SALEM, OREGON, TUESDAY, OCTOBER 5, 1909.

NO. 2255

## PRESIDENT SPEAKS AT BERKELEY

Says "the Business of Running Governments Is Easy to Any One Who Is not Doing It."

## THE WAY TO OFFICE

IN HIS CASE LAYS ACROSS THE PACIFIC—WAS CALLED FROM THE PHILIPPINES—FILIPINO BAND PLAYS "YANKEE DOODLE" AT THE RECEPTION.

[UNITED PRESS LEASED WIRE.] Berkeley, Cal., Oct. 5.—In his speech before 7000 persons gathered to hear him in the Greek theater on the university grounds today, President Taft dwelt particularly upon the relations of the United States and the Philippines, and expressed the opinion that popular government is the best form of government possible, for the reason that the whole people know better what is best for their interests than the combined few.

"The modern trend of everything is toward specialization. The business of running a government is easy to one who is not doing it. There are difficulties and frictions that are not seen by the general public. These obstacles, difficulties and frictions are not appreciated by the critics. The criticism directed at government officials, however, do much to lift the government and the people to a higher and more enlightened plane."

In referring to his government of the Philippines the President said: "One thing which is an outgrowth of the policies is the justice which we have at last granted the Philippines, by giving them free trade with America."

In concluding Taft said: "When I left the Golden Gate for my post in the islands, I little knew that I was on my way to the presidency of this country. A person would never believe that the road to the presidential chair stretched out 10,000 miles to the tropics, but that is where it landed me."

The presidential party arrived at the Southern Pacific station at Berkeley promptly at 8 o'clock. As Taft left his private car he was greeted by the cheers of 20,000 citizens waiting there to get a first view of him. With his hat in his hand, the chief executive walked to his automobile with Mayor Beverly Hodghead, of Berkeley. Immediately the long line of machines got under way for a spin through the northeastern part of the college town to the Greek theater.

There Professor Bernard Moses, a member of the first Philippine commission, lauded the President, and spoke highly of Taft's work while in the islands. Professor Moses was followed by Mayor Beverly Hodghead, who welcomed the chief executive to Berkeley, and introduced him.

With the famous Taft smile lighting his face, the President rose. Simultaneously every person in the audience jumped to their feet and shouted enthusiastically, while the Filipino constabulary band played "Yankee Doodle."

The President spoke for nearly a quarter of an hour. His speech was full of praise for California, which he declared to be one of the "garden spots of the world," and many times he was compelled to pause while the people manifested their appreciation of his remarks.

trance of the field, the children sang "America," waving meanwhile small American flags.

At California field, the column proceeded through the southeastern section of the city to the intersection of Alcatraz and College avenues, where the President was met by the Oakland committee, and transported to Oakland in a private electric car over the Key Route tracks.

## ONE FAKE PREACHER ONE FAKE REFORMER

[UNITED PRESS LEASED WIRE.] New York, Oct. 5.—Former Police Commissioner Theodore A. Bingham and the Rev. Charles H. Parkhurst today are announced supporters of Otto T. Bannard, the Republican candidate for mayor of New York.

Bingham declared that he would take the stump for Bannard, while Dr. Parkhurst announced that he would speak in favor of Bannard from his pulpit.

Bingham last night appeared before a large audience at the Calvary Methodist church. His subject was "Police System in a Great City."

In the course of his remarks he urged his hearers to vote for Bannard, and then announced his intention of taking the rostrum for the Republican nominee.

## PRESIDENT MET BILL GRIMES

The Hon. Bill Grimes, of Coos Bay, got the most cyclonic greeting of any of the callers. When he was presented at the Portland hotel, by Dr. Richardson, who married an Oklahoma girl, the President's face lighted up with one of his thousand-candle power smiles, and he grasped Grimes' hand, and said: "Hello, Grimes! Here's the man who carried the first district convention in the United States that instructed for me. The fourth district of Oklahoma." After quite a talk Grimes mentioned that he had a friend in Oklahoma that needed a little looking after. Said Taft:

"Call my attention to him when I get back, and I will try to do anything that you want done for him."

After Grimes left the group, the President turned to them and said: "There's the kind of man I like. He comes out and says he's for you, and delivers the goods."

A Portland paper has the following about the reception:

Among those who called on President Taft yesterday, and who found a ready recognition from the President, was Colonel William Grimes, of Coos Bay, the man, who, as chairman of the Republican central committee of Oklahoma, carried that state for Taft at the last presidential election. Colonel Grimes arrived on the Alliance yesterday morning from Coos Bay, and, though delayed three days by a mishap to the steamer, arrived in time to meet the President.

At the Oklahoma convention Colonel Grimes literally turned the tide started by the Roosevelt cowboy delegation for Roosevelt and saved the day for Taft. He could have had the governorship or practically any other office in the state, but declined them all and returned to Oregon. Colonel Grimes had been secretary of state for Oklahoma for two terms, and was prominent in Southwestern politics.

