## SWEDISH UNIONS STRIKE

Appoint Hundreds of Their Members for the Purpose of Maintaining Order.

## CAR SERVICE STOPS

STRIKE IS GENERAL INCLUDING ALL TRADES AND EXTENDING TO ALL LEADING CITIES—TROOPS ARE STATIONED AT MANY POINTS.

[United Press Leased Wire.]  
Stockholm, Aug. 4.—The allied trades unions of Sweden, which includes every form of industry, issued a general strike order today. The labor officials hope to have the order in effective operation within 24 hours. The leaders declare that half a million workers will quit work. Troops have been summoned to prevent rioting. Car men joined in the strike this afternoon and not a car is running in the city. The strikers insist that there will be no violence and to show sincerity

detailed several thousands of men who are members of the striking organizations to help preserve order.

## WILL DROP THE CURTAIN TOMORROW

[United Press Leased Wire.]  
Washington, Aug. 4.—The senate leaders this afternoon stated that the elather schedule will be passed within a few hours after the vote on the conference report tomorrow and that President Taft will sign the bill immediately after, so that it will become effective on Friday of this week.

The finance committee this afternoon formulated terms for the leather resolution on changes on the maximum clause.

Evidence that the end of the tariff gift is at hand was presented in the fact that scarcely a dozen senators were present this afternoon while Stimmans of North Carolina was attacking the bill.

## LEFT CUSTOMS COURT WITHOUT ANY FUNDS

[United Press Leased Wire.]  
Washington, Aug. 4.—The conference committee today, in considering the urgent deficiency bill, refused to appropriate any fund for the salaries and expenses of the members of the new customs court contemplated in the tariff bill.

An appropriation of \$100,000 for the state department was agreed to, it being provided that the funds are to be used in negotiating treaties and trade agreements under the new tariff legislation and for the maintenance of a division of the department to be devoted to eastern affairs.

## A RANCHER BRUTALLY MURDERED

Shot in His Corral With His Own Rifle and Body Then Dragged 200 Yards to House.

## FOUND IN BASEMENT

FIEND WAS DELIBERATE AND AFTER THE SHOOTING PLACED RIFLE BACK WHERE HE GOT IT—ROBBERY WAS UNDOUBTEDLY THE CAUSE.

[United Press Leased Wire.]  
Oakland, Cal., Aug. 4.—Manuel Garcia, 37 years of age, a rancher living in Centerville, was brutally murdered two or three days ago on his ranch by an unknown fiend whose object was evidently robbery. The body of the murdered man was found today by Antone Bentunius, a neighbor, who reported the affair to the authorities. Deputy Coroner J. C. Reimers, with other officers, hurried to the scene of the tragedy and made an investigation. The result of their investigation is told by Reimers as follows: "Bentunius is a near neighbor of Garcia. He is familiar with Garcia's movements. Bentunius tells me that Garcia was in the habit of visiting his ranch every day to care for the stock on the place. For two or three days Bentunius missed Garcia, and as the stock was wandering on the road and uncared for about the ranch he decided to make an investigation. "He found the ranch house wide open with no trace of recent tenants. Continuing his search he opened a door leading to a small basement under the house and was horrified to discover the body of Garcia lying on the ground. "The body was torn open by a bullet from a 44-calibre rifle, which smashed through Garcia's breast, and the head was cut open and crushed blows from an axe. "It is surmised that the murderer failed to kill his man with the rifle and resorted to the axe to finish his fiendish work. "When the officers arrived a more thorough search was made and it was discovered that Garcia had been killed in the corral and his body was then dragged to the house and hidden in the cellar. In the corral we found the bloody axe and large splashes of blood. Traces of blood were found leading from the corral to the house. "The murderer evidently entered Garcia's house, took Garcia's rifle, which was standing against the wall, went to the corral and shot his victim. He then picked up the axe and finished his work. Then he dragged the body two hundred yards to the house, placed the rifle back in the position he found it and disappeared. The rifle was found to have one empty shell in it and the barrel was dirty, showing recent use. "It was a generally known fact that Garcia was in the habit of carrying considerable money on his person and it is thought that the murderer's motive was robbery. Whether or not he reaped any financial reward for his crime is not known. Garcia's body has been removed to the morgue, where an inquest will be held. Dr. Abbott, coroner of Contra Costa county, is conducting an investigation, aided by Sheriff Barnett and his deputies.

## CHICAGO CHOOSES A WOMAN

Mrs. Ella Flagg Young Is Appointed Superintendent of City's Schools.

## IS 65 YEARS OF AGE

SHE ALSO DRAWS THE HIGHEST SALARY OF ANY WOMAN EDUCATOR IN UNITED STATES—IS PAID LESS ONLY THAN NEW YORK MAN.

Criticism of the precedent set by Chicago in the choice of a woman for the superintendency of its schools and for the \$10,000 emolument thereof, has become national and involved also the threadbare theory charged to Osler, as the appointee is 64 years of age. Mrs. Ella Flagg Young, principal of the Chicago normal, becomes the highest salaried woman educator in the United States and the second highest salaried superintendent of schools in the United States, only Superintendent Maxwell of New York having better pay. The appointment shoulders upon her and relieves the board of education of all responsibility in the fight against the book trust. Mrs. Young, who is a slight, dark-eyed, gray-haired woman, has ably served in numerous important capacities in Chicago's schools for years. She is a firm advocate of industrial education, in manual training, household arts, domestic science and arts and crafts work. "I thoroughly believe in these branches of industrial education in the schools," says Mrs. Young, "provided they are given their proper place. I hope to carry out some of the ideas of uniting art and industry. I have no doubt but that most women want to be the head of a home, but if a woman feels that she has the power and can be useful in a business career let her follow it by all means. The schools need more social life and this I shall endeavor to create."

