## UNDESIRE BABIES ARE FOUND HOMES

### WOMAN ADMITS GETTING \$50 TO \$100 FOR FINDING HOMES FOR BABIES, WHICH HOMES ARE A SUIT CASE ON A DOORSTEP.

[UNITED PRESS LEASED WIRE.] Des Moines, Ia., April 1.—With the authorities of a score of Iowa cities aroused by the recent discovery on doorsteps of babies, packed snugly in well ventilated suitcases, the police of Des Moines are working today on the theory that the infants had been left by representatives of an organization that is reaping a rich harvest by trafficking in babies.

Following a report by a Des Moines artist, who has an international reputation, that he had learned something of the unusual business, the officers of the Iowa Humane Society today started an independent investigation. This man declared that, while returning to Des Moines from Chicago last week, an apparently well educated and cultured woman, who was a passenger on the train, informed him that she received \$50 to \$100 for every unwelcome baby for which she could find a home. According to his story she admitted that methods of "unusual" sometimes were employed. The humane officers estimated 58 babies have been disposed of by this suitcase-doorstep method within the last few months.

## HIS WIFE BEAT HIM TO DECREE

San Francisco, April 1.—Walter H. DuMoulin, formerly an Episcopal minister, who is now in Seattle, was notified today that his suit for divorce, pending before the Washington courts, is void for the reason that Mrs. DuMoulin was granted a divorce against him in San Francisco yesterday. She obtained the divorce on the grounds of desertion. In her complaint she alleged that DuMoulin, while at the head of a parish, neglected her to spend much of his time in the company of fair parishioners. She also alleged that he used to rise at 5 o'clock in the morning for strolls with young women. It is reported here that DuMoulin is working as an insurance canvasser in Seattle. He comes from a family which has long been prominent in religious work throughout the East.

## SALOON DANCER HAD TO PAY

Kansas City, Mo., April 1.—Maud Allen, the Salome dancer, who left for California today, has many reasons to remember Kansas City, owing to the fact that her maid, Julia Surmount, caused her much inconvenience, by filing a damage suit for \$1,000, and a civil suit for \$225. The sheriff attached the dancer's luggage to satisfy the latter claim, a sum Miss Surmount asserted was due for services. The civil action for \$1,000 damages was brought by the maid who alleged that Miss Allan slapped her face. The dancer denied this, saying that she merely reprimanded the young woman. Later in the day Miss Allan paid the maid \$225 and the damage suit was withdrawn.

## JAMES FISH WILL WALK AROUND WORLD

[UNITED PRESS LEASED WIRE.] Valdez, Alaska, April 1.—James Fish, 70 years of age, sailed for Seattle today on the steamer Bertha, on a journey to Manchester, England, his birthplace, covering the land portion of his trip afoot. He will walk from Seattle down the coast to Santa Cruz, Cal., and there will turn east across the continent to Boston, where he will take the steamer to Liverpool. After visiting in Manchester he will travel on foot across Europe, visit the Philippine islands and return to Alaska by way of the Pacific. No one in Valdez believes Fish will be able to finish his journey, except Fish himself, who looks with scorn upon what he dubs the feeble promenading records of Edward Payson Weston.

## BOYS FROZEN TO DEATH

[UNITED PRESS LEASED WIRE.] Loveland, Colo., April 1.—Two boys were frozen to death in the blizzard that has swept this section for the last three days, according to a report brought from Greeley today. They are Kostanous, 17 years of age and Willie Hayworth, 12. The bodies of the boys were found in the Hayworth ranch house near Greeley last evening. The Hayworth boy's father had left the boys to complete a shanty he was building while he journeyed to Greeley for more material. He was delayed by the blizzard and returned to find both lads lying dead just inside the door of the house.

If bad roads were to always continue, fruitful farms would have to be abandoned and such lands go to waste.

## A THIEF BROKE INTO HIS SAFETY DEPOSIT VAULT

[UNITED PRESS LEASED WIRE.] Los Angeles, Cal., April 1.—John Gues today requested the police to search for the thief who made away with several tin cans, containing more than one thousand dollars, which Gues had buried on his farm near this city. According to the story he told, he was afraid to deposit his money in the local banks, and buried it in a field near his ranch house. Recently one of his employes was plowing in the field, and one of the cans was unearthed, and brought to the house. He is of the opinion that the man returned after nightfall and made a further investigation, finding the other cans, and made way with the coin. He described the cans which contained the money, telling the label on each, but was unable to name the exact sum he had buried. He was certain that it was close to \$1100.

## ADVISES DIVORCEES TO MARRY

### JUDGE LINDSAY OF SEATTLE PASSES ADVICE DOWN FROM THE BENCH THAT MEN AND WOMEN SHOULD BOTH HAVE A HOME.

[UNITED PRESS LEASED WIRE.] Seattle, Wash., April 1.—"It is in the interest of the well being of the nation that divorcees should find new life mates and re-wed, and thereby acquire homes and home interests."

