STREET CAR COMPANY PROMISES TO DO BETTER

The Railroad Commission today dismissed the complaint filed against the Portland Railway, Light & Power Company by Will G. Steel. The complaint against the company by Steel was that it was running open and unheated cars on the St. John line, and a hearing had been set for January 25, in the Chamber of Commerce building, Portland. The dismissal is at the request of Steel, who

says in his letter to the commission, asking that the case be dismissed, that the company has shown a disposition to remedy the situation, and in view of that fact, asks that the suit be dismissed without prejudice, and with the understanding that it be filed again should the company fail to live up to its agreement.

ALBANY TAXES DISCUSSED TELEPHONE STRIKERS WORK GRANGE VERSUS ASSEMBLY

[UNITED PRESS LEASED WIRE.]
Albany, Ore., Jan. 20.—The Democrat of this city, which is by the way, a Prohibition paper, has just published a letter, branding an Albany correspondent a knocker, a falsifier and a whiskey man.

The following paragraph, written by the correspondent, was the cause of such an overflow from the editor: "By reason of the curtailment in the city's revenues, following the closing of the saloons, a large direct tax is in prospect, if Albany will maintain its credit. The mayor's message showed that the indebtedness for the year 1909 was over \$83,000; estimated revenue for the ensuing year, \$34,000."

It is to be regretted that the editor should take such a stand. The correspondent stated facts, and for printing the truth he is branded with such epithets as "knocker," "liar" and "whiskey man."

The fact of the matter is, direct taxes in Albany are not only in prospect of being higher, but are almost double since the abolishment of the saloon.

It is an old Prohi trick to harp on lower taxes, because the number of mills is reduced, but they fail to remember that property in Albany at the present time is taxed for full cash value, instead of one-third to one-half, as formerly. A levy of five mills today calls for a higher tax than 10 mills three or four years previous.

The writer has interviewed several prominent business men of this city, and, without an exception, asserted that direct taxes are higher now than ever before.

The telephone strike, which caused quite a sensation here a few days ago, and which was supposed to have been settled, has again come before the public eye. It appears that three of the strikers, who quit on account of personal indignities being imposed upon them, quietly circulated a petition among the men of the

city asking for fair treatment. Yesterday Mrs. Sadie Kyle, Miss Irene Gilchrist and Miss Edith French journeyed to Portland with the long list of names, and appealed to headquarters. The officials of the company, as a result of the petition, have made arrangements to come to Albany and have the affair settled. The young ladies are determined to have the uncalled for accusations removed.

The crack teams from the Eugene and Albany high schools will meet tonight in the Alco club gym. As the local team remains undefeated so far this season, they are determined upon victory, and an exciting game is expected. The Albany high school basketball team is in line for the state championship, and under the able coaching of Harmon Blyen, of the O. A. C., will probably see them floating the coveted trophy.

Judge Galloway, of the circuit court, today granted a divorce in the case of Cecil Braynard, an Indian, against Warren Braynard, for desertion. Also in the case of Ernest Kyle against his wife, Sadie Kyle, whom he accused of threatening his life.

The most important case to come up before the present term of the courts is that of Linn county against the Calapooia Lumber Company. Linn county is suing the lumber firm for an injunction against a dam at Crawfordville, which causes the county road to be overflowed. A great many witnesses have been called to testify in this case.

The Jordan Grange, of Linn county, has passed a resolution against the assembly, which is as follows: "Whereas, There seems to be a disposition on the part of the politicians of the state, assisted by some of the newspapers, to assail the direct primary law, the initiative and the referendum, therefore be it

"Resolved, That the Jordan Valley Grange, No. 42, of the jurisdiction of the State Grange of Oregon, that we wish to go on record as opposing the so-called assembly plan, and that we renew our allegiance to the above mentioned laws, and be it further

"Resolved, That we support no candidate for public office that opposes them."

The American Excess Of Good Living

The Principal Cause of the Great Prevalence of Indigestion and Dyspepsia.

A Trial Package of Stuart's Dyspepsia Tablets.

Man inhabits every part of the globe where external influences can be successfully resisted. Food is an important element in effecting this, and nature has provided for it accordingly. The colder the climate the more animal food and oily substances are required; the warmer the preponderance of vegetables and fruits is necessary in one's diet.

The whale-blubber of the fur-clad Eskimo, and the rice of the nude African, are as much necessities of locality, as matters of choice. The same indications exist in civilization. Thus the diet of America and England are essentially different from that in Italy, Spain and Egypt.

The effects of universal communication are nowhere more obvious than on the luxurious table. To furnish the refined cuisine, all climates, both sea and land, are laid under contribution, and the stomach is expected to digest, without assistance, everything that is put into it. Combining together such varied products, and the neglect of the relation between climate and foods are very active causes of dyspepsia.

The heavy substantial dishes of this climate accord badly with the thermometer at 90 degrees; and an inflexibility in regulating the kind and quantity of food is a cause of a large proportion of the ill health and stomach troubles among the English and Americans.

Thousands of people who have suffered from stomach troubles, and a general ill-health resulting therefrom, because of a badly regulated diet, and the ingesting of an excessive amount of food at the table, have obtained speedy and permanent relief by means of a simple expedient—that of using one or two of STUART'S DYSPEPSIA TABLETS after each meal, or whenever any of the well-known symptoms of indigestion are present.

These powerful digestive tablets contain every element that exists in the stomach to digest food, and in the exact proportion as found therein. They take the place of the natural digestive juices when the latter are deficient in quality or quantity, and do their work for them, removing the indigestion by digesting the food, and resting, strengthening and purifying the digestive tract.

There is no other digestive remedy on the market which has been found equal to Stuart's Dyspepsia Tablets; none which is so rapidly and powerfully efficient, or which removes discomfort, banishes stomach pain and relieves and cures all of the symptoms of dyspepsia and indigestion in so thorough and pleasant a manner as these marvelous little tablets, a single grain of which is capable of digesting 3000 grains of any and every kind of food.

All persons who are annoyed with stomach troubles of any kind should use Stuart's Dyspepsia Tablets which will remove such troubles in a very short time. Purchase a box from your druggist, and send name and address for free sample. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

X-RAYS AND SMILES

This city will never get mountain water, sewers and paved streets under the present system. It is too unwieldy, too expensive and irresponsible. The commission plan would expedite things.

With first-class plays, good street car service, and the finest opera house in the valley, Salem is entering on a brilliant theater season.

Of course, the new tax code repealed the indirect two per cent tax on gross earnings of corporations. That was the law enacted by the poor foolish Grangers of Oregon. Great is the legislature.

With the Portland newspapers and the press reports against him, and the U. S. government against him, Binger Hermann is more than holding his own.

It has taken six months to lay the railroad tracks at Trade and Commercial streets, and will take six months more to pave.