## UNION PACIFIC STOCK LEAD THE MARKET

[United Press Leased Wire.]  
New York, Aug. 4.—Purchases of Union Pacific were on an enormous scale today and this put the price at a new high record, 203 1/2 being reported during the day.

There was quiet liquidation in the general list of securities and the closing is generally half point below that of yesterday. Only a few shades closed higher than yesterday, Union Pacific being one of these.

J. P. Morgan has announced that the plan of reorganization of the Chicago-Great Western Railway company has been declared operative. Great Western shares have been conspicuous during the past few days and during that period the value of the securities has practically doubled.

## PRESIDENT APPOINTED HIM COMMISSIONER

Washington, Aug. 4.—President Taft today selected Ellis De Bruler as commissioner of immigration at Seattle, with a salary of \$4,000 per year.

## LOOK FOR TREASURE OF THE MISER KING

Defendant in Suit for Non-Support Finds Absolutely New Line of Defense.

## TIRED OF HIS YOUTH

HIS WIFE TOOK MEASURES TO MAKE HIM GROW OLD AND DECREPIT BECAUSE HE WAS SO MUCH THE YOUNGER—MADE HIM OLD AND TIRED.

## DECLARED ELECTION WAS FRAUDULENT

[United Press Leased Wire.]  
Lexington, Ky., Aug. 4.—In a scathing opinion handed down by Judge Watts Parker of the Fayette circuit court today, a decision declaring the Lexington city election of 1907 null and void, ousted Mayor Skain, the city assessor, city jailer and the city attorney.

In his opinion the judge declared that the election reeked with fraud and he sustained practically every charge placed against the party in power by the republicans.

## ROOSEVELT LAID A CORNERSTONE TODAY

[United Press Leased Wire.]  
Nairobi, B. E. A., Aug. 4.—Roosevelt with his party arrived from Nairobi this afternoon, having stopped on the way at Kijaba.

At Kijaba Roosevelt laid the cornerstone of the new American mission, in the course of construction there.

During the progress of the ceremonies the ex-president made a brief address.

## WILL VISIT CORVALLIS AUGUST 20

Corvallis will entertain a body of very distinguished citizens on August 20th. About 250 delegates to the annual convention of the Association of Agricultural colleges and experiment stations will come down from Portland to see the college at this place, and arrangements have been made for them to remain over night. The distinguished gentlemen, with their wives, will come on a special train, arriving here during the afternoon of Friday, the 20th. They will be given supper, bed and breakfast, and will leave Corvallis some time during the morning of August 21st.

This honor comes to us as a result of the Agricultural college being located here. Those in attendance at the Portland convention will be the heads of eastern agricultural colleges and experiment stations and these are anxious to view the college here. That desire is made keener by the fact that President W. J. Korr, as vice-president of the national association, knows, and is personally known to, a majority of these eastern men. It was through his invitation, and influence that this association, and supplemental ones also meeting at Portland at this time, came across the continent to hold their convention.

It is their trip down the valley in their special, furnished by the Portland commercial club, the distinguished people will be stopped at by two other places—Dundee and Salem.—Corvallis Gazette-Times.

## INJECTED HIM FULL OF OLD AGE

Denver, Colo., Aug. 4.—Allegations that his wife, who is several years his senior, injected into his veins the blood of an old man, is the startling plea filed by O. C. Rogers in answer to his wife's charge of non-support.

The wife, Mrs. Barbara Rogers, had five children by a former marriage then Rogers married her in Chicago, according to his statement today. He claimed that he married the woman when a mere boy, being forced into a distasteful union by his designing mother.

"After we had been married a short time," Rogers averred, "my wife tired of my youth, and she tried to bring me to the same state of decrepitude to which the years had brought her."

With that end in view, the young husband alleged that his wife caused the injection into his veins of the blood of a diseased old man.

## TELLS OF CONDITIONS EXISTING IN KOREA

Victoria, B. C., Aug. 4.—The steamer Tangu Maru arrived at this port this morning from the Orient. Among the passengers was Major H. A. Snider of the United States army medical staff from Manila. He says there is now no sign of rebellion of any description in the Philippine islands. The work of the army and navy is now devoted wholly to putting down brigandage.

The street railways, water works and other public works in Korea are largely being built by Americans, according to information brought by J. E. Peckham, water expert and engineer of New York, who has been in Manchuria and Korea for the past year and a half and is now on his way home.

"Take away the foreign interests from Korea and you have nothing left," declared Mr. Peckham. "Naturally the Japanese are the most prominent of the foreigners in the country and they supply most of the money, but the work is being done mostly by Americans. Take for instance the water system and street railway at Seoul. These are being built by Americans for the Japanese. The same applies to almost every part of the country. The Koreans have little to do with the management of their own country, in fact they are incapable."

## MAY HAVE ANOTHER SPECIAL SESSION

Washington, Aug. 4.—The administration and the leaders of congress today are considering a plan for a special session of congress to be held in October to consider the work of the monetary commission. It has been decided not to attempt to present the report of his committee until the next regular session of congress.

## PHILIPPINE TARIFF BILL IS ADOPTED

Washington, Aug. 4.—The senate today adopted the conference report on the Philippine tariff bill. This measure has been adopted by the house and it now goes to President Taft.

## AUGUST CLEAN UP SALE AT THE BIG CHICAGO STORE

Remember that during this month we figure on no profits. It is just a matter of disposing of the stock. So here goes for the balance of this month for a mighty Clearing Sale.
