

ROOSEVELT IS DRIVEN INTO THE LIMELIGHT

POPULARITY FOLLOWS THEM AND SPRINKLE THEM WITH FLOWERS UNTIL THEIR TRIP IS LIKE THE COMING OF GENTLE SPRING HERSELF.

(By a staff correspondent of the United Press.) Genoa, April 8.—Former President Theodore Roosevelt arrived in Genoa at 5 o'clock this morning. He was not expected until tomorrow. He declared he was simply driven here by the hospitality of the people.

In spite of the fact that Roosevelt's plans for a quiet trip along the shores of the Mediterranean were prevented by the demonstrations of the Italians, the colonel said he appreciated their hospitality.

The earlier arrival of the Roosevelt party here will not interfere with the plans of the party to go to Porto Maurizio tomorrow, where the colonel and Mrs. Roosevelt have planned to visit.

It was announced recently that the colonel will meet Gifford Pinchot at the villa, and it is probable that they will discuss every phase of the present political situation at home.

Colonel Roosevelt has said, however, that neither he nor Pinchot will have any statement to make following their meeting.

After the conference with Pinchot at Porto Maurizio, Roosevelt will confer with Senator Root. Although he has so far refused to make any statement regarding politics in material, and has declared that he will not have anything to say after his talk with Pinchot.

The fact that he is to meet both Pinchot and Root and that he has already discussed conditions with Oscar Straess, formerly a member of his cabinet, is considered by the Americans here as a key to his attitude regarding affairs in America.

Any prediction that Roosevelt will break with Taft is considered absurd. It is equally absurd, say those who have been commenting on the matter, to commit Roosevelt at long range to an approval of the tariff of Ballingerism, Aldrichism, Cannonism or any specific acts of the reactionaries.

It was hardly necessary for Roosevelt's political advisors and friends to have traveled to Khartoum or to have come to Genoa to discover that certain tariff schedules which are generally accepted as having broken the party pledges, are not to the colonel's liking.

His opposition to the weakening of the conservation policy and Ballinger's attitude on conservation matters were known before he had left New York. That he favored insurgent plans and approved of the attitude of insurgent leader, Victor Murdoch, was also known before he sailed for Africa.

There is little speculation here as to how Roosevelt will receive the news Pinchot is bringing him.

But he has made it clear that he will not discuss the matter until after he has talked with men competent to represent both sides of the political controversies in his own country.

A Fine Tribute to Teddy Spokane, Wash., April 8.—The Spokane Daily Inland Herald editorially today says: "In a splendid tribute to Theodore Roosevelt, in which he says: 'The time has come for the people of the United States to consider Theodore Roosevelt as they have never considered him before.' Henry Watterson concludes with these words: 'No conquering hero was ever made the subject of such demonstrations, each of the foreign capitals, each of the foreign proletariats vying with the other to pay him homage. Yet he is the winner of no victory on land or sea. What is the meaning of it?'

"There is a militant quality in the character of Theodore Roosevelt, which tells that which is best in him from the public eye, but it is there. His friends know it, the citizens of this country know it, the nations of the world have found it out, and even his enemies have learned to respect it. The character of Theodore Roosevelt is built upon a foundation of unalloyed honesty, upon which his fellow citizens can absolutely rely. He knows far better than his people have yet learned, that the survival of the American nation depends upon the integrity of its institutions and the personal honesty of its citizens. And he could, if he would, give us a new definition of patriotism."

"He could tell us that back of our state and national government, back of the constitution, back of the declaration of independence, back of everything that expresses the American spirit, that which is best in this whole nation, without regard to political associations, class or creed, around the heroic figure of Theodore Roosevelt. And that is the service of right."

Work on the Railroad. Work is progressing most satisfactorily on the Lebanon-Crabtree cut-off since the advent of good weather.

The steel for the big bridge across the river has begun to arrive. A switch is being put in on the John Morris place to accommodate the cars containing the steel for this purpose until it is needed.

The bridge foreman and a force of carpenters will go to Crabtree tomorrow or next day to commence work on the small bridges on that end of the line, and will work this way until all the bridges and culverts are built up to the river, which it is expected will take about six weeks. By that time it is anticipated the river will be low enough to commence work on the big bridge.

The track from the depot to the river is being ballasted and put in order, so that cars can be run to the river, in order to deliver the heavy steel frames as soon as they are needed.—Lebanon Express.

PROPHESIES THE COMING OF A PERFECT CHILD

(From Chicago Journal.) The perfect child will soon appear in Chicago. A child will be born that will need no teaching; that will speak and read and write at birth, and that will hold within him all the accumulated wisdom of his parents.

This prophecy, which has been sounded for years by Dr. Asher Gluck, director of the Twentieth Century Right Living Society, a "model community," at 1355 Millwaukee avenue, is now at the verge of fulfillment, he says.

It is Dr. Gluck's theory of eugenics that the birth of a perfect child is assured by the correct training of the parents. To the end that the human race might be made marvellously better, he started the Milwaukee avenue community. He offers a place in it to "every honest working man or woman who cares to desert the ordinary competitive system of living."

"Our society is waiting for more members," says Dr. Gluck. "We have a four-story building for the use of the members, and we can find work for every sort of applicants."

"Ultimately we shall make the community into the greatest one of the kind that the world has ever seen. Every man and woman is to work eight hours a day, receive his clothing and his board and lodging at the society home, and also receive a share in the annual earnings of the society."

"Our chief object is the breeding of perfect children. I believe that if an ordinary man and woman are put through the right course of training for six months, then marry and continue the training until the birth of their first child, the child will be marvelous."

"The child should be able to read, write and speak immediately. He should have been perfectly educated by parental influence. He would be an orator, philosopher, an artist or a genius of whatever sort his parents directed toward."

"All this would do away with the necessity for so many public schools and the long periods passed in them. It will make our community the finest in the world."

Several persons are already members of the society.

Surprising Facts About the Patent Medicine Business. "The Fourth Estate" has been warning publishers about the risk in allowing credit to new medicine concerns. It is said that there have been only one or two of the thousands of new proprietary medicine houses that have started the past 20 years and only a very few that have met with even moderate success.

There are many old reliable medicine houses that continue to do a good or increasing business from year to year but the new ones are finding it more and more difficult to become established.

COLONIST RATES TO OREGON AND THE Great Northwest

The management of the Southern Pacific Co., (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

People of Oregon. The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

FARES CAN BE PREPAID at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

REMEMBER THE RATES—From Chicago, \$33; from St. Louis, \$32; from Omaha and Kansas City, \$25. This reduction is proportionate from all other cities.
