ZINITIA THE PLAYTHING OF STORMS

Is Compelled to Jettison Part of Her Cargo to Prevent Being Pounded and Broken Up.

GALE AFTER GALE

DRIVES HER CLEAR ACROSS THE PACIFIC AND SOUTH OF AUSTRALIA—CREW LIVED THREE MONTHS ON SCANT RATIONS—DEPENDANT ON RAIN.

[United Press Leased Wire.]
Seattle, Aug. 20.—Battered and beaten by furious gales which beset bark Zanitia, Captain Shivey, arrived bar kZinitia, Captain Shivey, arrived in Seattle harbor today, 279 days from Newcastle-on-Tyne, having been towed in last night.
Not in years has a sailing ship brought to Puget sound such a tale of terrific gales, coming in such numbers that the master and crew believed that they were doomed to find watery graves. With rigging and canvas bearing witness to the most severe voyage of the year, with upper gear damaged and weather beaten, the Zanitia overcame the hard luck

which followed her since she first put out from the Tyne last November.

Before the square-rigger had cleared the English channel she was twice compelled to put back to port for repairs, her decks having been swept and other injury done. Off the River Platte, in the South Atlantic, so dangerous became the plight of the vessel that it was found necessary to jettison 100 tons of firebrick from the cargo which was rolling about in the hold and threatening to break the ship to pieces. Succeeding storms and gales continued to attack the Zanitia until Easter Sunday, when she was far south of Australia, having failed to negotiate the passage via Cape Horn. His last storm appeared to be a climax. It was so furious and the bark so severely tried that none aboard believed it possible to weather the fury of the elements.

Despite the damage to rigging and sails, however, the passage from Pitcairn Island to Cape Flattery was made in 45 days.

For more than three months the crew survived upon water that was precariously taken during rains. Many weeks before reaching port the flour supply was exhausted and by scant rations of hard bread and salt meat was a fare sufficient to sustain life provided.

Wheat Market Weaker.
[United Press Leased Wire.]
Chicago, Aug. 20.—Wheat started a shade weaker and lower and closed 1/4 @ 1 1/4c below yesterday.

September was the factor and the option was raised several times during the day by the bears.

Foreign markets were mixed, with Liverpool's opening 3/4 @ 1/2d lower, and the closing 3/4d higher to 1/2d lower.

St. Louis cash wheat was 1c lower for the day. Kansas City cash wheat 1 @ 2c lower.

HARRIMAN MUST QUIT ENTIRELY

Viennese Specialist Says Railway Magnate Must Rest or Suffer Nervous Collapse.

MUST REMAIN IN BED

PRESCRIBES EATING EVERY TWO HOURS TO COUNTERACT EFFECT OF LONG AND IMPROPER FEEDING, AND ALSO THAT HE LIE NAKED IN THE SUN.

[United Press Leased Wire.]
Denver, Aug. 20.—Several lives were lost and a heavy property damage is reported today as the result of the floods which are following the heavy storms that have been sweeping over the state for the past week.

The Lake George dam has broken and the Platte river is rising rapidly. Families living along the banks of the river are gathering their belongings and are fleeing to the hills. Residents in the lower part of Denver have been warned of the approach of another flood and are moving their household effects to higher ground.

Arizona Storm Swept.

Phoenix, Ariz., Aug. 20.—Terrific rains that have fallen almost continuously for the last week have caused damage in the Salt River valley and in the Wickemburg section, north of this city, that will reach thousands of dollars. The rains have been the heaviest recorded here in twenty years and the Salt, Hassayampa and other streams are turbid and swollen.

The greater part of the damage has been done to ranches and orchards near Wickemburg. Around this city untold damage to the alfalfa seed crop resulted and in many places the banks of the Consolidated and Arizona canals were washed away. Their repair will necessitate heavy expenditures.

Ranches in Kirkland and Skull valleys have been inundated, but no authentic reports of the extent of the damage to crops can be obtained.

Story of Death a Fake.

New York, Aug. 20.—The report this morning that Edward H. Harriman, the railway magnate, had died abroad, caused considerable alarm and excitement on Wall street during the early hours.

Although the report was immediately denied from authoritative sources, the rumor had the effect of causing a decline of from two to three points, not only on the recognized Harriman stocks but in those of the United Steel and American Smelting as well.

BALLOONS FLYING IN ALL DIRECTIONS

[United Press Leased Wire.]
St. Louis, Aug. 20.—The balloon "Missouri" ascended at Peoria, Ill., last night and passed over Tilden, Ill., at noon today, having traveled the distance of 150 miles.

