

ANOTHER VICTORY FOR THE BIG MEYERS STORE

Ready cash and good judgment has secured for us one of the greatest silk Petticoat specials ever opened and displayed in Salem. Our buyer, Mr. H. W. Meyers, received word from a large Eastern silk Petticoat maker that he was in need of money, and he offered us a lot of Petticoats that, provided we took the whole lot, he would make a heavy price reduction. Mr. Meyers immediately got busy with this maker and informed him to ship the whole business by express. They arrived yesterday, and they are the biggest value we ever offered on sale for so little money. Compare them with the so-called \$5 and \$6 skirts sold elsewhere, and our price is only, while they last, **\$3.69**

Auto Veiling—Chiffon Cloth

Forty-five inches wide, the proper veil that all autoists in Eastern cities are wearing. We have it in the newest weaves and colors of apricot, gray, light blue, old rose and white. It's extreme width and being washable makes it the most desirable of auto veils. Two yards makes a veil. See it at the veiling section; main aisle—First Floor.

First Sprinkling of Men's, Young Men's and Boys' Wearings Has Arrived

In the showing are some new color creations of neckwear; plain white and plumed bosom shirts, with the usual pocket, four-button and coat styles; new suits for spring wear, with all the good tailoring qualities. Men's Section—New Annex.

MEANING OF CENSUS TERMS

The Bureau's Instructions Concerning a "Dwelling House" and a Family.

Washington, D. C., Feb. 17.—The official definitions of the terms "dwelling house" and "family," with reference to the population schedule to be carried by the enumerators in the Thirtieth United States census, beginning April 15 next, are explained in the census bureau's lengthy printed instructions to the canvassers. It is pointed out that the answers should relate only to conditions existing on April 15th, the "Census Day."

The words "dwelling house" and "family" are, for census purposes, given a much wider application than they have in ordinary speech.

A "dwelling" is defined as a place in which, at the time of the census, one or more persons regularly sleep. It need not be a house in the common meaning of the word, but may be, for example, a room in a factory, store, or office building, a loft over a stable, a canal boat, a tent, or a wigwam. The term also includes a hotel, boarding or lodging house, a tenement or apartment house, an institution or school building, if persons regularly sleep there, as well as the ordinary dwelling house.

A "family," as a census term, may mean a group of individuals who occupy jointly a dwelling place or part of a dwelling place, or an individual living alone in any place of abode. All the occupants and employees of a hotel, if they regularly sleep there, make up a single family, because they occupy one dwelling place, and persons living alone in cabins, huts, or tents; persons occupying a room or rooms in public buildings, stores, warehouses, factories, or stables; and persons sleeping on river boats, canal boats, barges, etc., if they have no other usual place of abode, are regarded as families.

The enumerators are required to enter on the schedule the name of every person whose usual place of abode on April 15, 1910, was with the family or in the dwelling place for which the enumeration is being made. The head of the family is to be entered first; then the wife; next the children, whether sons or daughters, in the order of their ages; and lastly, all other persons living with the family, whether relatives, boarders, lodgers, or servants. The head of the family, whether husband or father, widow or unmarried person of either sex, is to be designated by the word "head"; and the other members of a family as wife, father, mother, son, daughter, grandson, daughter-in-law, uncle, aunt, niece, boarder, lodger, servant, etc., according to the particular relationship which the person bears to the head of the family.

BOOSTERS GET BUSY

The Boosters Club of the first ward held another meeting last evening at the real estate offices of H. A. Johnson. The members of the club discussed at length various improvements to be made in the ward and action was taken with relation to some of them while other matters were postponed for further consideration. Considerable complaint was made against the North Mill race and a committee was appointed to confer with the council for the purpose of seeing if the ditch cannot be closed.

The subject of cross walks in the ward were also discussed and the street committee will be asked to make an investigation and see to it that they are kept in a better condition.

STILL HOLDING SITUATION.

Constantinople, Feb. 17.—The Greek army is still holding Athens today against the hostile navy, according to advices received here from the Greek capital.

The army men are reported to have seized ammunition intended for the torpedo boat destroyers of the fleet, rendering the vessels practically useless.

Colonel Zorbas, whom the army men want to proclaim military dictator, is mobilizing additional soldiers in Athens. In view of his activity it is feared the vessels will shell the Grecian ports left until protected by the removal of the garrisons to the capital.

The exact situation is difficult to learn because of the strict censorship of news that has been established. It is certain from dispatches to commercial organizations in this city, however, that the situation is critical.

The trouble that threatens Greece with civil war is of long standing.

perhaps the admiral, though he is subject to the regular discipline of the department, perhaps may have more power than some officials at Washington may suppose.

There is no doubt whatever that any effort to remove Phelps will result in a big row, and it is believed here that his influence in congress would make it possible for his friends to give Secretary Meyer considerable trouble.

The general dissatisfaction and unrest in naval circles has grown out of the conflict which resulted from the action of Secretary Newberry, in placing the construction department superior to the engineering department, and making a naval constructor the general manager of the navy yard. This policy was put into effect throughout the organization.

When Meyer became secretary, he decided to revoke the plans of Newberry, and institute the Meyer plan, which contemplates the establishment of two great co-ordinate branches, and does away with the ranking of one department over another.

Friends of Phelps here think that Meyer has made a mistake in accepting figures submitted to him by Rear-Admiral Cone, who is at the head of the engineering department of the navy, and naturally opposed to the Newberry plan, which placed the construction department in a position of superiority.

Bomb "35" Goes Off.

Chicago, Feb. 17.—Bomb "35," the thirty-fifth exploded in the war of intimidation conducted by the underworld of this city, was set off today in a building owned by Michael H. Eitler. Eitler was a witness in the recent trial of Police Inspector McCann, convicted of extortion in the red light district.

but little loot as a reward for his labors and the risk he was taking of being apprehended, as beyond a few nickels and dimes, no articles of value were found missing. It is believed that the burglar effected his entrance through a side door which was unlocked and that it also served as his means of exit in making his escape.

Life on Panama Canal

Mr. E. A. Kelley, Belvidere, Ill., writes us: "I am an ex-engineer with 22 years active service to my credit. About three years ago my kidneys were affected so that I had to give up my engine. First I was troubled with severe, aching pain over the hips. Then followed inflammation of the bladder, and specks appeared before my eyes. A sample of Foley's Kidney Pills that I tried, so benefited me that I bought more. I continued to take them until now I can safely testify they have made me a sound and well man." Sold by J. C. Perry, Druggist.

STEINER PROMOTED

Will Attend a Stallion During Summer Time and Teach Singing School in Winter.

"Der" Steiner, Eugene Eckerlen's right hand dependable, has been put in charge of "Zombro," Mr. Eckerlen's fine young stallion, and Steiner is scrubbing the expensive piece of horse flesh up preparatory for the coming horse show, to be held in this city during the summer months. Steiner has practically discarded his faithful old driving horse, with the exception of feeding him, and now devotes the greater portion of his time "sleeking up" the blue ribbon winner. Although "Zombro" is not of German parentage, and his ancestors do not figure very prominently, Steiner gets busy with the curry comb and brush about four times daily, and, after combing off the stray hairs, shines the youngster up with cham-chaise skin.
