### SCIENTISTS PREDICT TERRESTRIAL DISTURBANCES

Port of Costa Rica, Feb. 11.—Received today from the volcano lying about the foot of volcanic mountain of Poas that eighty persons were killed during its eruption early in the week. All the deaths were caused by enormous stones that were belched from the crater. Considerable property damage also was done. Scientists see in the eruption of Poas, which was the severest in its history, a warning of terrestrial disturbances in Central America and the Panama canal zone. Official warnings have been sent to the canal authorities to strengthen the vulnerable points along the construction lines in preparation for the quakes Costa Rican scientists predict.

### FRENCH TRANS-ATLANTIC LINER TOTAL WRECK

Palma, Majorca Island, Feb. 11.—The French trans-Atlantic liner Chanzy, which sailed from Marseilles last Wednesday with a heavy cargo and a large number of passengers, is a total wreck off the north-east coast of this island, and it is feared that many lives have been lost. Estimates of the number of persons on board are conflicting, some being as high as 1,000. The Chanzy was a steamer 2,600 tons burden and one of the staunchest passenger vessels plying out of Marseilles. A few hours after she cleared that port she ran into the terrific gale that has been sweeping southern Europe for the last 48 hours. It is believed that she was blown from her course and dashed on the rocks. The storm is still raging, and it is feared that other disasters may be reported. The vessel went on the rocks near Mola Point, and according to reports here the only survivor was one sailor, who tied himself to a deck hatch and was washed ashore. There is a possibility that others escaped on life rafts, but the severity of the storm makes this appear unlikely.

### STAND FIVE TO ONE AGAINST RE-ELECTION OF CANNON

Republican Editors Declare Against Cannon 2653 Strong-- His Home State Disproved of His Re-election by an Overwhelming Majority.

Chicago, Feb. 11.—Republican newspapers of the west today stand at a ratio of 5 to 1 against the re-election of Speaker Cannon to the speakership of the next congress, while a poll shows a ratio of 18 to 1 against his re-election among independent newspapers west of and in the vicinity of Chicago. The poll was conducted by the Chicago Tribune in the states of Ohio, Michigan, Illinois, Indiana, Wisconsin, Iowa, Kansas, Nebraska, Colorado, Oklahoma, Utah, Wyoming, Minnesota, the Dakotas, Montana, Idaho, Oregon, Washington, California, Nevada, Missouri, Kentucky and Tennessee. The following questions were asked: 1.—"Is Joseph G. Cannon, of Illinois, your choice for speaker of the next congress?" 2.—"Do you endorse the Aldrich-Cannon tariff law or the Aldrich organization of the senate and the house?" The replies to the first question which the editors returned, would have settled the fate of the speaker had the balloting actually been among the congressional constituencies represented. The Republican editors declared against Cannon 2,653 strong. He was supported by but 546. Thirty-one independent editors favored his re-election while 541 voted an emphatic "no". Totals: For Cannon's re-election 577; against his re-election 3,194. The supporters of the Aldrich-Cannon tariff and the "Regular" organization of the senate and the house were similarly in the minority. Eight hundred and twelve Republican editors declared for the tariff and the "Regular" organization. Opposed were 2,686. Among the independents the result was 27 to 577. Totals: Favorable to the Cannon-Aldrich tariff and the "Regular" organization 839; against 3,263. Speaker Cannon's home state of Illinois, disapproved of his re-election by an overwhelming majority, 332 editors opposing him while only 58 favored his return to the speakership. The following table summarizes the vote on the Pacific Coast: "Question No. 1, do you favor Cannon's re-election?" — California: Republicans, yes 22; no 99. Independents, yes 3; no 38. Total, yes 25; no 137. Washington—Republicans, yes 21, no 81. Independents, yes none; no 13. Total, yes 21; no 94. Oregon—Republicans, yes 14; no 44. Independents, yes 1; no 13. Total, yes 15; no 57. ### JUMPED FROM CHURCH CHOIR TO OPERA

(United Press Leased Wire.) Los Angeles, Calif., Feb. 11.—Although she has been appearing in comic opera in a local play house nightly for two weeks it was not learned until today that a new prima donna playing with one of the local stock companies here, under the name of Catherine Edmonds is none other than Mrs. Edward Shanks, who until recently was the leading soprano in the choir of the First Presbyterian church at Pasadena and later choir leader of the Emanuel Presbyterian church in Los Angeles. Without previous stage training Mrs. Shanks jumped from church

