Stockton

WILL TEST WIRELESS TELEPHONE

Sacramento, Calif., Feb. 22.—The official tests of the Paulsen wireless telephone in America will be made here and at Stockton tomorrow by the mayors of the two cities and by leading citizens.

The Paulsen system is the first to have been installed in America for practical use, and its promoters, comprising San Francisco, Stockton, and Sacramento capitalists, declare it to be the first overland telephone system that may be used with success.

The inventor of the system is Dr. Vlademar Paulsen, a Danish scientist.

American rights were bought by C. F. Elwell, a graduate of the engineering department of Stanford University and Professor C. D. Marx of Stanford.

Following tomorrow's tests, a demonstration will be given next Sunday for the benefit of the army signal corps and if these are successful, the promoters expect a rapid increase of wireless telephone stations throughout the country.

Big Fire at Spokane.

Spokane, Wash., Feb. 22.—Fire destroyed Greenough Brothers grocery store, one of the largest in the city early today. The loss is estimated to be at least \$125,000. The fire originated either from a spark from the furnace or through spontaneous combustion, and probably smoldered for hours before being discovered. The entire fire department worked in a below zero temperature, this being the coldest day Spokane has experienced this winter.

SAN FRANCISCO WANTS THE JEFFRIES-JOHNSON FIGHT

[United Press Leased Wire.]

San Francisco, Feb. 22.—If Tex Rickard can make his peace with the supervisors here, and there is every reason to believe that he will, the Jeffries-Johnson fight will take place in the city of San Francisco. This is the word that was passed along the line last night, and when the Nevada and Supervisor Herget get together, which probably will be tonight, it is expected that they will come to an understanding, call off all old scores, and definite arrange to stage the big battle in this city. With Mayor McCarthy avowedly in favor of having the fight take place here and Jim Griffin, to whom the July permit falls, ready to relinquish the coveted paper, it looks very much like it will not be necessary to bring the big fellows together across the bay.

Griffin, while realizing that for him to step out of the way would mean the losing of a good piece of money, has stated without qualification that he is willing to pass the permit over to Gleason and Rickard.

"San Francisco must have that fight," said Griffin last night, "and I stand ready to do all in my power to bring it here. The fact that the July permit will fall to me should

not deter Rickard and Gleason. I am ready to give it up, and I am not going to try to hold the promoters up, either. All this talk about my wanting to 'sell the permit' is rot. If Gleason and Rickard think I am entitled to something for turning it over to them, all well and good. All I want is to see the fight staged right here. That will be sufficient reward for me. It will mean thousands of dollars to the business men of the city in immediate returns, to say nothing of the advertising the city will get."

Gleason, while preparing himself for contingencies, has, nevertheless, been confident throughout that the big battle will take place in this city. The numerous tiffs between him and Rickard have not alarmed him, as he has felt that when it came right down to brass tacks, both would come to the realization of burying the hatchet. It was for the uprose of giving Rickard and Herget a chance to get together that Gleason and Rickard have postponed their conference, but after tonight's meeting between the Nevada and Herget, it is believed that everything will have been cleared away, and that a definite announcement that the fight will take place here will be made before the end of the week.

WILL NOT INDICT LEADERS OF MOB

Calro, Ills., Feb. 22.—It was reported here today that no attempt will be made to indict the leaders of the mob that stormed the Calro jail where a negro purse snatcher was imprisoned, and precipitated a riot in which Alexander Halliday, son of former a mayor of this city, was killed.

It was hinted that although Sheriff Nellis is in possession of the names of the leaders, he would risk his life if he was to make them known. Feeling is intense here to-

day and it is feared another outbreak will occur.

Rumors that night riders from Kentucky and Missouri are planning to come to Calro and lynch the next negro arrested in the city were current today. The authorities are investigating a report that an anti-black society, formed primarily for the protection of those who participated in the riots, is being organized.

Trenton, N. J., has passed a by-law making it impossible to collect street car fare from a passenger who has to stand up, and now the majority of the people are waiting for crowded cars, and take a free ride standing up.

PRESIDENT WITHDRAWS NOMINATIONS

Washington, Feb. 22.—President Taft today ordered the withdrawal of his nominations recently sent to the senate for positions on the court of customs appeals.

At the White House it was said that the president assigned as his reason for the withdrawals that he did not believe it to be fair to the men nominated to ask them to serve for the \$7,000 a year voted by congress when they had tentatively accepted the nominations expecting a salary of \$10,000 a year. Among the names withdrawn were those of James F. Smith and Marlon de Vries of California.

Has Not Called General Strike.

[UNITED PRESS LEASED WIRE.] Philadelphia, Feb. 22.—President Murphy of the labor council appeared at the headquarters of the strikers this afternoon and denied that he had called a general strike. He declared that a misconception had arisen because he sent letters to the presidents of all unions affiliated with the council asking them to ascertain how their members viewed the possibility of a general strike.
