SPRING WEATHER WAKES UP THE BASEBALL FANS

GOSSIP ABOUT THE INDIVIDUAL PLAYERS AND WHAT THEY ARE DOING—WHITE SOX HOLD THE CENTER OF THE BOARD.

San Francisco, March 25.—With the opening of the baseball season less than a week distant, it is not wonder that there is a feverish excitement in the camp of the regulars? March 30 is the date set for the first whirl of the national pastime in a new season, and every dyed-in-the-wool fan is preparing for the day.

D. Long's company will introduce the champions against McCredie's crew next Wednesday. Time was when the local fans went to look upon the Seals as second-raters, but not this time.

"In the game I saw them play the White Sox didn't do much hitting," remarked John I. Taylor this morning in the course of a little talk over his trip. "It might have been a little slump the Sox were in. The Sox fielded fine, and seemed to be fast getting about, but the Los Angeles pitchers both in the game, and in the games they have never been fanned; breaking up games with hits. Long time ago the newspaper boys dubbed them 'mildew wonders' and this name may stick to them another season, though it would take to see Comby's team brace up in their hitting. He is a keen sportsman, and himself I don't know of anybody I would rather see pilot a bunch of winners. Comiskey has a corps of great pitchers—Wish I had them!—and they may keep the club around the top."

The Chicago News scribe who is with the White Sox in Los Angeles sent his paper the following dope: "Chick" Gandil is showing great improvement in his work since the White Sox first division baseball team struck hot weather. The first baseman is rounding to form fast, as he is recovering from his spell of sickness which he suffered while in Francisco, and Manager Duffy is more than pleased with the way the youngster is getting his stride. If he continues to improve as he has this week he will surely be able to mortgage the first base position and round out winter with a bang for the coming season.

With Gandil, Zelder, Blackburn and Partell as the inside quartet, Duffy predicts that he will lay his flag and a world's series within two years, provided the four keep coming as fast as they are now. All of the club's players are all are destined to become stars if they can continue to play as they have started out. Gandil has more to learn about playing first base than the others have to find out about their positions, but he is picking up the fine points of the game so quickly that he is surprising everyone who is watching him. Chick has a crouching position at the plate when he bats that brings him within range of all kinds of balls that can be pitched to him. He is so tall that he can stand square to the pitcher's feet behind his bat and send the ball further than the ordinary batter.

Lovers Of good health should prevent sickness instead of letting themselves get sick and then try to cure it. So long as you keep your liver, bowels and stomach in a healthy and active condition you won't get sick. Ballard's Herbine relieves constipation, inactive liver and all stomach and bowel troubles. Sold by all dealers.

One way of being remembered is to leave behind a lot of unpaid accounts. A falling tny nerve—no larger than the finest sliver thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or flabby stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days, soon become fully convinced of its wonderful merit. Anyway don't drug the organs. Treating the cause of sickness is the only sensible and successful way. Sold by Capital Drug Store.

FACTS ABOUT THE JEWS.

A study of the Jews teaches more lessons than a study of almost any other race of men, says the Inland Empire Herald. They have profoundly affected the history of the world. They fill the highest positions in financial, scientific and literary fields. They have been leaders in religious thought and philosophy, and are today, despite ages of persecution, the most virile of races.

London has always been known as a city of Jews, but London has been outstripped by New York, which has ten Jews to one in London. Aberdeen, Scotland, is lowest in large cities, having just one less than a hundred of Semitic blood. Borlithero is the most Jewish town in the world, having almost 88 per cent of that population. There are four Jewish members of the House of Lords, one hundred in the British navy and four hundred in the army.

The triumph of the Jews in every field of human endeavor which they have ever entered shows that a vital race cannot be killed or crushed by unjust laws and persecution. Nothing is more disgraceful in the history of nations than the persecution of the Jews. In spite of the unjust discriminations that were made against them for ages they are today eminent in all the higher walks of life, whether purely commercial, literary or professional.
