LICENSE FOR CITIES MAKES GAINS IN MASSACHUSETTS

Hard on the heels of the crushing defeat to the prohibitionists in Alabama comes the news from nearly a score of Massachusetts cities which have recently voted on "License or No License."

Most important of all those is Worcester, hitherto the largest "dry" city in the United States, which abandons prohibition by the rousing majority of 3,720 votes.

Holyoke s "wet" by 1,819, and Chicopee by 715.

Those elections were held December 14th.

A few days earlier the great manufacturing cities, Fall River and New Bedford, left the "drys" and swung into the license column with majorities averting five to one and over ten to one, respectively.

Gloucester and Marlboro likewise rejected prohibition by large majorities.

Of the fourteen cities voting December 7th, Haverhill was the only large town to swing from the "wet" to the "dry," and the majority there is less than that given for license last year.

The strength of the license cause showed important gains in Brockton, Waltham, Fitchburg, Northampton and Springfield, but a loss in Quincy, Lawrence, Pittsfield and Taunton.

Last year these fourteen cities were equally divided on the question of license, seven being for ant seven against.

This year's election puts ten in the license class, and to these must be added Worcester, Holyoke and Chicopee.

The license fight centered in Fall River, Worcester and New Bedford.

The strongest kind of opposition was put up by the churches and other no-license workers, but Fall River with a majority of 423 for no-license last year shows a "wet" majority of 2,158, and New Bedford, which last year went "dry" by 305 returns to license by 2541.

Gloucester was carried by the prohibitionists last year by 205 and this year votes the other way by 216.

Marlboro gave 300 for "No" a year ago and changes this year to 456 for "Yes."

The license vote in the fourteen cities voting December 7th, compared with that of last year, is as follows:

Cities—	1909	1909	1908	1908
	Yes.	No.	Yes.	No.
Brockton	3646	5486	3735	5301

Taunton	2799	2527	3065	2893
Waltham	1581	2090	1494	2750

* No to Yes. x Yes to No.

On the whole, the gains in favor of license this year are very heavy and indicate plainly the waning strength of prohibition in Massachusetts.

Worcester, Fall River and New Bedford, next to Boston, are the most important cities in the state.

Women Who Are Envyed.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 5c at J. C. Perry.

The Christmas Dinner.

In spite of the fact that the word dyspepsia means literally bad cook, it will not be fair for many to lay the blame on the cook if they begin the Christmas dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the cook! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.
