the duties had  
been lowered where they were too  
high, and raised where the tariff had  
been insufficient for protection, and  
where the importations were very  
great.

He then presented a list which  
showed the consumption and values  
of articles on which the rates of duty  
had been increased or decreased, and,  
in all cases where the amount could  
be ascertained, the total of produc-  
tion.

The bill as presented includes:  
Free hides.  
Free crude petroleum.  
Duty of 45 cents a ton on bitu-  
minous coal.  
Duty of 15 cents a ton on slack  
coal.

Duty of 15 cents a ton on iron  
ore.  
Duty of \$1.25 per thousand feet on  
rough lumber.

Dingley rates on gloves.  
Slight increase in the rates on  
hosiery.

Boots and shoes 10 per cent.  
Sole leather 5 per cent.  
Dressed leather 7½ per cent.  
Saddlery and harness 20 per cent.  
Duty of \$3.75 a ton on print pa-  
per.

Free wood pulp, provided recipro-  
city is granted; otherwise 1-12 of 1  
cent a pound.

Senate rate on finer grades of cot-  
ton.

Slight reduction on low grades of  
cotton cloth.

The corporation tax in lieu of the  
inheritance tax.

Senate maximum and minimum  
provisions.

Tariff board to advise the Presi-  
dent, but not congress.  
Customs court provision.

Maintenance of the present draw-  
back system, with certain privileges  
for millers importing wheat for the  
manufacture of flour.

the value of the annual consumption  
of the class of lumber on which the  
tariff is increased is but \$31,380,372.  
Duties on all wines and liquors  
are increased, the value of the total  
consumption being \$462,001,856.

The total consumption value of all  
articles on which the duty is raised  
is \$852,512,526, while the total con-  
sumption value of all articles of  
which the tariff is decreased amounts  
to \$4,498,122,122, according to  
Payne's list.

Payne, in presenting his statement,  
which was in the form of a table  
showing the increases and decreases  
said that the experts had used all of  
the information available in the cen-  
sus office and from other sources in  
preparing the list. He says, however,  
that these had been insufficient to  
represent the total consumption of  
either class of articles.

The report of the conferees was a  
five-thousand-word statement pre-  
sented the increases and decreases in  
the tariff, compared with the rates  
existing under the Dingley law.

Three printed pages were filled  
with lists of articles on which the  
rates of duty had been advanced and  
eight pages were filled with lists of  
articles on which the tariff had been  
reduced.

Payne, in his statement, said that  
if the total amount of consumption  
were available the contrast between  
the amount of goods on which duty  
has been lowered and the amount on  
which it had been increased would  
be much more striking.

Compared with the Dingley rates  
the revisions upward include the fol-  
lowing:

Fancy soaps, increased from 15  
cents per pound to 50 per cent ad  
valorem.

Razors generally increased.  
Shingles increased from 30 cents  
to 50 cents per thousand.

Hops increased from 12 cents to  
16 cents per pound.

Pineapples increased from \$7 to \$8  
a thousand.

Lemons are increased from 1 cent  
to 1½ cents a pound.

Wines and liquors are increased  
15 per cent.

Opium and cocaine are increased to  
50 cents an ounce.

Cocoa is increased to 5 cents a  
pound.

Making the same comparison the  
revisions downward include:

Cash registers, linotypes, typewrit-  
ers and all steam engines are reduced  
from 45 to 30 per cent.

Sugar is reduced from 1.95 cents  
to 1.50 cents a pound.

Salt is reduced from .2 cents to  
11 cents per hundred pounds.

Wood pulp is reduced from 1.12  
cents a pound to .75.

Oil is free without a countervailing  
duty.

Hides are reduced from 15 per  
cent ad valorem to free.

Dressed leather is reduced from  
20 per cent to 10 per cent.

White lead from 2½ cents to 2½  
cents a pound.

Iron ore from 50 to 40 cents a ton.  
Fire brick from 45 to 33 per cent.

Pig iron from \$4 to \$2.50 a ton.  
Scrap iron from \$4 to \$1 a ton.

