MAKES VERY LATE DISCOVERY

Gringo Goes Down Into Mexico and Finds What Everybody Has Known for 200 Years.

[UNITED PRESS LEASED WIRE.] New York, Oct. 21.—John Kenneth Turner's second article on "Barbarous Mexico," which will appear tomorrow in the current issue of the American Magazine, declares that the Yaqui Indians, generally supposed to have been marauders and murderers originally, were the best workers in Mexico, and would have been a steady and thrifty people, had not the Mexican officials driven them to war through plots to dispossess them of rich lands in Southern Sonora.

The article will say that they were taken "prisoners of war," and sold into slavery at \$65 each. Turner quotes a Mexican colonel, who said that he had sold nearly 16,000 slaves in the last three years, receiving \$10 himself for each one, besides getting the lands of the prisoners, the rest of the purchase price going to the government.

Among other things in his article Turner says: "For 24 years the only governors of Sonora have been Ramon Corral, who is now vice-president of Mexico; Rafael Ysabel and Louis Torres. These men have rotated in office, and the people of Sonora had no choice in their selection. These three men had to answer only to President Diaz, and their authority was practically absolute."

Quoting Teresa Urrea Cabon, a highly educated Mexican woman historian, Turner says the war was begun against the Yaquis at the instance of a pair of officials, who wanted to grab rich lands.

In this connection the article says: "The officials saw a great opportunity for graft in bringing soldiers into the state, who continually harassed and robbed the Yaquis. Bogus soldiers were sent throughout the Yaqui valley to mark the lands and tell the people that the government had decided to give it to foreigners. Eighty thousand dollars belonging to Chief Cajame was illegally confiscated from a bank. When the chief complained armed men were sent to bring about his arrest. They could not find the chief, so they burned Cajame's house, the homes of his neighbors, and assaulted the women. Even Cajame's wife was not spared, and finally the victims were gassed into a wag."

"Since that day, 24 years ago, Mexico has kept an army of from 2500 to 4000 men in the field against the Yaquis. Thousands of soldiers and tens of thousands of Yaquis have been killed. Finally, in 1884, the government took the land belonging to the Yaquis and gave it to General Lorenzo Torres, and the deportation of Yaquis to Yucatan began about four years ago. It was a common practice to force a Yaqui wife to marry a Chinaman. The official explained this practice by saying that the Chinamen were better settled with conditions than the Yaquis, and were not likely to run away from their wives."

Sincerely hoping the "theatrical trust" will not be prompted to take any longer chances because of the rapidly advancing eye market, we remain, with great respect, etc., the trust's truly, The Common People.

More Than Enough is Too Much.
C. R. Kluge, the Jeweler, 1000 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cured my backache and the irregularities disappeared and I can now attend to business every day and recommend Foley's Kidney Remedy to all sufferers as it cured me after the doctors and other remedies had failed." AND BUTTE MISLAID HIS PIPE

Has Three or Four Smokes Coming, Which Are Due and Now on Tap to Come Through.

That far-away look which the many friends of "Billy" Butte have noticed on his usually smiling face was caused not by money troubles or his being in love, or any little thing like that, but because he mislaid his pipe. Not long ago some good friend sent "Billy" a pipe, and if his friend-ship is measured by the pipe he sure likes Butte pretty hard. The pipe is six feet in the stem, which is two inches in diameter, and the bowl is eight inches high, and looks like a top slice of Mt. Hood; that's what worried "Billy." He could understand how he might have mislaid his house or the saloon or any little thing like that, but he couldn't imagine where the pipe had gone to; he didn't know whether he had put the pipe in the saloon or the saloon in the pipe. However, he is happy now, for the pipe is found. It is a combination pipe—where the man who smokes it lies in his bed upstairs while the hired man builds a fire in the bowl in the front yard. It is one of those mortgagebond pipes—where the smoker pulls on the draft today and goes back after the smoke tomorrow. That is what makes Butte worry, for he had had two, or three smokes on the way up the stem when it was mislaid that he had worked hard for. When you see him smile now you will know that he has collected one of those overdue sin kca.

If a few more congressmen will kindly take a fall out of "Uncle Joe" we shall more than half-way suspect congressional sessions will be worth attending next winter.

BANK OF ENGLAND

(Continued from page 1)
is sweeping the world and to prevent undue inflation of values.

Wall Street Sits Up.
New York, Oct. 21.—The increase of the Bank of England's discount rate to a full point, instead of a half point, greatly surprised Wall street. It is generally believed in financial circles that the reason for the increase is the desire of the British banking authorities to retain as much gold in England as possible. There is also a feeling here that values have been unduly inflated.

Bankers generally have warned their clients against extensive borrowing, and England's increase is to be followed by tighter rates here, although it is admitted that there is no shortage of money.

It is explained that the cash is needed to move crops, and financiers say that the tight money market will prevail here for two months. The bankers maintain, however, that business is healthy, and that they intend to keep it so.

So far all the circumstances have confirmed and corroborated Cook.

When You Hear—The bugle blow, step to the wagon and get a hot waffle, made of Wild Rose flour, a Salem product. Patronize home industry and buy Wild Rose flour hereafter. 10-21-31
Had Case Dismissed—P. C. Merwin, who was being tried in the circuit court yesterday on the charge of selling liquor without a license, was dismissed by the court on the motion of Merwin's attorney, W. M. Kaiser, on the ground that the indictment charging the defendant failed to state facts sufficient to constitute a crime. Only one witness was put on the stand, and his testimony was short, following which Attorney Kaiser made his motion.
Words to Preen the Soul—"Your soul has Consumption. Its case is hopeless." These appalling words were spoken to Gen. E. H. Brown, a leading merchant of Springfield, N. C., by two expert quacks—one a lung specialist. That was shown the wonderful power of Dr. King's New Discovery. "After three weeks' use," writes Mr. Brown, "he was as well as ever. I would not take all the money in the world for what it did for my son." Infallible for coughs and colds, for the relief, never cure of desperate lung diseases in youth. 50c and \$1.00. J. C.
