RATES TO STATE FAIR

All Roads Lead to Salem During Fair Week and All Will Give Reduced Rates.

The Oregon Electric announced today that it would establish a special rate for fair week over their lines from Portland to Salem. They will give the traveling public the benefit of the fare and one-third rate round trip. Owing to the Oregon Electric having a stopping station at Highland, the fair visitors can leave the cars there, and then it is but a short walk to the entrance of the state fair grounds. The Oregon Electric line will prove a great convenience to the traveling public during fair week, as many Portland business men can make a visit to the fair and return the same day, without the necessity of hurrying to catch any particular train. More trains will be added on the electric line, and the company is making preparations to handle the fair crowd with little or no discomfort in crowding.

The Southern Pacific railroad will also give a special rate over its lines to Salem during fair week, the same rate will be in effect that is over the electric line. On Portland day the steam road is going to make the fare from Portland to this city and return \$1.50. The transportation facilities this year are far more favorable than last, and great crowds of out of town visitors are expected to arrive daily.
