TEACHING KINDNESS TO ANIMALS.

A child taught to be kind to animals will not be cruel to other beings or commit crimes founded on violence.

The Illinois legislature passed a law ordering a course of study in the public schools on the humane treatment of animals.

A penalty of five per cent of the monthly salaries is provided against teachers who neglect to carry out the course.

The law makes it the duty of teachers to teach "honesty, kindness, justice and moral courage for the purpose of lessening crime and raising the standard of good citizenship."

It provides that one-half hour each week shall be devoted to teaching "kindness and justice to and humane treatment and protection of birds, animals and the important part they fulfill in the economy of nature."

HAZING IN COLLEGES.

There is the annual hazing uproar at some of our state colleges.

There is less of it at the state agricultural college than elsewhere.

The students there seem to have more to keep them busy—real work.

Labor seems to be an antidote for coltishness and practical joking.

We have never heard a reasonable excuse for college hazing.

There is nothing manly about a mob of students taking one student through a hazing experience.

That is usually what it amounts to—a number doing violence to one, or a much smaller number.

The sham honors and distinctions frequently fought over in class rushes are unworthy of a serious mind.

But it has come about that a large number of students do not go to college for any serious purpose.

With increasing wealth parents must send their sons and daughters somewhere to school.

They are really attending college as a social distinction.

So there must be diversion and high-jinks for the wealthy idlers.

Hard drinking and gambling are going out of fashion. Society must have its fling and duels are not fashionable.

If the idlers and society element could be got rid of at colleges hazing would disappear.

If earnest purpose and real labor could displace social ambition and idleness at colleges there would be less need to send for the police.

The state will uphold President Campbell in his firm determination to drive hazing and hazers out of the state university.

He struck the keynote when he said if students did not come there to work they should stay away.

There is only one trouble with the word "work"—it should mean something besides dawdling over text books.

Work, hard work, actual work, takes the nonsense and devilry out of young people—not idling over books.

President Campbell shows that he means business when he expels young men who engage in midnight hazing frolics.

He has put about thirty on a blacklist and they must sign an agreement to sustain the faculty or leave the school.

He deserves the commendation of all honest citizens in his determination to suppress displays of cowardly violence on the part of aristocratic idlers.

JAPS BEAT WOLVERINES AT BASEBALL GAME

TESTED THESE LEAGUE WARRIORS

Tokio, Oct. 9.—The University of Wisconsin was beaten today in its last game with the Japanese team representing the Waseda University. The score was 2 to 0.

Tomorrow the Wisconsin players will cross their bats with the Kelta team, which is the last game scheduled to be played before the Americans leave for the United States. They will sail from Japan on October 15, according to the present arrangements.

The Royal Mouth and the Royal Disease.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its bunches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merits in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative—consumption.

Both Boys Saved.

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar also lately cured my boy of a severe cough and a neighbor's boy, who was so ill with a cold that the doctors gave him up, was cured by taking Foley's Honey and Tar." Nothing else is as safe and certain in results. J. C. Perry.

Children Cry FOR FLETCHER'S CASTORIA

QUARTER OF MILLION DAMAGES

Early Morning Fire Destroys Four Manufacturing Outfits in San Francisco.

[UNITED PRESS LEASED WIRE.]

San Francisco, Oct. 9.—Fire early today destroyed four manufacturing plants and a lumber yard in the Mission district, doing damage aggregating \$200,000. Two firemen, John Mullen and Lieutenant Martin Duddy, of engine No. 15, were injured, but not seriously, when they were caught under a falling wall.

The plants were: The Western Refinery Company; A. G. Buell, plating mill; the Pacific Washboard Manufacturing Company; the Dunphy lumber yard.

The disastrous blaze was started from a spark which fell from a chimney nearby and lighted on the roof of the Western Refinery Company's plant. Within a few minutes the flames had swept through the structure, leaped the intervening gap between the other buildings, and was licking up the Buell plating mill and the Pacific Washboard factory. The three concerns were partially destroyed before the arrival of the firemen, and, despite all efforts, the flames spread to the Dunphy lumber yard and the Metropolitan Roofing Company's plant before they were subdued.

ONE YEAR IN THE PEN FOR HOEDLE

In Addition, Judge Burnett Imposes a Fine of \$2,454.10 Double the Amount of Defalcation.

"I realize that the evidence is strong against me, but in case the court exercise leniency with me, I will return every dollar I took," was Charles Hoedle's statement in answer to Judge Burnett's question if the defendant had anything to say before his sentence should be administered this morning, when the time arrived for final judgment in his case. Judge Burnett sentenced Charley Hoedle to serve one year in the state penitentiary and a fine was imposed of \$2454.10, in default to pay same the defendant shall be confined in the county jail until the amount is paid. If Hoedle is unable to pay this fine, which is double the amount he converted to his own use of public money, he will be compelled to serve 1227 days, at least theoretically.

Charley Hoedle's case is one of the saddest on the Marion county court records. Hoedle, a man known and liked by many, with a record, up to the present time, spotless, is now the sufferer of simply a long line of circumstances, in which personal troubles played the disastrous part, resulting in the unfortunate man being sentenced to the penitentiary. During the pendency of Mr. Hoedle's case not a word was overheard condemning him. He has heretofore been a good loyal citizen and a hard worker, and his present condition is looked upon with much regret by all. Although the one-year term he is to serve out at the penitentiary, is the minimum sentence, there still remains the extra large amount of money to be paid as a fine. Hoedle's financial conditions are said to be strained, and the payment of the fine impossible.

NIGHT RIDERS ARE BUSY IN KENTUCKY

Brooksville, Ky., Oct. 9.—After several weeks of idleness, Kentucky's masked night riders are again on the job of creating consternation through out the state.

Early today a party of men with their features completely hidden by long black masks drove up to the barn of Edward Johnson, set fire to the buildings, and destroyed 3000 pounds of valuable tobacco.

After burning the barn the vandals cut all telephone wires in the vicinity so that Johnson would be unable to communicate with the authorities.

The men had nothing to say to any of the members of the tobacco growers family.

The night riders committed no physical harm on Johnson and rode away as quietly as they had arrived.

The police are working diligently today to discover some clue as to the identity of the masked men.

sistently rumored at the court house today that the grand jury will indict Tyrus Cobb, the sensational ballplayer, during the afternoon. The outfielder, it is charged, stabbed Watchman George Stanfield of the Hotel Euclid while the Tigers were playing here recently.

On account of the world's championship series, the first games of which are being played on the Pittsburgh grounds between the Tigers and the Pirates, the police allowed Cobb to leave the city.

Rumor has it that the Georgia Cracker will be arrested by a deputy sheriff when the train from Pittsburgh bearing the ballplayers passes into Ohio tonight.

A National Bank Government Supervision Means Much Year by year the government's supervision of National Banks is becoming more rigid, and the qualification of the examiner is reaching a higher efficiency. The Comptroller of Currency, Mr. Murray, is knocking at the door of Congress and asking still greater powers in the administration of his trust. He is determined to safeguard the people's money deposited in National Banks. The word NATIONAL shall be and is a synonym of safety. Many banks are saved every year by the timely warning and halt called in mismanagement by the National Bank Examiner. Having fully decided on a National Bank as your depository, select the one that offers ample facilities and good service. You are respectfully invited to call and see us.
