

**FIRE-PROOF  
BUILDING  
DEDICATED**

Formal Opening of the New United States National Bank Block, Corner State and Commercial Streets.

The friends of the United States National Bank, and tenants will join Saturday in celebrating its formal opening and dedication to the service of the public. The building is beautiful in every detail and is the finest in the state outside of Portland, and a class "A" steel frame fireproof building.

On Saturday afternoon from 3 until 10 p. m. they will keep open house. The first modern fireproof, steel building will be thrown open to the public and the bank and the offices on the five floors will be open to the inspection of their friends.

The rapidity with which the suites of offices have been filled up has surprised everybody. It proves that a modern building with steam heated rooms and elevator services is appreciated and it will be but a short time when every room in the building will be taken. The success of this enterprise indicates that there is room in Salem for several such buildings and they are being planned at present and will probably be filled as fast as they are completed.

The men who are employed to
