FISHERMEN ABANDON THE FIGHT

ATTORNEYS FOR FISHERMEN HOIST FLAG OF TRUCE, AND THERE WILL PROBABLY BE NO MORE VIOLATIONS OF FISHING LAWS.

Developments yesterday in the war now being waged by Master Fish Warden McAllister and his deputies against the gillnetters and other fishermen of the Willamette and Clackamas rivers indicate the contending fishermen have virtually acknowledged defeat.

The contraband fish, weighing about 15 tons, seized in Oregon City, were sent to Portland yesterday afternoon and were taken in charge by Mr. McAllister. They will be sold at public auction today, and the proceeds will be sent to the state fish hatcheries, unless some legal step by Attorney John F. Logan, for the fishermen, interferes.

Attorneys in Oregon City yesterday virtually hoisted the white flag for their clients, and announced that no more fishing would be done until after the dates set by the fish commissioners.

Cases Postponed.

In the justice court in Portland yesterday the cases of the two gillnetters, Sam Marovich and Steve Danyovich, were postponed until Friday afternoon at 1 o'clock, owing to an agreement between attorneys for both sides. Fish Warden McAllister is in Portland, and will remain until the fight is settled. I. H. Van Winkle, assistant to the attorney-general, is remaining there to assist in the prosecution.

Attorney John F. Logan said yesterday that it was possible that the money realized from the sale of the fish brought down from Oregon City would be fought for by the fishermen. Steps will be taken today to have this money tied up legally so that the master fish warden cannot send it to the state treasurer for the fish hatcheries.

Answers Are Filed.

Master Fish Warden McAllister and Deputy Rathbun filed in the circuit court yesterday morning their answer to the replevin suit brought by the Portland Fish Company, represented by John F. Logan, against them. They say the plaintiff was found with fish in possession, unlawfully taken from the river, and that the closed season from March 1 to May 1 was declared by the Board of Fish Commissioners by virtue of the power conferred in them by the governor, and that it was regularly announced by the posting of notices and by publication.

They say the fish confiscated was worth only \$2500, instead of \$3500, the amount claimed by the fishermen.

Looking for Paroled Convict.

(UNITED PRESS LEAD WIRE.)
Canon City, Colo., April 27.—The authorities today are hunting a paroled convict accused of having smuggled arms and dynamite to convicts in the prison here, and which were used in an attempted jail break in which two men were killed, and a number of others were injured.

Williams, the convict who was wounded just as he was attempting to touch off the dynamite buried in the prison wall, has confessed, according to Warden Tynan, and has given the name of the man who smuggled the weapons into the prison.

Bradley, one of the men seriously wounded, will recover physicians today declare.

STATON DIRECTORY.

(Continued from page three.)

stock and poultry raising, all with profit. The soil is adapted to the growing of all farm, garden and orchard products common to the Pacific Northwest. This part of the valley is an ideal dairy region. Green grass all the year. Dairy products bring good prices; cattle easy to keep, no heavy feeding and no extra warm barns needed in winter.

Staton and vicinity is a favored section for vegetables. Everything in the vegetable line does well here. Our potatoes are unexcelled and cabbage grows the year around.

Staton is becoming a poultry centre. Poultry is kept here easily and cheaply and money is being made.

Staton is in many respects far ahead of most towns of its population—1,000. It is incorporated, has city hall, fire company, city water works, is well lighted by electric lights—night and day service; has good four room school, four churches, good stores, doctors, lawyers, etc.

Some Interesting Facts.

The woolen mills is a \$100,000 plant owned by local stock holders, employing 40 to 50 hands. The flour mills ship monthly an average of 500,000 pounds of flour and feed; they grind during a year an average of 90,000 bushels of wheat; always pay top prices for grain.

The saw mill ships an average of 20 cars of railroad ties per month, cuts an average of 2,500,000 feet of logs per year; furnish employment to a large force of men.

