Parasols, slightly soiled, values to \$4.00
extra special 50c

Stockton

GOVERNOR BENSON SAVES HIS VOTE

Governor Benson was the first to avail himself of the provisions of a law passed at the last legislature and which provided that an elector though temporarily absent from his state might register for an election to be held within it without returning to it to do so in person.

The law provides that whenever an elector shall be temporarily absent from his state, and shall desire to register at an election without returning to do so in person he may send to the county clerk of the county where he is a voter and obtain certain blanks which may be executed before a notary public in the state where he is temporarily residing. These blanks properly filled out and executed will be sent to the county clerk and by him in return forwarded to the secretary of state

and the elector will be registered. The office of the secretary of state yesterday received the papers from the county clerk of Douglas county certifying that governor Benson who is now at San Francisco had registered as an elector of that county.

In view of the fact that there are a number of people who are temporarily residents of this city, but who are legal voters in southern and certifying that Governor Benson, who they may seek to avail themselves of the benefit of the law by going to Vancouver, Washington, and registering instead of returning home as the railroad fare in most cases would be much cheaper.

Had a Stormy Trip.

[UNITED PRESS LEARNED WIRE.] Plymouth, Eng., June 23.—After a stormy voyage of two weeks, an American squadron of three battleships, headed by the Massachusetts, arrived here today on a midshipmen's cruise. The squadron will remain here several days.

One Cough

A cough, just a little cough. It may not amount to much. Or, it may amount to everything! Some keep coughing until the lung tissues are seriously injured. Others stop their cough with Ayer's Cherry Pectoral. If he says, "Take it," then take it. If he says, "No," then don't. 25c. Ayer's Co., Lowell, Mass.

Special Prices on All Fruit Jars Friday Only

At Craig & Taylor's, corner Court and Commercial streets—the busy store. Call and sample the Crescent Canned Fish, the sardine without a rival. Lady demonstrator will tell you the merits of this fish. Free sample.

VOGT is still selling Shoes

but at his new store, 220 North Commercial street. Good work shoes, also some broken lines—closing out at lowest prices.

SMALL FIRE IN SECOND HAND STORE

A fire broke out in the rear of the Shontz second hand store which adjoins the L. U. Josse furniture store this forenoon, and it looked for a while as though the former was doomed and that the flames would also spread to the latter.

There is no certainty as to the origin of the fire but it is believed that it had its origin from sparks from the chimney of a creamery which adjoins the Shontz building. It is believed that these sparks ignited the roof of the building and in this manner started the fire. The fire department made an immediate response and soon had the conflagration under control, and the damage done was slight.

INDICTMENT WAS NO GOOD

Chicago, June 23.—A demurrer to the indictment charging the National Packing company with being a combination in restraint of trade was sustained today by federal Judge Landis. The indictment was held illegal because it did not contain the averment that the combination existed within three years of the time the charge was made, and further that it was not alleged in the indictment that the combination was engaged in interstate commerce.

The court ordered that a special grand jury be convened to investigate the case further. The grand jury will meet July 14.

District Attorney Sims announced that the indictment would be corrected at once, and would be ready for presentation to the special grand jury.

The indictment which was overruled alleged that the National Packing Company was a holding company for the Armour, Morris, Swift and Schwarzschild & Sulzberger Companies.

UNCLE SAM WILL PAY THE MONEY

POSTAL MONEY ORDER GETS MISLAID BUT IS GOOD AS GOLD AT GOOD OLD UNCLE SAMUEL'S POSTOFFICE.

[UNITED PRESS LEARNED WIRE.] San Francisco, June 23.—The postoffice in San Francisco is ready today to pay a postal money order which was sent from San Jose, California, to Philadelphia 27 years ago and never cashed. The order lay in the garret of a house in Philadelphia until discovered a few days ago, when the family was moving.

On February 20, 1883, Mrs. Louisa Koppell sent the money order to her mother, Mrs. Elise Foedtsch, who lived in Philadelphia. Shortly after Mrs. Foedtsch died and the letter containing the order was never answered. The matter was forgotten.

ALASKA BOAT HAS AN ACCIDENT

[UNITED PRESS LEARNED WIRE.] Prince Rupert, B. C. June 23.—The steamer Humboldt, bound from Seattle to Skagway, is at anchor in Lowe inlet, with a broken forward thrust bearing. The tug Lorne has been sent north from Victoria to tow the Humboldt back to Seattle, and is due here Sunday.

