THE REAL AND FALSE VERSIONS OF MANKIND

Will All Be Explained at the Grand Opera House Tomorrow (Sunday) at 3 o'Clock p. m.

(Extract from lecture in Boston by W. D. McCracken.)

"If God is Spirit, then the real man of His creation, who is made in His image and likeness, and therefore, partakes of His nature, must be spiritual, i. e., must express and manifest Spirit. The real man's life must be Spirit, his faculties must be spiritual. Furthermore, as the image and likeness of God, the real man must be complete, happy, wholesome, and healthy. He cannot deny his parentage nor bring discredit upon his ancestry. He must be eternal and in destructible now, the ideal man, the son of God.

But this conclusion, derived from the Word of God, is found to be at variance with the testimony of material sense. It does not agree with the experience of mortal man from the cradle to the grave, for the experience of mortal man is one of sin, sickness, and death, not of undimmed joy and eternal life. Here is a discrepancy, and Christian Science provides the necessary explanation by showing that mortal, material man, the sport of circumstance, the prey of discord and the victim of grief, is not the real man of God's creation, declared in the Bible to be the image and likeness of God.

"Christian Science teaches that mortal man is a false version of the true man, a counterfeit attempting to resemble the true, but, nevertheless, easily detected because of his unlikeness to God, who is Spirit. God is not the author of mortal, material man, nor of mortal man's failures, limitations, and losses, of his final breakdown and his death sentence. God is not responsible for evil in any of its forms. He did not create it, since it could never lodge in His thought for an instant, else He were not wholly good and the principles governing the universe were not wholly reliable.

"Evil has no origin in Spirit, no

entity nor reality of God's making, and no eternity, but is always a false concept, assailing the mind of mortal man until such time as its lying nature is laid bare and its futile, transitory pretenses cease to frighten. Evil has no standing before God. Those who dwell 'in the secret place of the most High' need not fear its empty threats, but, asserting their divine rights, may rise, in the words of the apostle Paul, 'in the unity of faith, and of the knowledge of the Son of God, unto a perfect man, unto the measure of the stature of the fullness of Christ.'

"Thus it is that the two statements of the Bible, namely, that God is Love, and God is Spirit, find their reconciliation in Science. The doubts which have ever assailed suffering humanity concerning the goodness of God are dissipated. Though physical sense, left to its own devices, rises in opposition to the most High, and tries to give the impression that God is cruel and willingly afflicts His defenseless children, Christian Science elucidating the Scriptures, proves that evil is not of God's creation or permission. Good and god only proceeds from the Giver of every good gift, and all assertions to the contrary are due to ignorance or blindness of heart. John's statement that God is Love lives on forever side by side with Jesus' profound explanation that God is Spirit.

"There is much comfort to struggling humanity in the conviction that God does not authorize the miseries of our earthly experience. This conviction is the first step toward the realization that these very miseries, lacking divine sanction, cannot have any real entity or existence, and must perforce have a fictitious origin and an unreal nature. God becomes fully reinstated in human affections at the same time that the so-called law of sin and death loses its supposed hold upon human affairs."

University Hallowe'en Party. About fifty young people from all departments of the university gathered at the home of Dr. An. Mrs. Patterson last night and enjoyed an unusually good time, thanks to the efforts of the Adelante and Websterian societies. Real live ghosts was the order of the evening. They met the guests at the door and with a spook-like air pointed the way up the broad stairs, where other departed spirits lay in wait, and, with moans and groans most awe-inspiring, ushered their shivering, earthy friends into the presence of Mephistopheles—represented by a human skull hanging over a burning fire place. The extremely nervous condition of the gathered throng by this time was such as to render necessary a short program. Miss Maril Schmidt, reader, gave a humorous selection and Miss Irma Shumway most charmingly rendered two vocal selections. Miss Harriet Stuckey won well-deserved applause for her piano solos.

After refreshments had been served the rooms were darkened and real creepy ghost stories were unloaded to such an extent that several of the more timid ones were seen walking home in the middle of the street.

At the mystic hour of midnight the "ghosts" bade all farewell, promising to return another year. Which we hope they will.
