by Mr. Taylor in his sermon on "Hell." The reply was very brief. the abundance of the scriptural ref- new problems in chemistry, machin- they can make. There are no comerences, was filled with illustrations that proved conclusively the points brought out in the sermon.

"Sunshine and Shadow" was the topic of Mr. Taylor's address last evening, taking his text from John 8:12-"I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life." "As the sun is to the solar system," said the speaker, "so is Christ to the world," impressing upon the hearers the need of following Christ. The world is reading the lives of Christian characters and they must so live that the sinner will know Christ dwelleth in them, God cannot look upon sin, and if we continue in sin we must also continue in darkness.

"There are several shadows," said he: "Church shadows—and if there is any place on the face of God's green earth where shadows should be eliminated, it is in the church. These come sometimes through the pastor who wants to rule or won't work; through the deacon; the Sunday school superintendent, the Ladies Aid society: choir-the war department of the church." "It is easier for a came! to go through a needle's eye below than for discord to go through har-
