You want the Normal School ques tion separated from Politics. That is what the initiative bill does for Monimouth.

This is your opportunity to keep it always separate. The State educates her lawyers, farmers, doctors,, pharmacists, etc.,

why not her teachers? The better trained the teacher, thy better school and more intelligent

THE FAIR GROUNDS BOULEVARD.

The street department, the mayor and council, the Board of Trade and every live man in Salem should pull for the boulevard to the State Fair Grounds.

City, county and state should unite for this boulevard. There will be two thousand automobiles at Salem this fall at the State

Fair, and one narrow street, twenty feet wide, is all we have to let people get back and forth.

Let us put up a public subscription and build it. It is a neglect, a crime, a shame, that some way cannot be found to put through a broad, easy boulevardfrom the State House to the State Grounds

A growing state, a growing fair and growing city demand it. It should be a straight, wide street, macadamized at least, and should not be made dangerous with a street car line.

This should be done at once, and there should be no dodging. If we cannot rise to the needs of a Capital City, let us resign and say

we do not know how to run a Capital City. Salem people should know Portland is ready to take the Fair.

If there is no other way to do this, let there be a decently organized movement of the property owners to build the boulevard.

WHO WOULD NOT HAVE THE GUIDANCE OF THE LORD?

By the Lord we understand the Divine Mind that rules the affairs of the universe

We read in Psalms 19 what this Divine Mind is and does for people. "The law of the Lord is perfect, converting the soul. "The testimony of the Lord is sure, making wise the simple

"The statutes of the Lord are right, rejoicing the heart.

'The commandment of the Lord is pure, enlightening the eyes.

"The fear of the Lord is clean, enduring forever.

"The judgments of the Lord are true and righteous altogether." To understand the above read it again and substitute "Divine Mind" "Lord" wherever it occurs and learn wisdom. for

OFFICIALISM ALARMED AND PARASITES IN REBELLION.

The curse of modern government is multiplication of officialism. in

local, state and national affairs. This parasite class want to dictate appointments, nomination of candidates and control of government.

They toil not, neither do they spin, and their abhorrence of working for

a living has become a second nature. This naturally (urns them against any man who stands for the application of business principles in public affairs.

This class of blood-suckers live like the woodcock by suction, from the life-juices of the people.

They hate an honest man or an honest expression in a newspaper like The Capital Journal as a bedbug hate; vermicide.

Because a man, at the end of tweniy years, has a few friends who voluntarily back him for public office they writhe and wriggle like a garter snake with its tall stepped on.

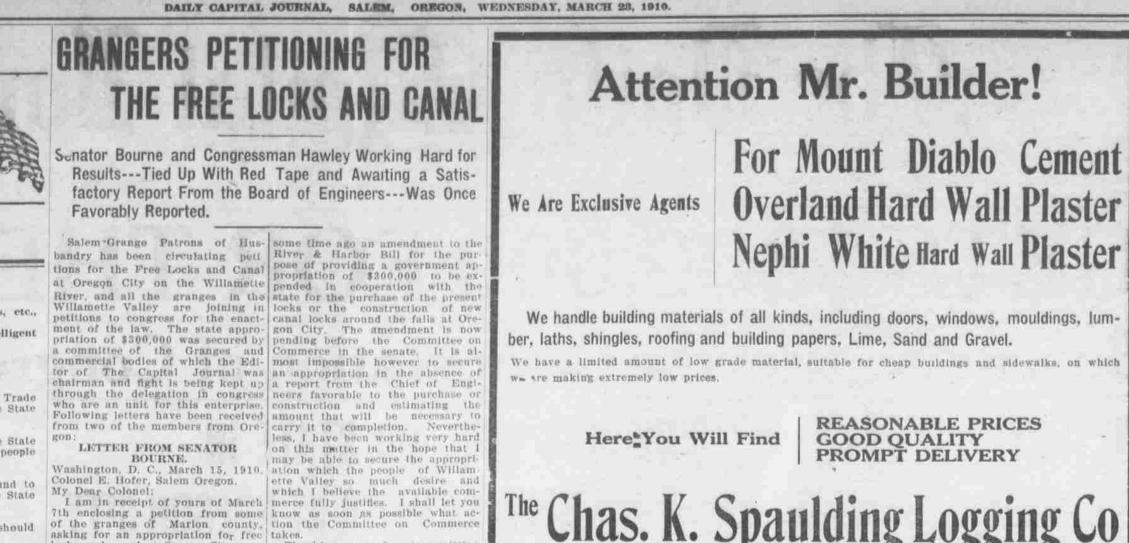

The editor of this paper has been mentioned by newspapers, and is be-ing talked of by friends, for the Republican nomination for governor. This arouses the ire of the official class, and the smaller the parasite

that hangs on the body politic, the loader it squeals.

The thought of an independent private citizen being taken up by the people and put in a pivotal position where he would be apt to beat off of the parasites is appalling.

Third and fourth-class postmaster, are federal officials and not supposed to be managing the politics of the people, yet these pap-suckers holler louder than any.

EASTER GIFTS

Have become popular and the custom is growing. These little gifts need not, of necessity, be large or expensive, as there are so many other gifts to be made auring the year. It is, nevertheless, decidedly graceful and appropriate to remember one's friends on this, one of the most joyous festivals of the year. If flowers are appropriate, why not a handsome vase to put them in? We have some very dainty and beautiful vases in cut glass. They are not expensive and we will be pleased to show them to you.

can't sleep nights out of pure s dicitude lest the Republican party be raped and outraged by such a man as Col. Hofer being made governor.

The plainest farmer, the hardest-working laboring man, has more sense and just as much influence in public affairs as these parasites have-his influence kills theirs-his vote does ft.

But why should not the petty pin-head parasite howl, when he knows he is getting what he does not deserve, and getting it for his alleged devo-tion to principles of which he is as devoid as a two-bit curtain pole.

The parasite class may well howl at their prospects if Col. should be made governor of Oregon. They would get such a cleaning out that the state would lose a large number of its petty aristocracy by removals to other commonwealths.

The ox that treadeth out its master's corn knows its duty no better than they know theirs, and that is to fight Col. Hofer.

FOR A MORE BEAUTIFUL CAPITAL CITY.

This is an old song with The Capital Journal.

It has hollered and prayed for parks and sunken gardens.

The editor in the city council got plans drawn for Willson avenue. The park committee, composed of Stolz and Eldridge endorsed the

plan. Then after spending about \$200 in time an plans it was abandoned.

It was found that some of the park board was not satisfied with the plans

Like Fairmount Park, it was knifed and scuttled by some one who first favored it.

In spite of these influences from the stone age, and the days of sanitary regulations confined to the rall-fence corners, Salem must be made a beautiful city

Salem must have paved streets, better water, artistic bridges, boulevards, parks and more beautiful private residences.

The city has come to the crossing of the ways and must take the right road or be lost in the woods.
