Well Known Monologist III.

UNITED PRESS LEASED WIRE.] Atlantic City, N. J., July 28.—

Considerable anxiety is felt today by the friends of Marshall P. Wilder, popular platform lecturer and monologist, who is seriously ill at his home here with acute indigestion and nervous breakdown, due to overwork. Wilder has been ill since Friday. He has been under the constant care of a physician but no improvement has been marked in his case.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all dealers.

CAPITOL BOULEVARD.	
Last Monday the council awarded the contracts for the improvement of Capitol street and this is the beginning of Capitol Boulevard. Take this tip from us: Before long property on this thoroughfare will be the most sought after of any residence property in the city. Here is another tip: Buy on that street now. There are a few who do not care to undertake the assessment which is levied to pay for the improvement of the street in question and are anxious to sell. On the other hand there are those who know that every dollar spent in street improvements usually make the property worth two dollars more and are looking for good investments. If you are doing this see us. We have some good buys on Capitol Boulevard.

Why Have an Overheated Kitchen in Summer?

When the sultry days come and the coal range makes the kitchen almost unbearable and cooking a dreaded task, put out the range fire and try the newest method of cooking in hot weather—use a

New Perfection Oil Cook-stove

What a contrast! The kitchen no longer is stifling hot, the work is now done with comfort, and the housewife is not worn out with the heat.

She saves her strength, keeps her health and is better able to enjoy the summer.

The New Perfection does everything that any other stove can do—all the family cooking, baking, washing and ironing. No smoke, no dust, no odor. Heat is applied directly and not wasted. A turn, and the flame is out.

The New Perfection stove has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for the coffee pot or saucepans, and nicked towel racks.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
