The Normal School question is fairly before the voters by the Initiative Bill for Monmouth framed by her Alumni, This separates it wholly from politics, and gives the voters a fair

chance to express their choice. Schools are a necessity—we must educate the boys and girls—and we must have teachers; the Normal School is the place to train and prepare J. B. V. BUTLER, Sec. Com. Vote, Yes, for Monmouth,

WHAT IS THE REAL ISSUE OVER GOVERNOR?

Portland politicians are wrangling whether the Republican nominee shall be an assembly candidate or a direct primary candidate.

- While it is all-important that the Direct Primary law shall be upheld and that the ... spublican candidate shall be nominated by the people, but

there is another and deeper issue involved. A Republican candidate might be nominated by the Direct Primary and still be the tongue-tied and manacled and hand-cuffed representative of

predatory officialism. We know there are Republicans who are tender about this matter and do not enjoy naving a Republican newspaper speak out in meeting on this

But what are the people all over the state crying out about but high taxes and multiplication of official jobs? Why is there an hundred million dollar deficit in the national treasury, and increasing cost of public service in the county and state government.

Because the official elements, instead of being the servants of the people dictate their politics, their candidates and override the legislature

dictate their own terms Why are two-thirds the pages of the last legislature taken up with bills raising salaries of state, county and district officials, and creating new offi

That proves the indictment which The Capital Journal makes that the state government and the national government are dictated to not by the people, but by their hired men. The hired man on the People's farm fixes his own salary, creates jobs

for other hired men, and it takes most of the stuff the farm raises to pay the hired help A governor is needed in Oregon who will say by the eternal, this has

got to stop, or I will raise the roof off the state house, and turn the cockroach exterminator on my own party. Does Republicanism mean anything today in Oregon, but a chance to get a larger graft on the taxpayer?

A candidate for governor is wanted who will go out and carry on a campaign against the rodents and cockroaches and bedbugs in the body politic and give the state a good house cleaning.

That job thoroughly done with the people back of such a man, and they would get back of him, would mean more to Oregon than Assembly The time has come to give professional job-creating and job-extension

and salary raising and salary stealinga black eye.

PRINCIPLE WILL WIN

The Capital Journal believes the Direct Primary law, with all that can be said against it, will win.

It will win because there is a fundamental principle back of it that is absolutely sound. The principle that the people have the right to pass on all candidates

is sound as the gospel. Those who attack the law can only say the people are incapable of pass-

ing on the merits of candidates, The people are fit to elect what the bosses put up to them, but they are unfit to select candidates.

The bosses must furnish superior wisdom to the people to enable them to have proper officials to vote for. The few bosses and managers are so unselfish and disinterested that

they must protect the people. it is perfectly natural that a machine made state committeeman likes

The county chairman called the county committee together to name delegates to the state convention. Only a few attended and about seven of the committee named him for delegate to the state convention.

A state convention made up in the same manner by committeemen with pockets full of proxies make national committeemen. With that kind of authority he seeks to overthrow the Direct Primary law, and subvert the expressed will of the people.

It is a game that will not work, because it is not founded on the principle of majority rule. The principle of majority rule is the fundamental principle of the Re-

publican party. Alleged leaders of the Republican party should respect the laws en-

ALBANY MAY BE **WINTER QUARTERS** FOR BIG CIRCUS

Al. A. Ringling, who says that he is the son of Al. Ringling, the second of the five brothers of the worldwide circus fame, returned Thurs-day evening from Portland, where he went earlier in the week for the ostensible purpose of visiting his pater. Young Ringling was acconpanied by George Ruiter. Both of the young men were seen by The Herald today. Mr. Ringling, who is a swarthy-hued, husky-looking young man, stated to The Herald that he had a conference with his father relative to the establishment in this county of a winter and training quarters for the Hagenbeck & Wal-lace shows, recently acquired by the Ringlings, as has been reported here

the past week.
"I expect my father will be here early the coming week," said Ringling in response to an inquiry.