The Excelsior Factory ships 500,000 lbs. of excelsior per month; uses 3,500 tiers of wood per year. Has a payroll of \$50,000 per day.

The chair factory ships a carload of chairs per month. The cheese factory makes as many different kinds as any factory on the coast.

Fine Fruit Region.

The apples, pears, cherries, peaches, plums, strawberries, raspberries, and many other kinds of fruits cannot be excelled, either as to quality or quantity produced. English and French walnuts also grow here.

The soil is very prolific, climate mild, scenery attractive, water pure, markets first-class, people sociable and law abiding, large rural and city telephone system, rural delivery—in fact everything to meet the wants and requirements of mankind, make life agreeable and brings abundant returns for labor.

Staton is surrounded by splendid farms and also has unimproved land adjacent. There is no government land. Prices range from \$10 for unimproved brush and stump land to \$100 for choice improved fruit land. A good improved farm, for grain, dairying or stock-raising can be bought at from \$30 to \$50 per acre, owing to nearness to market and improvements.

The Sound Sleep of Good Health.

The restorative power of sound sleep can not be over estimated and ailment that prevents it is a menace to health. J. L. Southern, Eau Claire, Wis., says:—"For a long time I have been unable to sleep soundly nights, because of pain across my back and soreness of my kidneys. My appetite was very poor and my general condition was very much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. I eat and enjoy my meals, and my general condition is greatly improved. I can honestly recommend Foley's Kidney Pills as I know they have cured me." J. C. Perry.

Experience teaches us that there are more things we can't do than we can.

TEDDY NOW POLITICAL DICTATOR

APPOINTMENT OF HUGHES TO SUPREME COURT LEAVES ROOSEVELT POLITICAL DICTATOR OF THE STATE OF NEW YORK.

(UNITED PRESS LEAD WIRE.)
Washington, April 27.—That the appointment of Governor Hughes to the supreme bench leaves Theodore Roosevelt political dictator of New York, is the belief of politicians here. Whether the president considered the political significance of the appointment or not, politicians say, the move could not have been better planned to make Roosevelt the head and front of the New York political organization.

It is conceded that whether or not Hughes and Roosevelt would have worked together, Hughes was the only man who could have contested the leadership with Roosevelt. Hughes, though retiring from the governorship, would have been forced to take part in the coming campaign.

It is now believed that he will take no active part in the campaign though he will be asked to approve the candidate for the governorship. Roosevelt, it is declared, is the only man who can dominate politics in New York.

BALFOUR'S SPEECH CAUSES POLITICAL COMMENT

London, April 27.—The speech delivered by Arthur J. Balfour, leader of the opposition in the commons, before the Primrose League yesterday, is causing much comment in political circles today.

In his opening address the former prime minister said:

"We are threatened with a revolution. The more the present situation is examined the more grave do the issues appear to be. Whether the country is fully alive to the magnitude of these issues I do not know, but they are plainly apparent to every man who looks with an impartial eye upon the strange maneuvers and sinister circumstances and joining of forces, not to carry on the business of the country, but to destroy its immortal constitution."

Speaking in regard to the new method of relations between the house of lords and the commons, Balfour said that, while it destroyed the fundamental base of the constitution, it left it with many of its powers augmented.

Meets Death in Fire.

San Diego, Calif., April 27.—One life was lost and several lodgers narrowly escaped death early this morning when the two story American house at Columbia and G streets burned to the ground.

F. Green, a Mexican lodger on the second floor of the building, was cut off from the only stairway by the flames. His body was found by the firemen at daylight. Two other Mexicans on the second floor jumped from the window.

The lodging house was under the management of Marco Bents, the father of Dora Bents, whose sensational kidnapping kept local detectives busy for weeks over a year ago.

Bents, his wife and four children and several lodgers escaped in their night clothing after the building had become a mass of flames. Several firemen had a narrow escape when one side of the building collapsed.

ROYAL Baking Powder renders the food more digestible and wholesome