Some of the passengers and perishable freight of the Humboldt were brought there by the steamer Vadsø. The steamship City of Seattle will bring the remainder of the Humboldt's Skagway passengers.

The Humboldt will miss her next sailing scheduled from Seattle, but will be repaired at an early date.

BUCKET FULL OF JEWELS IN STABLE

[UNITED PRESS LEARNED WIRE.] Washington, June 23.—Following the finding of \$11,000 worth of jewels in a pail suspended from a rafter of an old barn, Scott Winbish, a stableman, is under arrest today, charged with the theft of valuables. Winbish was formerly in the employ of Mrs. Rebecca B. Hornaby, of Washington, and the jewels disappeared when he left the Hornaby home four months ago. The stableman was in the room where the jewels were kept led the detectives to suspect Winbish. Following his arrest he confessed, and led the detectives to the barn, where the jewels were hidden.

CLOSING WIRELESS STATIONS

Newport, Ore., June 23.—Operator Julien, of the Newport station of the United Wireless Company, received orders last night from the head office in New York to close the local office and go to Seattle.

Already the stations at Salem and Roseburg have been closed, and a number of others, including Eugene, are to be discontinued.

The local station has received messages coming 2000 miles. Most of the messages handled came from ships at sea.

A New Prince of Wales.

London, June 23.—The former Duke of Cornwall is today Prince of Wales and Earl of Chester. The title was conferred by King George last night, the eve of the duke's 16th birthday anniversary. The ceremony was impressive and marked by royal formality.

This Fight is Off.

San Francisco, June 23.—Louis Blot, promoter of the Langford-Kaufman fight, which was not held Saturday because of city and state interference, is today refunding the money to ticket purchasers. Blot announced that he would not attempt to hold the fight in the face of Governor Gillett's opposition. He said last night that the fight had been postponed for one week.

X-RAYS AND SMILES.

Roosevelt, denying that his daughter, Ethel, is engaged to be married to a newspaper man, says: "Some scoundrel started the rumor," and that it is "a scandalous infamy"—still marrying a newspaper man is not necessarily a crime—sometimes it is excusable and even justifiable.

A joint debate sometimes means a packed house and a change of subject.

Jim Jeffries may have to employ Jack Johnson to write the last chapter of "My Story of My Life."

The dispatches this morning announce that near the Jeffries training quarters is "a lake containing small mouth bass." This is really news, for it is the only "small mouth" thing that has so far been found around the pug's camps.

Nat Goodwin's principal trouble is to get off with the old love before he gets on with the new. In order to facilitate things he should commence an action for divorce the day he gets married, so as to be prepared for emergencies.

SUSPECTED OF BEING DYNAMITER

[UNITED PRESS LEARNED WIRE.] Helena, Mont., June 23.—Tom Lobonni, a foreign miner, is held here today suspected of being the man who dynamited the home of Leslie Williams, foreman of the Elk Horn mine, while Williams and his wife slept. He strenuously denies knowledge of the crime.

The house was dynamited Tuesday night, but owing to the dynamiter's lack of knowledge, only a portion of the nine-room structure was damaged.

It has been learned that 25 pounds of the explosive was placed under the house and let go.

Williams and his wife were not injured, although Mrs. Williams was badly frightened when the sound of the explosion and the severe rattle awakened them.

Labonni was discharged recently by Williams.

CHARLTON ARRESTED.

(Continued from page 1.)

On the day that he killed her, according to Charlton's confession, she had cursed him. He struck her with a mallet and after putting her body in a trunk, threw it into Lake Como. On the following day he went to Genoa to elude the authorities. Charlton's statement follows: "My name is Porter Charlton. I live at 204 West 55th street, New York. I am 21 years of age and my home is Omaha, Nebraska. I am a bank clerk by profession.

"I lived happily with my wife, who was the best woman in the world to me, but she had an ungovernable temper and so we had quarrels frequently. She used vile language, the meaning of which I am sure she didn't know.

"The day I killed her she cursed me and I told her that if she did it again I would fix her. Again she swore at me. I was in a daze and struck her with a mallet with which I had been fixing the couch on which we had been lying. I thought she was dead.

"I stuffed the body into a trunk and threw the mallet in after her. That night, after midnight, I dragged the trunk to the pier near Moltrasio and threw it into the lake. On the following day I left Como for Genoa and boarded the Princess Irene four days later."

Charlton signed the statement and then underneath he wrote: "I understand that N. C. Isolatoff has been charged with the crime. He is absolutely guiltless. I have no defense to make and wish to make none."