This statement by Judge Lindsay, in the superior court, is interesting Seattle today.

Judge Lindsay gave the advice in refusing the application of Harry W. Carroll, former city comptroller, to strike out the provision of Mrs. Carroll's divorce decree, which stipulated \$100 monthly alimony.

"A higher court has said that where a divorce is granted for incompatibility, it is desirable for the welfare of the country that the parties should find new life mates," said the judge. "I would go even farther and say that the same rule applies to divorces for any cause. The man, especially, should get away from the club. He should have a home of his own. The same rule should apply to the women. The country is better off, and these people are better citizens in the married state than living in the so-called single blessedness; but in acquiring these new ties a man should remember his divorced wife is entitled to first consideration."

## WILL RAISE FREIGHT TO THE COAST

[UNITED PRESS LEASED WIRE.] Chicago, April 1.—It was learned today that rate clerks of the Western trunk lines association, have been checking over the tariffs for the purpose of ascertaining what rates may be advanced. It is reported that the projected raise in the tariffs will be confined to roads west of Chicago. A high official of one of the western roads explained the matter by saying that all of the "commodity rates are too low, and were made from time to time in the old days of cut throat competition."

He concluded by saying that those days are now passed. Among some of the commodities on which the rates may possibly be raised are: brick, cement, tiling, steel and iron and their products, agricultural implements and drain pipes.

## BIG TONNAGE TRIBUTARY TO WILLAMETTE

In response to Senator Bourne's telegraphic request for information concerning the river tonnage affected by the Oregon City locks, President B. W. Johnson, after no little effort, secured information that warranted him in sending the following telegram last night: Hon. Jonathan Bourne, Jr., Washington, D. C.

Exclusive of lumber estimate annual tonnage Benton and Linn counties 75,000 tons, and for Willamette valley to Eugene, 250,000 tons, valued at one million dollars. Federal control Oregon City locks of greatest importance to western Oregon. Sincerely hope your efforts may be successful. CORVALLIS COMMERCIAL CLUB. B. W. Johnson, President.

It is considered this statement is conservative rather than maximum, and it is the consensus of opinion here that the opening of the locks and work on the river is of extreme importance to the entire valley. Corvallis is one of the smaller cities that is vitally interested in the Willamette, and the Commercial club is ready to take any action, join in any effort, to make the river service what it should be. The locks at Oregon City should be free and the river should be properly opened. One-tenth of the money the government is spending on less significant streams would make the Willamette one of the most useful streams west of the Mississippi. The present chance of getting governmental aid should not be permitted to go glimmering simply for the want of active encouragement here at home.—Corvallis Gazette.

"I always feel after I have spent an hour or two in your company," he said, "that I am a better man." "It is very good of you to say so," she replied. "Don't hesitate to come often."—Chicago Record.

## SOCIETY GIRL IS A FINE WALKER

### WOULD HAVE MADE 108 MILES IN 55 HOURS IF HER MALE PACE MAKER HAD NOT GOT COLD FEET AND QUIT.

[UNITED PRESS LEASED WIRE.] Gilroy, Calif., April 1.—After covering a distance of 65 miles in 20 hours Miss Eleanor Sears, the society girl who was walking against time to Del Monte from Burlingame, was compelled to give up the race today. Miss Sears was in excellent condition to continue but her male escort refused to act as pace-maker out of here and her chaperon, Mrs. Frances Carolan refused to allow Miss Sears to proceed without a man to accompany them. Miss Sears, Lowery and the Carolan party in the automobile that carried the pedestrian supplies arrived here at 2:10 this morning, having covered approximately 65 miles in a little more than 20 hours.

Miss Sears was assigned a room at the hotel and call was left for 5 o'clock this morning. At 5:30 Miss Sears was up and ready to proceed toward Del Monte. Lowery however, announced that he had been called to San Francisco on business and could not go on with the party. Miss Sears expressed a willingness to advance alone under the chaperonage of Mrs. Carolan but Mrs. Carolan would not permit the race to continue under those conditions. Lowery boarded the 7:40 train for San Francisco and Miss Sears entered Mrs. Carolan's automobile and was driven northward toward Burlingame. Had she continued she would have lost but three hours and 20 minutes at Gilroy which would have made her time for the 65 miles something near 24 hours and 20 minutes. She had planned to go the distance of 108 miles in 55 hours and in view of her excellent condition could easily have won the race against time.

## SEDITION RAMPANT IN EGYPT

London, April 1.—Declaring that Roosevelt was in great personal danger when he dared to denounce the Nationalists while in Egypt, and asserting that members of secret organizations are preparing by means of terrorists method to sweep the English from the country, the London Express today sounded the loud cry of alarm yet regarding British rule in Egypt.

