The bad Indians understand how to go a long distance for little pay; it is great!"

### To Restrain the Board—

The Corvallis and Eastern Railroad Company has filed a complaint against the state land board and the board of commissioners for the sale of school and university lands and the investment of the funds, asking for an injunction restraining the defendants in the suit from selling or disposing of 1.45 acres of tide lands in Benton county, which is alleged was granted to the Willamette Valley and Coast Railway Company. It is alleged in the complaint that by an act of the legislature approved October 24, 1874, to provide for the construction of the Willamette Valley and Coast railway all the tide and marsh lands in what was then mainly Lincoln county was granted to the Willamette Valley and Coast Railway Company and the company filed papers of acceptance and constructed the road according to the provisions of the act, and the road, which is now incorporated under the name of the Corvallis and Eastern Railroad Company, is in operation doing business under that name at present. By an act approved by the recent assembly of the legislature the grants of the railroad company to the lands were repealed and have been advertised in newspapers for sale to the highest bidder, and the injunction is now sought in the circuit court of Marion county to restrain the state land board from disposing of the property. Attorneys Weatherford and Moore are appearing for the plaintiff.

### WAR BREAKS OUT IN MISSISSIPPI

[United Press Leased Wire.]  
Natchez, Miss., Aug. 24.—Two companies of state militia are encamped today at Meadville, Franklin county, with orders to prevent at any cost a threatened clash between rival political factions whose differences apparently were not settled at the recent elections.

The soldiers were hurried to Meadville by Acting Governor Manship, when a telephone message was received at the gubernatorial residence late yesterday telling of an attempt to assassinate Chancery Clerk Newman. The message, which was sent by Sheriff Jones, stated that several shots had been fired at Newman through the windows of his home and that he had been severely wounded.

Newman's father recently held the chancery office. He was shot and killed in Meadville during a factional battle six weeks ago. The younger Newman was elected to succeed his father, winning out over five other candidates for the office.

## BLAME EMMA GOLDMAN

Police Say She Made Several Speeches at McKee's Rocks and Started the Rioting.

[United Press Leased Wire.]  
Pittsburg, Aug. 24.—The bodies of three strikers were found this afternoon in an undergrowth of brush near the plant of the Pressed Steel Car Company at McKee's Rocks. They are believed to have been killed in Sunday's night's battle between state troopers and strikers and their sympathizers.

This brings the total number of dead resulting from the rioting up to eleven. The troopers are incensed over the killing of several of their number and threaten to show no mercy to the strikers if they attempt any more violence. Their anger was increased today when it was learned that the body of Trooper Williams had been robbed of \$50 and a gold watch after quiet had been restored. Williams' body was this afternoon sent to his home in Pueblo, Colo., for burial.

Eugene Debs, the Socialist, is scheduled to address the strikers late this afternoon at a meeting on the Ledian mound.

Pittsburg, Aug. 24.—The police today are charging Emma Goldman, the noted anarchist, with the responsibility for Sunday night's vicious rioting at the McKee's Rocks plant of the Pressed Steel Car company.

It is known that she has been in the city for several days and the police say that Emma made several speeches to the strikers urging them to burn the plant and inciting them to other acts of violence. The police are scouring the city for the noted "red" and if she is found they will immediately "railroad" her from the city.

Two more strikers died last night, making the total number of dead as the result of Sunday's rioting eight. The authorities today have the situation well in hand and are keeping the streets clear of strikers and their sympathizers.

## EDUCATORS PAY VISIT TO SALEM

Three Cars Bring Jolly Crowd of Wise Men From the East to See the Capital City.

Three carloads of educators, agricultural college presidents and directors of government experiment stations arrived here this morning about 11 o'clock, after visiting Independence, Corvallis, Albany and other points. The cars were run up the Trade street track to Commercial street, where the visitors were met by a committee from the board of trade, while the Salem military band, with Prof. Stoudermeier behind the cornet, gave them some as good music as they heard on the trip.

Mayor Rodgers and others were out with their autos, which were at the disposal of the visitors, but most of them walked up to Marion square, where a short lovefeast was held.

Mayor Rodgers called the assemblage to order and in a few well-chosen words gave the visitors a warm welcome to the city and introduced President Kerr of the state agricultural college of Kansas, who spoke briefly but earnestly, paying a high tribute to Oregon soil, climate and people, and he in turn introduced Chancellor Avery of Nebraska and Dean Hunt of the Pennsylvania experiment station, both of whom expressed the pleasure and gratification the trip to the coast had given them, and also of the broader understanding they had gained of the greatness and varied resources of the great United States.

They are a fine, intelligent looking lot of men and certainly know how to say nice things in the nicest way. The Stalwart quartette gave one of their always enjoyable songs and was not allowed to quit until they sang another.

The ladies had long rows of tables loaded down with sandwiches, cake, fruit and all kinds of edibles, and this part of the program seemed to please the visitors immensely, as the subject was thoroughly discussed.

After luncheon a dozen autos took part of the visitors to Rosedale, Wallace and other orchard districts, while a big 30-passenger street car carried those who cared to go all over the city, and out to the pen and asylum.

In fact there was something doing every minute from the time the cars arrived until shortly after 2 o'clock, when W. V. Jenkins, who had charge of the party, gave the high sign and with many handshakes and quick farewells the train pulled out, and with it went people who will tell to many in the far east of the beauties of Oregon.