While Charlton was calmly making his confession Captain Scott listened in silence. Almost abruptly Charlton made a serious charge against his wife. Scott rose, drew his revolver and pointed it at the prisoner.

Charlton sprang from his chair and fell to his knees begging the captain not to shoot. Detective Weintal and other policemen grasped with the infuriated officer and wrested the weapon from his hand.

Tried to Shoot Charlton.

Hoboken, N. J., June 23.—Captain Scott, brother of Mary Scott Castle Charlton, who was murdered in Italy, today attempted to shoot Porter Charlton, suspected of Mrs. Charlton's murder. Scott, with a loaded revolver, lay in wait for Charlton, when the suspected man was being taken to police headquarters.

GERMANY WILD OVER AIRSHIPS

Dusseldorf, Germany, June 23.—The "sky Lusitania" Deutschland is preparing for its trip back to Freidrichshafen with a score of passengers. Bookings for trips in the big airship have been made for weeks in advance. The Deutschland will sail tomorrow, and expects to reach the floating pier on Lake Constance nine hours after the start.

Count Zeppelin is the nation's hero today. The successful trip of the "air liner" has aroused enthusiasm from end to end of the nation. That airship travel is much smoother than an ocean voyage and a wonderfully exhilarating pastime is the opinion today of the passengers who made the initial trip yesterday.

"It seemed as though we were anchored in mid-air," declared one of the passengers, "and that the world was passing beneath us. We sat in magnificent apartments and viewed the wonderful panorama passing beneath. The vibrations of the motor could be felt slightly but aside from that the ship might have been motionless. The exhaust of the engines was the only sound. We maintained an average height of 300 feet above the earth and some times traveled as fast as 44 miles an hour. The trip was much smoother than an ocean voyage."

NINETY THREE GRADUATES

University of Oregon, Eugene, June 21.—Ninety-three young men and women of the senior class formally severed their four years' connection with the University of Oregon as students today, and ended their part in the ceremonies of commencement, when they received their graduating diplomas from President Campbell. One of the most impressive and interesting features of the week was presented as the capped and adorned members of the class filed before the president for the last time.

With today's exercises came the final windup of commencement, and tonight students and visitors are returning to their homes in all parts of the state. The celebration juts concluded has been by far the largest and most successful in the history of the university.

COMPLAIN OF FREIGHT RATES

Alleging that the increased freight rate upon flour from Portland to San Jose is discriminatory, and that it has the effect of protecting California millers, and preventing northern millers from shipping that commodity into California, the Jobs Milling Company, of Portland, has made a complaint against the Southern Pacific Railroad Company to the Oregon Railroad Commission.

The company says that the freight rate originally charged for flour and mixed feed from Portland to San Jose was \$4 per 100. It now alleges that, while the same rate prevails as to wheat, bran and shorts, that a new rate of \$5.60 is charged per ton for flour. The effect of this, it is alleged, is to protect California millers, by preventing the shipment of flour from Oregon and Washington to that state, because of the high rate it is also alleged that the rate given on wheat enables the California millers to obtain it at a figure so low that it makes it impossible for the northern miller, in view of the freight rates placed on the flour, to compete with the California millers.

Overcharge Refunded. The Railroad Commission is in receipt of a letter from J. K. Sears, of McCoy, Oregon, advising it that the overcharge for a car of land plaster had been refunded, and thanking the commission for its services.

Deposed Alaskan Officers.

Seattle, Wash., June 23.—Daniel Sutherland and John J. Boyce, former United States marshal and district attorney at Juneau, are in Seattle today on their return from Washington. They sail tonight on the steamer Jefferson for Alaska. Sutherland and Boyce are the officials removed by President Taft, it is alleged, at the instigation of the Guggenheim interests.

"We are not attempting to be reinstated, but merely to lay before the senators conditions as they exist in Alaska," said Sutherland.

It often happens that when you are broke affluent friends prove to be distant friends no matter what their proximity.

Anderson Tinning & Furnace Company

558 Trade Street
Phone 886

We are sole
Manufacturers
of the

Warm Air Furnace

This is one of Salem's best industries and it is to your interest to help us grow. We are now working over time to fill orders.

The best is the cheapest always. One of our Furnaces is doing the work in Corvallis that two Furnaces of other makes could not do.

The Warm Air Furnace is the most durable, easiest to regulate, economical, and complete on the market today.

If you are in need of the best obtainable in a drying stove, either for fruit or hops, get a heavy grade boiler plate steel stove, one that will not crack. Cast iron will crack. Call and investigate for yourself.