In an editorial the publication asks that the English officials in Egypt be instructed to inaugurate more rigid measures to repress the nationalists, their publications and the various societies.

"It is no secret that sedition is rampant among the native officers," says the Express. "The country is honeycombed with secret societies whose members are conspiring against the British and planning by terrorists' methods to sweep the English from the country."

"It is well known by government officials that members have been selected from these secret societies, and sent to Italy and Switzerland for the purpose of studying explosives. The result of this can be but one thing—a reign of assassinations."

## JURY SAYS WOMAN WAS MURDERED

San Rafael, Calif., April 1.—All doubt but that murder and not suicide was the fate of the woman, whose skeleton was found several weeks ago on Mount Tamalpais, was removed officially today with the recording of the coroner's verdict. The verdict holds that murder was done by a person or persons unknown to the jury.

The woman's garments and jewelry are in the coroner's office here while photographs of them have been sent to every city in the United States. The victims identification however, has not been established and the question as to who she was and how she met her death probably never will be known.

"I don't think there is a man above the ground that appreciates his wife. I haven't been in this business six years for nothing, George, and all the married men that come in to have their nails trimmed, and that's the best part of my flock, has some complaint about his wife. It's fierce.

# COLONIST RATES TO OREGON AND THE Great Northwest

The management of the Southern Pacific Co. (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

## People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

FARES CAN BE PREPAID at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

REMEMBER THE RATES—From Chicago, \$32; from St. Louis, \$32; from Omaha and Kansas City, \$25. This reduction is proportionate from all other cities.

## THE MANICURE LADY PRATTLES TO HER GEORGE

"It's just terrible the way they're acting over in Philadelphia, ain't it, George?" said the Manicure Lady. "I'm glad folks is more peaceful here."

"They ain't is more peaceful here," said the Head Barber, "but there is more mounted police. Over in Philadelphia the police is kind of peaceful, being state mostly from lack of club swinging."

"It is a terrible thing, just the same, George," said the Manicure Lady. "I wish there could be some way of fixing up all of them union affairs so that capital would kick in with a fair salary without kicking in labor's slats."

"I was reading on the subway coming down this morning, that they have been breaking windows and throwing bricks at the poor cops. That doesn't seem right, George. If I was a man I would find some way out of all that rioting business."

"Brother Wilfred says that all Philadelphia needs is a leader. He says that France had her Robespierre and her Dantre, so why shouldn't Philadelphia have some strong hand to guide the mob? Wilfred wanted to go over himself, because he believes it is his opportunity; but the old great wouldn't lend him no carfare, and the poor boy is moping at home."

"I feel deep for the laboring classes these days, anyhow. It seems to me that with the cost of living up so high that a pork chop looks like a tiara, the folks that hires labor ought to raise wages."

"Only this morning, as I was crossing the street to the here palatial palace of tonsorial art, I seen a poor crippled fellow pushing a cart full of old rags and papers. He was so small that it was all he could do to keep the cart moving, and his hands was blue with cold, but he was whistling as he went along, George. Think of it—he was whistling at his work, like a robin whistling for rain."

"Well, I don't care what he was doing," said the Head Barber. "I got troubles of my own. The wife is so sick that she lies for whole minutes without talking, except when she mentions her Easter hat, and I bet on Nelson to beat Wolgast the other day. I don't care what any pucker man does. They can whistle or they can cry."

"You say the wife lies for whole minutes without talking?" asked the Manicure Lady. "Well, that's a whole lot better than having a wife that can talk only a few minutes without yling."

"I don't think there is a man above the ground that appreciates his wife. I haven't been in this business six years for nothing, George, and all the married men that come in to have their nails trimmed, and that's the best part of my flock, has some complaint about his wife. It's fierce.

"If the wife stays at home, they say they ain't married to a kindred spirit, and if the wife goes out afternoons to matinees an luncheons with her girl friends, they beef about the expense. No use talking, George, the only time a wife is appreciated is when she has gone to Reno to establish a residence."

"I can't make you on that line of talk," said the Head Barber. "I know that I am as good a husband and father as any man could be with out making up the beds, and I sure appreciate all the good things that my wife has done and does every day. Of course, there are times when our little home looks like a training camp with the air full of gloves, but then times is few and far between, like legal holidays."

"She was certainly sore, the wife was, when I dropped the big roll on Nelson, but she's like all the rest of her women. She didn't stop to think

Another Row in Sight.

[UNITED PRESS LEASED WIRE.] Washington, April 1.—The report of the committee on foreign and interstate commerce on the railroad regulation bill is one of the administration measures, and has already been discussed in the senate, where "its friends" have given notice that they will submit a number of amendments.

The bill as reported to the house contained a number of changes in the wording of the measure as it was first submitted. Leaving out convenience, comfort, social and refined influence, which good roads always enhance, and looking at them from only the "almighty dollar" side, they are found to pay handsome dividends each year.