Dr. Richardson, Taft's personal physician, who traveled with him, married a daughter of Congressman Dennis Flynn, of Oklahoma. Colonel Grimes managed Flynn's campaigns for several years. He and Colonel Grimes are close friends.

F. G. Fritz, Oncontia, N. Y., writes: "My little girl was greatly benefitted by taking Foley's Orino Laxative and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is mild, pleasant and effective and cures habitual constipation. J. C. Perry.

## BOURNE IS THERE FOR OUR BILL

Says Roosevelt's Principal Job When He Comes Home Will Be to Boost for Taft.

## WILL HIT THE STUMP

TEDDY WILL TAKE THE STUMP TO BOOST TAFT, SAYS BOURNE; AND, IF NECESSARY, HE WILL BECOME SENATOR FROM NEW YORK TO AID WILLIAM.

[UNITED PRESS LEASED WIRE.] San Francisco, Oct. 5.—When the time comes for the selection of the next president of the United States, Senator Bourne will be found just as strenuously demanding Taft's reelection as he did that of President Roosevelt last year.

"I am for him now, and next time," exclaimed Bourne. "I think he will make one of the greatest presidents in our history."

"What do you think Colonel Roosevelt will do when he comes back?" the Oregon senator was asked. "I think he will make it his business to support Mr. Taft and aid him in carrying out the Roosevelt policies," said Bourne. "He will take the stump, if necessary, and if he thinks that congress is likely to defeat those policies, he will go to the senate from New York state."

By this time next year very few people will care to take the time to look at the airship that is going by.

## THE WHOLE WORLD MAY GO TO WAR

Mahommedan Priests in Morocco Declare Holy War and Thousands Join Tribesmen.

## ENGLAND BUTTS IN

AND MAY GO TO ASSISTANCE OF SPAIN—FRANCE WILL STAND WITH HER, WHILE GERMANY WILL BACK UP MOROCCO—ENGLISH-GERMAN MAY CLASH.

[UNITED PRESS LEASED WIRE.] Gibraltar, Oct. 5.—A holy war of extermination was declared by the Mohammedan priests of Morocco, together with the Riff tribesmen, today, and thousands of fanatics from the interior are pouring into the native camps. The Spanish troops at Melilla are being hedged in, according to dispatches received today.

## England Butts In.

London, Oct. 5.—International difficulties are likely to be precipitated by the announcement that England proposes to take a hand in quelling the rebellion of the Riff tribesmen in Morocco.

It was learned that yesterday cabinet meeting was called for the purpose of considering the situation.

The British nation is alarmed by the alleged discovery that Spain was forced into the Riff war by France, for the protection of French interests. Convinced that Spain is defeated,

## CHAIRMAN STOLZ SAYS MORE STREET IMPROVEMENTS

## FRED BERGER OF STEINER & BERGER IS ELECTED ALDERMAN FROM THE FIRST WARD --- THE CHARTER TO BE AMENDED

Aldermen Elliott, Hofer, Low, Moffitt, Moores, Sauter, Stolz were present and following city officials:

Mayor Rodgers, City Attorney Keyes, City Engineer Perrott, Street Commissioner Pooler, City Recorder Moores.

Mr. Elliott, from committee on sewers reported that \$160 had been collected from property owners on Thirteenth street.

A communication was read from the mayor favoring smoke protectors for firemen.

Street Commissioner Pooler reported expenditures for labor and expense for streets during September as \$1369.65.

City poundmaster reported: Number dogs in pound, 5; number dogs killed, 5; number dogs redeemed, 5.

City Attorney Keyes submitted an opinion holding that the word "officers" included aldermen.

Mr. Moffitt, as alderman from the first ward, reported in favor of F. H. Berger, to fill vacancy caused by resignation of Fred Waters.

Mr. A. N. Moores nominated L. H. McMahan as a suitable man in his opinion. On first ballot there was a tie, McMahan 4, Berger 4.

On second ballot the vote stood Berger 5, McMahan 4. He was declared duly elected by the mayor.

Mayor Rodgers announced the sad and untimely death of Tom Eckhart, policeman, who was shot down while in the performance of his duty.

Mr. Low asked that Chief Gibson

## FINCH CASE DECIDED

The supreme court this morning denied the petition of James Finch for a re-hearing. This means that unless Finch can get his case heard in the United States court, he must suffer the penalty of death.

## Sixty Men Killed.

Nanaimo, B. C., Oct. 5.—A terrific explosion occurred at the Extension mines of the Wellington Colliery Company today, and 60 men are entombed, and it is feared have perished.

It is now believed that France will take up the fight. It is generally believed here that Germany is attempting to extend its domain into Africa, by assisting Mulal Hafid, who is reported to be assisting the tribesmen in their fight against Spain.

It now seems very probable that England will go to the assistance of Spain in suppressing the rebellion.

