His Identity Undiscovered

After tracing down all clues that might lead to establishing the identity of the man who, about a week ago, committed suicide in the Salem Lodging House, and failing to find anything which would bring about a positive identification, the body was buried Saturday afternoon in the I. O. O. F. cemetery. The services were conducted by Rev. Bandy.

Complaints Against S. P. R. R.

The commission is also in receipt of a complaint from E. P. Drew of Yoncalla. Mr. Drew represents the Southern Oregon Nurseries and complaints against a local rate being charged from Portland to Yoncalla on eastern and southern shipments. He says that it has forced him to route his shipment over a northern route instead of a southern route and that because of the cold climate prevailing through the northern route his stock has suffered damage from time to time.

Suits Commenced

Alonzo Palmer has commenced an action in the circuit court against A. Olinger and wife. The suit is based on a promissory note, secured by a mortgage on real property, and a judgment for the amount of the note, \$250, and a foreclosure of the mortgage is prayed for. A suit has also been filed by the Farmers & Mechanics Bank of Woodburn against F. J. Eldridge. The action is brought for the purpose of recovering a judgment of \$150 and attorneys' fees against the defendant.

Complaints Against Railroads

George L. Hibbard in behalf of the people of the little town of Montavilla today filed a complaint with the Oregon Railroad Commission against the Oregon Railroad & Navigation company. Hibbard in his complaint sets out that in the year 1902 the people of Montavilla purchased at an expense of \$750 three acres of land near Sheridan street and the right of way for the company with the understanding that the company would put in a switch and in the course of two years from the time of the purchase of the land would erect and maintain a depot. The complaint says that the switch has been installed but that the railroad company refuses to erect a depot for the freight and passenger traffic. This condition of affairs makes it necessary for the people of Montavilla to convey their freight by dray from Portland which is very expensive as it is six miles distant and the commission is asked to make an order directing the railroad company to erect and maintain a depot.

Chimney-Sweep Lands in Jail

Robert McIntyre a chimney sweep who has been making himself obnoxious in the city for the past few days, was arrested Saturday evening by Officer Murphy, and Deputy City Recorder, Elgin sentenced him to 10 days in the city jail this morning for "getting gay."

McIntyre is one of those frivolous, unprincipled mistakes who go about in search of work and upon being refused, berates and abuses women folks of the community for the simple reason they have no work for him to do in the way of swabbing out chimneys. He called at the home of Mrs. Hendricks Saturday afternoon dressed up in his gay attire, and upon being told that there was nothing needed cleaning about the premises just then, he used some abusive and insulting language. The recorder's office was notified and Officer Murphy dispatched to arrest him. Officer Murphy performed his duty admirably notwithstanding the protests from McIntyre and the latter is now serving for his smartness in the city jail. He promised Deputy Elgin that he would leave the city immediately if permitted to do so, but that official was in a strangely different frame of mind and gave McIntyre the limit.

CANADA DEMANDS MINIMUM

TAFT AND EARL GRAY CANNOT AGREE ON TARIFF AND CANADA WILL NOT DOUBT ESTABLISH BY TARIFF ON AMERICAN PRODUCTS.

Albany N. Y. March 21.—Accompanied by Lord Gray, Governor General of Canada, President Taft departed today for New York.

The president refused to discuss any phase of the pending controversy over the Canadian tariff or to comment on the house re-organization at Washington.

The president, Earl Grey and W. S. Fielding, Canadian minister of finance, were in conference until far into the night with the object of averting a tariff war between the United States and the Dominion of Canada.

The Canadian officials refused to concede a point on Canada's contention for the application of minimum rates under the Payne tariff law.

President Taft has no alternative but to apply the maximum rate under the new law. The tariff question will be adjusted by March 31 and should the maximum be applied Canada undoubtedly will retaliate.

A suggestion was made that the president seek a special act of congress to enable him to grant certain concessions to the Northern dominion. As this would reopen the tariff question it is hardly likely that the president will seek enabling legislation.

The president was scheduled to arrive at New Haven this afternoon to attend a meeting of the Yale corporation directors. Tonight he will address the New England Jewelers' association at Providence R. I.

Taft Expresses His Friendship

Toronto, Ont., March 21.—Following the tariff conference between President Taft, Governor General Lord Grey, and Minister of Finance Fielding, President Taft through Dr. J. H. MacDonald, editor of the Toronto Globe, has sent a message to Canada:

"Say to the people of Canada," said Taft to MacDonald, "that my most sincere desire is that not only the present unforeseen difficulty, but that all other difficulties between Canada and the United States be settled with justice to both and in a spirit of friendship and generosity. 'Assure the people of Canada that if it were only a matter of business, and not a question of interpreting the statutes, I would have had no trouble in proclaiming Canada as having the right to our minimum tariff. I have seen too much of Canadian people, hold too high an appreciation of Canada's worth, and am too profoundly in sympathy with Canada's aspirations as a part of the British empire to haggle over the mere advantages and disadvantages of internal trade."

"The difficulty has been in interpreting a statute which has never before been interpreted."

"After a conference with Hon. Mr. Fielding I am hopeful of finding a solution which will regard for my judicial responsibilities as president and also trade interests in both countries."

This message was given MacDonald in recognition of his efforts to create an understanding between business interests of the two countries.

Just a Small Flare-Up

A cutting match took place this morning in front of the "Sun Set" grocery between Wm. Westcott, the street cleaner, and Fred Day, proprietor of the grocery. The trouble arose over Westcott moving Day's horse down the street a few feet in order to clean the portion of the street on which the rig stood. Day requested that Westcott leave the horse alone unless he tied it up after leading the animal away and one word led to another until a warm altercation ensued which resulted in Westcott being slapped. Westcott immediately called on Judge Moores for assistance but the judge calling up Day and having a quiet talk with the two men, succeeded in bringing peace between the two and no arrests were made. Judge Moores, however, is strictly opposed to having the street cleaner delayed over five minutes while at work and thinks team owners should not refuse to move along.

SPRING OPENS WITH HIGHER TEMPERATURES

[UNITED PRESS LEARNED WIRE.]
Washington, March 21.—According to weather bureau announcement spring begins today. The forecasts for the opening of the year season was generally higher temperatures throughout the country than for the same period last year.

An exception to the general prediction was made for Southern California, the southern section of the Rocky Mountains and the southern plateau where temperatures will be slightly below normal.

DANGER OF STRIKE IS NOT OVER

Chicago, March 21.—Labor Commissioner Neill is working like a Trojan today to avert a great strike of 25,000 firemen on 49 Western railroads.

Chairman Knapp, of the Interstate Commerce Commission, already apparently has given up his attempt as mediator, and has returned to Washington.

Unless Neill can bring about an agreement between the Brotherhood of Firemen and Engine Men and the railway managers' committee it is probable that his efforts to forestall a strike will cease tonight. Neill held conferences all day yesterday until midnight. He then retired for a brief rest, and resumed the hearing early today.

P. C. Lavey and Company Have Proven Their Right to the Confidence of Every Living Man

Sunday, March 13th, P. C. Lavey left Portland accompanied by six citizens of Oregon, representatives of our purchasers in Albany, Silverton, Portland, Oregon City and Salem. These men were selected to go there by their fellow citizens to learn whether or not this company was rightfully representing the Great Klamath county. We were joined at Klamath Falls by two more citizens of Salem. These men are all back after a week spent in traveling over the great Klamath Basin and the Great Butte valley. In a day or two the testimony of these men will be given, and when you have read it, the firm of P. C. Lavey & Company will have your confidence regardless of what any "knocker" or envious person may say. Call at the office and see the Butte Valley potatoes.
