

CIRCUS COMING TONIGHT

Ringling Brothers' Big Show Will Arrive on Five Special Trains Soon After Midnight.

MILES OF PARADE

HUNDREDS IN EARLY MORNING WILL SEE TENTS GO UP AS IF BY MAGIC, AND LATER WATCH THE MILES OF GORGEOUS STREET PARADE.

Arising like some phantom city out of the night, several acres of canvas will be spread out and erected into tents by the time the average citizens are awake tomorrow morning.

With its roster of 1268 persons and hundreds of animals, varying from the trained dog to the elephant and camel, Ringling Bros.' circus will sweep into the city shortly after midnight in its train of 85 coaches.

By a system working like a big clock the several trains will be unloaded and started on their way toward the show grounds before dawn.

By 9 o'clock everything will be in readiness for the exhibition that begins tomorrow with a big street parade. That fascinating air of mystery the proverbial small boy attaches to the circus will draw hundreds of youngsters to the show ground, and there they will remain, unmindful of the dinner hour, until the great canvas tops are undulating in the breeze and everything is in readiness for the big show.

"Where does the circus man come from?" "How do they catch the menagerie animals?" "Is the clown

an ordinary being in the winter time?" and "Oh, who originated pink lemonade?" are expressions that will be frequently heard.

In Ringling Brothers' winter quarters at the home of the show, in Baraboo, Wis., the work of organizing this year's circus began early last December.

According to advanced reports the circus which opens tomorrow is the greatest exhibition in the world. The show will remain here but a single day, giving two performances, exactly the same as those presented at Madison Square Garden, New York, where the circus opened this season. The afternoon performance will begin at 2 o'clock and the night show at 8 o'clock.

The doors will open an hour before the performance to allow an inspection of the menagerie. There are 375 performers on this year's bill. Of these fully 250 are foreigners appearing in America for the first time.

By special arrangement those who wish to avoid the rush at the show grounds may purchase reserved seats and admission tickets at the downtown branch office at the same prices charged at the regular ticket wagon. Patton Bros.' book store is the place.

Never before has a circus been received with such enthusiasm as this one has been arousing all along the line. Its new parade, a complete new outfit of tents, a horde of the best of Europe's artists, a new spectacle and a complete menagerie. It is little wonder that Ringling Brothers knocked New York a twister.

All last winter workmen were busy in the circus mills at Baraboo, Wis., constructing new railroad cars and ring properties and building the canvas pavilions and new grand stands. The management is more than ever looking to the comfort of its patrons as well as to their entertainment.

No other circus has ever had more than one thriller, and some of them not even that. Upon that one feature it has been the custom to center all their advertising energy, looking to it for their reputation. Ringling Brothers have no less than seven big sensational acts, any one of which is a bigger surprise than all the other shows have ever

prung. The rest of the long program is in keeping with these thrillers and the artistic and finished aspect of everything that pertains to the show is something to be noted only with the Ringlings.

The foreign agents of the show were unusually busy last winter and the result is a European program of great strength and novel interest. Nothing was imported that has any resemblance to acts that have been seen on this side the Atlantic, and great diligence was used in searching out novelties.

The same program that was presented in New York on the opening night of the show will be given here, not a detail being missing. The operatic concert will precede the regular ring program, all of the menagerie will be displayed and the parade will be the same.

Children Cry FOR FLETCHER'S CASTORIA

COOS BAY ENTERTAINS VISITORS

The trip to the lower bay yesterday afternoon for the Oregon-Idaho Development congress delegates was probably the biggest excursion ever held here. The steamer Breakwater had been given for use by Manager Mills and it was loaded with about 600 people. Besides there were over a dozen gasoline boats of different sizes. Tickets had been provided for every one who wanted to go and at 1:30 the passengers gathered and started for the lower bay. The Breakwater stopped at North Bend where quite a large number of passengers were taken on.

The life-saving crew with Captain Soles was out when the flotilla reached the lower bay and an exhibition was given. A line was shot out to the Breakwater and fastened to a mast and men were taken ashore to show how passengers are rescued from a wrecked ship. The life-saving crew also gave a drill in the water, turning over their lifeboat and showing in different ways how they work.

To many the work of the life-saving crew was a new thing and the crowd enjoyed it. On the steamer Flyer was a machine for making moving pictures. It was in charge of men sent here by a Chicago film firm and moving pictures of the fleet of boats and the work of the life-savers were made, so the excursion of yesterday was one which will be seen by people in moving picture shows all over the country.

The boats came back so that the excursionists were all landed in good time for supper and the night business session. Probably fully 1000 persons were on the boats making up the fleet. All of the mills and factories along the water front saluted as the boats passed and there was whistling heard from either shore nearly all the time.

The entertainment was characteristic of Coos Bay and filled in the afternoon pleasantly and gave all the people a good chance to see just what was on Coos Bay.

FIRES IN BARCELONA A LUNY SMOLDERING

(United Press Leased Wire.)
Barcelona, Aug. 25.—In spite of the precautions taken by the authorities here bomb throwing and minor disorders are of daily occurrence and the government today is considering the policy of punishing families of rioters when the guilty persons escape capture.

One of the most recent outrages is the blowing up of the women's prison, where revolutionists were incarcerated. It has not been ascertained if any lives were lost as the authorities suppress all facts.

Prisoners here number 5000 and are imprisoned in various fortresses surrounding the city. Families of the rioters have been torn from their homes and detained in the prisons but heretofore no punishment has been meted to them.

SENATOR LOSES HIS INFORMATION

Missoula, Mont., Aug. 25.—United States Senator Flint of California today is mourning the loss of valuable papers containing data on the irrigation projects in Montana which he has gathered, and his grip containing wearing apparel, which was stolen by sneak thieves operating at the Northern Pacific depot here. Flint left the members of the senate irrigation committee at Ravall yesterday and took a short business trip to Missoula. While conversing with friends he left his grip on the platform and when he went to pick it up it was gone. The police are making a systematic search for the grip and its contents.

Pure Foods and Pure Medicines

mean better, healthier, happier people. It has been proved, however, that all medicines are not adulterated and worthless any more than are all food products.

The wheat has been sifted from the chaff and such medicines as Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs and complies with all conditions of the pure food and drugs law, will continue to hold its place as the standard American remedy for female ills.

The consumer has no rights which the tariff jugglers are bound to respect, anyway.

CHINESE ARE MERCHANTS AND THE JAPS SOLDIERS

(United Press Leased Wire.)
San Francisco, Aug. 25.—According to Major General R. G. Broadwood of the British army, who arrived in San Francisco from China yesterday, the great drawback to the efficiency of the new Chinese army is in the quality of the men who officer it.

He said today: "The Chinese as a nation are educated to commercialism and in all times past the army has been held in contempt. For that reason the best quality of men have not gone into the military service."

"In Japan it is just the opposite. There every man considers it the highest honor to be a soldier, while commercialism is considered of a lower grade. As a result the Japanese officers are men of the highest stamp and the Japanese merchants, generally, have not been as fine men as the officers."

Broadwood has been in command of the British forces in Southern China, where he has been stationed for two and a half years. He is the youngest officer of his rank in the British service.

BERNARD LAGAN WILL NOT RECOVER

(United Press Leased Wire.)
San Francisco, Aug. 25.—Bernard Lagan, who it is alleged was shot down several weeks ago by Police Captain Joseph Bonner, is suffering from another relapse and physicians fear that the young man will not recover, according to reports coming from the Lagan home. Since the shooting Lagan has been a hopeless paralytic and is at the home of his sister. Doctors state that should the young man regain his health that he will never walk again.