### KILLED HIS SWEETHEART AND HER FATHER

Tylertown, Miss., Feb. 11.—Sought as the slayer of his sweetheart and her father, Sylvester Bearden today is being pursued by a posse under orders to take him dead or alive. Bearden is also alleged to have clubbed two children of Walker's so that their death is expected momentarily. According to the best information obtainable, Bearden visited the Walker home last night to pay court to Inez. The girl's father, apparently objecting to Bearden's attentions, ordered the young man to leave the house. Instead of complying Bearden seized a shotgun and is said to have shot the father dead. He then ran amuck, according to the police, killed Inez and clubbed the children with the butt of the shotgun.

### FINANCIAL CIRCLES WATCHING TAFT CLOSELY

(United Press Leased Wire.) Washington, Feb. 11.—The speech to be delivered by President Taft tomorrow night before the New York Republican Club at the Waldorf-Astoria Hotel is awaited with intense interest in financial circles here today. It is expected that the president will take occasion to clear up some misunderstanding concerning his policy, and answer the following questions: When is a trust a good trust? When is it a bad trust? How far could the government go in the prosecution of trusts? What should be the government's attitude toward the trusts in the event of adverse decisions by the United States supreme court in the Standard Oil and tobacco cases? What should be the government's attitude in the event of favorable decisions in these cases? How may the Republican party pledges be carried out best by the administration? It is believed here that the president will reiterate his statement that the government should not "run amuck" with prosecutions. It is probable that he will make it clear that the decision of the supreme court in the tobacco and oil trust cases will have much bearing upon the course of the administration. President Taft has worked hard over his speech, and has put in much time formulating it. He has been fairly besieged for weeks by financiers, urging him to make his position plain, and, in that manner, settle the present unrest in the stock market. Several financiers have pointed out that much of the uneasiness in the market has been due to uncertainty regarding the president's future policy, and that no matter what it is to be there will be benefit from a definite announcement.

The father of Miss Alexander is Henry Addison Alexander, at present legal adviser to the American embassy at Paris, where he is now located. Miss Alexander is 21 years of age. Young Roosevelt is learning carpet manufacturing in a factory at Thompsonville, Conn. It is reported that the ceremony will not take place until after the Colonel's return from Africa. According to the ground hog we will have six more weeks of winter weather, he having seen his shadow when he came out of his hole, February 2.

### THE CZARINA MAY GIVE UP THE GHOST

Dispatches Concerning the Condition of the Empress. Are Being Strictly Censored.

### DEATH A QUESTION OF TIME

Suffering From an Affection of the Brain Caused by Being in Constant Fear of Anarchists and Nihilistic Plots.

(United Press Leased Wire.) Eydtkuhnon, Russia, Feb. 11.—The czar's illness took a serious turn today, and she was unable to recognize the czar and their children.

She is suffering with the recurrent hysteria and melancholia to which she has been subject for several years. It is feared that her death may be a question of but a short time. Dispatches concerning the czar's condition are being strictly censored.

### Real Nature Concealed.

London, Feb. 11.—The real nature of the illness of the Empress of all the Russias told in dispatches today probably is concealed by the official censors at St. Petersburg and Eydtkuhnon. The illness of the czar's is popularly believed to be an affection of the brain caused by her living in constant fear of anarchistic and nihilistic plots. Scarcely a day passes but what authentic or fallacious information concerning plots to destroy the czar or some member of the royal family reaches the palace.

Formerly these threats and plans of those who would overthrow royalty were told to the empress. Now they are kept carefully from her.

### Stands in Constant Fear.

The constant fear that her husband, her children or herself might be killed at any time is said to have preyed on her mind with dire effect. Less than a year ago, the czar's physicians ordered her to journey to the Mediterranean to recover her health with the alternative of complete loss of reason if she refused. The empress was willing to go until she learned that reasons of state would compel her to leave the czar and careworn at home.

The empress refused absolutely to listen to the arguments of her physicians or her family. She would not leave her husband and children to what she believes ultimately will be their ends.

Nevertheless the imperial yacht is kept with "steam up" constantly with the hope that the empress may change her mind and for the purpose of taking advantage of her decision before she becomes frightened and refuses to go.
