

# Umbrellas

SPECIALLY PRICED

We're offering the best umbrella bargain in town because we made an extra good purchase from an Eastern house that was overstocked on high-grade umbrellas. We have promised not to tell the maker's name because these same umbrellas are selling in other towns all around us for \$10.00 and \$12.50. They have an all silk cover, steel rod and frame, bulb runner, fine selection of gold and silver handles, inlaid with pearls to choose from and when you come and choose one you have made the best buy you will ever have offered to you this winter. Only one to a customer. None sold to dealers.

## If You Are Wearing an Out-of-Date Suit or Coat

It's not our fault because we are giving the best suit and coat values in this town. Visit our large cloak and suit section and see what an enormous showing we have placed on special racks at reduced prices. One lady made a special trip to this store to thank the management for the perfect fit and cordial treatment she received when she bought her suit, and we have hundreds of that kind of customers, and that's why we sell more suits than any other store in this town—because we have more style, better tailoring and fabrics and cost less money.

pected that he will be prepared to make some suggestions regarding the early extension of the road on one of the proposed lines surveyed. The stockholders, it was said yesterday, will take no action in regard to the extension work; this will be planned by the board of directors.

It is the policy of the company to make its extensions piecemeal, completing about 50 miles at a time and getting in operation before another extension is made. Extensions have been planned and surveyed from Salem east, south and west to various points. One important branch proposed for the road is to connect with the main line near Portland and on to Corvallis. It has been intimated, however, that the first branch to be built will be from Salem to Albany.

## How to buy an EDISON Phonograph

Do not buy an Edison Phonograph until you are convinced that you want one. Hear it at the dealer's first. Hear it play a number of pieces. Hear it play the kind of music that you like—music that you have heard people sing and play—so that you can know how well it does it. Hear it play Amberol as well as Standard Records. You will decide that the Edison Phonograph is the best.

Then remember that it takes only a small amount of money to buy it. You can get a perfect Edison Phonograph at your own price, whether it is \$12.50 or any price up to \$125.00—one that will last a life-time, that will give pleasure every day, that will help you to educate your family, that will entertain your friends, and that will while away many hours that might otherwise be misspent.