A note dropped by Pilots Lambert and Bemis said that the aeronauts had two bags of ballast left. They were then flying at an altitude of 10,000 feet. The balloon "Peoria," with Honeywell piloting, passed over New Florence, Mr., today. Honeywell is being borne to the southwest. When he passed New Florence the balloon was at an altitude of 200 feet.

Things do not seem to be well balanced: In the estimation of fashionable mortals horses have too much hair and women haven't nearly enough, till they buy it.

FIRES ARE SWEEPING THE FOREST

Great Body of Timber, Much of It on Land Recently Drawn at Coeur d'Alene, Burning.

IS BEYOND CONTROL

TRAINLOADS OF MEN ARE BEING RUSHED TO THE FRONT TO ASSIST IN FIGHTING FLAMES—DAMAGE ALREADY REACHES ABOVE A MILLION DOLLARS.

[United Press Leased Wire.]
Spokane, Aug. 20.—The town of Plumber, on the St. Joe river in Idaho, was totally destroyed today by a great forest fire which has been sweeping the Coeur d'Alene Indian reservation since last night. Hundreds of men have been fighting the flames all night long and throughout the day, but there appears little chance of checking the conflagration.

Searching parties have returned to Coeur d'Alene with the information that no trace of Averill Harriman, 18-year-old son of E. H. Harriman, has been found, although his crew is believed to have been in the immediate vicinity of the fire. The fire is still raging in the heart of the white and yellow pine timber of the great Coeur d'Alene Indian reservation, doing thousands of dollars damage to the recently awarded claims of homesteaders of all parts of the country who were successful in the recent land drawings at Coeur d'Alene.

The fire is raging under a high south wind and is rapidly burning southward this afternoon to the Blackwell Lumber Company camp. Blackwell mill hands have been fighting to prevent the mill and clearings from being surrounded by flames.

Appeals for help have been received from Coeur d'Alene and a rescue party is being made up here and will leave in a special train.

The damage done by the flames is said to aggregate nearly \$1,000,000 already. Scores of men have dropped from exhaustion after an all night and all day battle with the flames.

Now word has been received of the inhabitants of Plumber, but it is believed that they escaped to safety.

Word was received here late this afternoon that a secondary fire caused by blazing brands had started in the vicinity of Mica bay on Coeur d'Alene lake. Several hundred men have been sent from the surrounding towns to aid in fighting the blaze.

ITALIANS SWEATING GOLD COINS

They Manage to Take About Dollar in Value off Each Twenty-Dollar Piece.

[United Press Leased Wire.]
Stockton, Cal., Aug. 20.—United States Secret Service Agent H. M. Moffitt, who has been in this city for several days working on the mysterious appearance here of a flood of "awated" gold coins, has caused three Italians, who suddenly left Stockton Monday en route to Italy via New York, to be arrested at Chicago and taken off the train. They will probably be returned to California.

(Continued on page 5.)

"LUCKY" OWED NOTE OF \$1,320,000

[United Press Leased Wire.]
Los Angeles, Aug. 20.—Claims of the California Savings and Loan Society of San Francisco, based on a note bearing the signature of E. J. ("Lucky") Baldwin and calling for the payment of \$1,320,000, will be settled by the estate of the late turf king. The claim was approved yesterday by H. A. Unruh, executor of the estate, and was allowed in Judge Wilbur's court.

The note was executed January 12, 1909, three months before Baldwin's death. It was due in one year, and was to draw interest at 8 per cent. The note formerly was held by other financial institutions of San Francisco, but recently was taken over by the Hibernia bank. It was secured by a trust deed covering extensive real estate holdings of Baldwin in this county and in San Francisco.

The sale of the famous Baldwin annex property in San Francisco to George Aronson, which has been agreed to, will come up for confirmation in Judge Wilbur's court late today. The terms of the sale, including the assumption of a \$10,000 mortgage, aggregate \$450,000. Of this sum, \$440,000 will be applied to the note held by the Hibernia bank, reducing the debt to \$80,000, and lessening materially the future interest charges.

CRAZED BY HEAT AND AWFUL THIRST

[United Press Leased Wire.]
San Diego, Cal., Aug. 20.—A ravaging mania as a result of a harrowing experience on the desert near Cuyamaca mountain, where she wandered for two days without water in the blistering sun, Ida Davidson, a comely girl of 20 years, was brought to this city today.