Steel rails from 7-20 of a cent to  
7-40 of a cent a pound.

Cotton rates are approximately 3  
per cent above the Dingley rates.

Wool tops are reduced by being given  
rates between combed wool and yarn.

Small reductions are made in the  
rates on yarns, woolen cloth and cot-  
ton warp.

Duties are unchanged on china-  
ware, cheap laces, watches, clocks,  
stockings worth more than \$2 a doz-  
en and gloves.

Otherwise the rates in the Dingley  
woolen schedule are retained.

The statement showing the con-  
sumption value of articles on which  
the duty was increased and decreased  
show a balance of increase, not on  
articles of luxury of \$277,662,293.

## POSSES ARE AFTER TWO MURDERERS

[United Press Leased Wire.]  
Wisdom, Mont., July 30.—Posses  
of stockmen are riding through the  
mountain today in pursuit of Lewis  
and Frank Cundriff, following the  
shooting of Frank McLain, a freight-  
er and stockman, by one of the broth-  
ers last night.

## HARRIMAN'S GREATEST AMBITION

Will Merge Great Railroads  
and Be at Head of Great  
Transcontinental  
System.

## WILL THEN RESIGN

NEW YORK CENTRAL, CHICAGO  
& NORTHWESTERN AND UNION  
AND SOUTHERN PACIFIC WILL  
UNITE—WOULD BE GREATEST  
COMBINATION IN WORLD.

[United Press Leased Wire.]  
New York, July 30.—The steady  
advance of New York Central stock,  
which reached 140 yesterday, coupled  
with the highwater mark of \$200 for  
Union Pacific, is responsible for the  
revival of the rumor that E. H. Har-  
riman is about to engineer a gigantic  
merger that will embrace the New  
York Central, Chicago & Northwest-  
ern and Union and Southern Pacific  
railroads, merging the whole into  
one vast system and under one man-  
agement, instead of several systems.

It is believed that Harriman's bad  
health will hasten instead of defer  
the announcement of the matter, as  
it is expected that he will retire from  
active life after a brief enjoyment  
of his greatest known ambition, to  
be at the head of a trans-continental  
system.

Wall street experts declare that  
New York Central stock is being  
made active in preparation for the  
rumored change of control. The  
merger supposedly will take place  
soon after the crops are ripe, and  
congress has settled the traffic rates  
by the passage of the statute.

## QUAKE SHAKES MEXICO

[United Press Leased Wire.]  
Mexico City, July 30.—Two severe  
earthquakes shook Mexico City and  
vicinity today. The severest shock  
was registered at 4:15 a. m.

Six persons were killed and a score  
severely injured.

Acapulco, on the west coast, is  
reported in ruins.

Reports from other cities on the  
coast, and from this locality are brief  
though it has been ascertained that  
immense damage has been done in  
many localities.

Property damage in this city was  
slight, owing to the peculiar build-  
ing construction here.

No Americans were among the  
killed or injured.

The temblors lasted more than  
two minutes, and were the most se-  
vere experienced here in years.

## He Went Gunning For Aeroplane.

San Francisco, July 30.—Ludwick  
Kuzinsky, a Russian student touring  
the world, had been drinking in all  
the information possible about fly-  
ing machines, Wright brothers, Ble-  
riot and others, before he grew en-  
thusiastic on Pacific street last night.  
With his eyes glued to the heavens,  
he ran down the sidewalk. He was  
flourishing a revolver when two pa-  
trolmen began pursuit.

But Kuzinsky was not on murder  
bent. He saw airplanes, winged birds  
of passage. His hunting instinct was  
aroused and just before the husky  
bluecoats fell upon him from the rear  
the Russian fired two shots at the  
imaginary aeroplanes.

At the jail this morning Kuzinsky  
said mournfully: "America is not  
much different from Russia. I have  
been here just one week and now I  
have no liberty."

## Salem's Big Department Store

Still Continues Its Great

## CLEARING SALE

We are now giving to the people  
the greatest values that were  
ever offered by any house in  
this part of the world.