Being a driver in an automobile race may be a trifle less exciting than going over Niagara in a barrel, but it is a lot dustier.

## BIRD DOGS WILL HAVE THEIR DAY

Beginning tomorrow, the full-blooded bird dog will perform before judges on Walker's prairie, northeast of this city for places in the second annual field try-out of the Oregon Field Trial club and dog trainers and owners throughout the state will be in attendance.

E. S. Munger the well known trainer, is here with a few dogs to enter the contest. Among Mr. Munger's collection is "Rex." Rex is the property of Homer Smith, a Salem man, and is a beautiful specimen of the bird dog family.

The present meet will be the first ever held in this city. Tomorrow morning the dogs will be started opposite the fair grounds and will work off toward the northeast, and sport is anticipated by the Salem sportsmen. Dog owners from Washington, Oregon and California will be here to witness the field trial meet.

A field trial is a race between bird dogs, so called, and the dog that wins must have brains, as well heels. He must display his knowledge of how to hunt, must show the judges that he knows where to look for birds, and can handle them after finding them. And he must, if possible, find more birds, than his rival. Speed and stamina are necessary, but a brain and a good nose are equally important. A dog that is simply a fast, wide ranger, with plenty of dash and, but of little "bird sense," has little chance of winning, popular opinion to the contrary notwithstanding. And here is where the test of the dog owners themselves comes in. The puppy may seem to have hunted admirably at home, and he may have handled the first trial in winning form, but when the keen-eyed judges, who are time-experienced bird hunters, and know bird dogs thoroughly, take in the prospective hunting qualities of the pup, there may be "nothing doing," and the many months of training must be repeated again, with still more patience.

Field trials are generally followed on horseback. The dogs to start in the race tomorrow will be picked this evening, when the entry list is closed and tomorrow they will be run in heats. Two dogs will be set off and let run until their hunt is finished, and then they will be brought back and two more started. Salem is the last place on the Oregon Field Trial Club's circuit for this summer. The prizes to be awarded will be on display in the Hauser Bros' show window this evening, and a nice collection of cups has been provided.

## GRAFTERS FOLLOW THE PRESIDENT

Pick Pockets While the Crowd Cheers, But It Is Nothing to Those Who Pick Nation's Pocket.

## ALL ARTFUL DODGERS

WISE GUY WHO IS GETTING PAID FOR DOING NOTHING TELLS WHAT HE SEES WHILE LOOKING DOWN OVER THE CROWDS FROM PRESIDENT'S PLATFORM.

[UNITED PRESS LEASED WIRE.] San Francisco, Oct. 5.—A gang of pickpockets is following the presidential train. The members of the gang starts to work in the crowds surrounding Mr. Taft just as soon as he appears, and, in the excitement that always attends his arrival on the grand stand, or in his automobile, the light-fingered gentlemen reap their harvest of "leathers."

Last night at Sacramento the ticket picking went merrily on and it is safe to say that a good deal of money changed hands in this unlawful manner.

"I could tell by the way that he was acting that there was a gang at work," said one of the president's secret service guards.

"From where I stood on the grand stand I could see several of them, but as the police were powerless to handle the crowd, much less take part in a pickpocket chase, I could do nothing."

"Whenever you see struggling and heaving going on in a big crowd you may be pretty sure the guns or pickpockets are at work. They work in couples or trios. One of them will start an argument with some man in the crowd or begin pushing his way through at a rate that brings remonstrances from those around him."

"The intended victim, some man with a good looking watch chain dangling from his vest or a handsome diamond in his front, is selected and during the excitement his hat is jammed down over his eyes. Involuntarily he put both hands to readjust the lid and at the same time he loses his valuables."

"He may even be quick enough to see the man who robs him, and may secure his arrest, but before the pickpocket is caught he is pretty certain to pass the watch, diamond or other booty to one of his pals. Then, when he is arrested, he is a very indignant citizen and nine times out of ten escapes conviction for lack of proof. Professional pickpockets follow the president over the country just as they do a circus or the country fairs. If I had not been busy watching out for the president at Sacramento last night I'll bet I could have jumped into that crowd in front of the capitol and brought in four or five 'guns' whose faces are in the rogues' galleries of half the big cities of the country."

## BURIED BUT STILL THOUGHT TO BE ALIVE

[UNITED PRESS LEASED WIRE.] Central Islip, L. I., Oct. 5.—Despite the fact that he has been entombed in an 80-foot well since last Saturday night, rescuers this afternoon believe John Coffey to be alive. Workmen in the vicinity are positive that they heard cries this morning and are sure that it was Coffey calling for help.

An effort is being made this afternoon to drive a feed pipe through the debris and food will be sent to the imprisoned man by this means. Coffey was digging the well and got 80 feet below the surface when its sides suddenly caved in, burying him under tons of earth.

It was believed that the young man had been instantly killed, but the cries heard this morning have changed the belief of many and rescuers are working heroically to reach him.