Miss Davidson disappeared from a hotel in Julian Tuesday evening. Early yesterday she was found by a searching party on the opposite side of the mountain. Her reason apparently was entirely gone, as a result of the terrible suffering she had endured. She will be examined by the local insanity commission.

JAPAN DICTATES TO CHINA

John Bull Stands in and China and Japan Join Forces in Building Mukden Railroad.

[United Press Leased Wire.]
Tokio, Aug. 20.—It was announced today that China and Japan have reached an amicable agreement regarding the work of reconstructing the Antung-Mukden railway, and that co-operative work on the line was started thereon.

The agreement was signed yesterday at Mukden, and China recognizes Japan's right in the premises. The understanding was reached only after much diplomatic friction had been encountered.

Recently Japan handed her ultimatum to China in which she declared that she would push the reconstruction work to completion without the aid of the Chinese government. Following the message to Peking a large force of men was put to work on the line.

China appealed to the powers and asserted in her note that Japan was insisting on making the railway a standard gauge with the idea of turning the road into a military avenue for her own use.

The affair promised to bring about the severance of diplomatic relations. England backed the Mikado and Prince Ching was prevailed upon to have the question reopened through the efforts of the British government which likewise brought pressure to bear on Japan. This resulted in the agreement of yesterday being entered into, and today active work on the railway was started with China and Japan co-operating.

DENVER IS IN DANGER OF FLOOD

Colorado Swept by Terrific Storms for Past Week. Streams Are Raging Floods.

PLATTE IS RISING

LAKE GEORGE DAM BREAKS AND PEOPLE LIVING ALONG PLATTE ARE FLEEING TO THE HILLS—HEAVY RAINS IN ARIZONA CAUSE GREAT DAMAGE.

(Herbert A. White, Staff Correspondent. Copyrighted, 1909, by the United Press Associations.)

Vienna, Aug. 20.—Edward H. Harriman, the master-mind of the railway world, must either cease active participation in business affairs or suffer a complete physical collapse.

This is the opinion of Professor Streumpel, the famous Viennese specialist, who diagnosed Harriman's ailments, and for whose advice the magnate made a special trip to Vienna.

Streumpel, who spent many hours with Harriman, studied his case with as much thoroughness as though he had been a member of the royal family, whose physician Streumpel is.

In the first place, says Streumpel, Harriman is suffering from a systematic lack of proper nourishment which has caused a general weakness. Secondly, he is suffering from general nervous debility and exhaustion due to overwork.

The specialist added, however, that Harriman was not suffering from any specific organic trouble, and predicted that if he watched himself carefully and refrained from any unusual mental and physical efforts, that he would enjoy years of satisfactory health.

The thing that surprised Professor Streumpel the most was Harriman's half-starved condition. He declared that the need of better feeding for the noted financier was imperative.

He outlined three courses of treatment which he cautioned Harriman to follow closely. The first course is for Harriman to lie quietly in bed for many hours a day, and eat only the most nourishing food, and in sufficient quantities.

He says that Harriman should partake of food every two hours to counteract the effect of long and improper feeding; nothing else, the physician says, can build up the wasted tissues.

Then Harriman must take a course of sun-baths. Streumpel has advised the financier to lie naked in the sun, and expects this treatment to greatly benefit his nervous system.

MYSTERY ABOUT MRS. QUINN'S BABY

[United Press Leased Wire.]
Bellingham, Wash., Aug. 20.—Mrs. Thomas J. Quinn is in jail today, where she is held without bail pending the clearing up of a mystery as to what she has done with her 13-months-old baby, which she asserts was strangled to death by its grandmother in Oakesdale, Wash., two weeks ago. Mrs. Quinn returned last Monday from a visit, she says, at the home of her mother in Oakesdale, near Spokane. She told her husband and the police that her mother had suddenly become insane, had overpowered her and bound her hand and foot and then had strangled the baby before her eyes. Her parent has been sent to a sanitarium at Colfax, she says.

A telegram has been received here from Spokane stating that Mrs. Richardson, the mother of Mrs. Quinn, is still in Oakesdale and is perfectly sane, and that when Mrs. Quinn left for Bellingham she had the child with her. This telegram set the police at work and Mrs. Quinn was arrested.

WE ARE SALEM AGENTS

(for the following celebrated merchandise)

Nemo Corsets, Warner's Rust Proof Corsets, Standard Patterns, American Ladies' Tailoring Company—Francis Simmons Kid Gloves, and Sun Burst Silks—Advanced Style in early Fall Goods now on Exhibition; Special Prices Now to Introduce the Goods.
