PARSONS 84 MOTHER 107 YEARS OLD

SANTIAM RANCHER WITH FINE WAR RECORD VISITS HIS MOTHER HERE--THEIR COMBINED AGE IS 191 YEARS.

N. M. Parsons, of Foster, aged 84 years, made a visit today to his mother in this city, who is 107 years of age, and will return to his ranch on the Santiam in a few days.

Mr. Parsons has had an interesting career, and almost remarkable war record. He saw service in the Illinois Fifth Infantry during the civil war, participating in the battles of Wilson Creek, Fort Donaldson, Missionary Ridge, Shiloh, Lookout Mountain, Vicksburg and Atlanta, and was with Sherman on his march to the sea. At Atlanta he saw General McPherson shot and assisted in carrying his remains from the battlefield. During this battle he also had three horses shot from under him. He carries now three bullets in his body and a sabre scar across the breast.

After the war he saw service in the two houses of the Illinois legislature. While advanced in age he is still enjoying splendid health.

REGISTER IF YOU WANT TO CAST A VOTE

While there is in existence no law requiring the city to open up registration books for the special election to be held on August 15th, with relation to the purchase of the Salem Water company's plant, and because of it the city will open no registration books, it is for all that necessary that those voting at the election should be registered, and it will be incumbent upon them should they desire to participate in it to either register with the county clerk or swear their vote in through Blank A.

That is in substance the opinion which will be rendered this afternoon or tomorrow by City Attorney Corby to City Clerk Moore in pursuance to a request by the council. Mr. Corby holds that the only instances in which the city is required to open registration books are when nominating elections are held and that it must do so then to comply with the direct primary law. At any other election, however, there is no law authorizing it to do so, and for their guidance the judges must look to the registration books of the county. These books are now open and as it is necessary for a voter to be registered to vote at the election it is urged that everyone interested should register before election day. Should they fail to register they can swear their vote in through Blank A, but this may occasion considerable trouble, and the better way will be to register.

Oakland, Cal., Aug. 10.—Dr. T. B. Goodman, a dentist, today identified a portion of jawbone found on the Starbuck ranch near Cazadero as having been that of Thomas A. Kendall. Goodman declared that the dental work corresponded with work he had done for Kendall a year and a half ago.

The local authorities have communicated with the Sonoma county officials and it is probable that an inquest on the charred bones of the Kendall family will be held at once.

Broke Swimming Records. London, Aug. 10.—Frank E. Beaupreire of Victoria, Australia, has broken the world's swimming records for 200 and 300 meters; also for 300 yards. The respective figures established are 2:30, 3:50 1-5 and 3:30.

YELLOWSTONE PARK INJURED BY BIG FIRES

Butte, Mont., Aug. 10.—Forest fires are raging today in Yellowstone National Park. A force of 200 regulars are fighting the flames and backfiring at lake Yellowstone, where the blaze is worst. The heaviest timber in the park is burning.

It is feared that thousands of head of big and little game have been burned. Deer, elk and moose are flying in panic to the open places in the park and to the Montana and Wyoming hills. A big timber belt in the St. Mary's mountains caught fire today but vigorous backfiring proved successful and the flames died out.

The fires are not close to the line of tourist travel but much beautiful scenery is being marred.

FIRE CAUSED BY EXPLOSION OF CELLULOID STAY

Laundry Plant Burned in Portland Today with Loss of \$75,000--100 Girls in Jeopardy--200 Out of Employment.

Portland, Ore., Aug. 10.—The explosion of a celluloid stay in a woman's shirt waist caused destruction by fire of the United States Laundry company's plant, Grand avenue and East Yamhill street, today and entailed a property loss of approximately \$75,000, 200 girls in jeopardy and 200 persons temporarily out of employment.

employment. The lives of nearly 100 girls were in jeopardy for several minutes and many of them would have been lost but for heroism displayed by some of the firemen and a few passers-by who rushed in and dragged the women into the air.

Mrs. Caroline Schmidt, an elderly woman employed in the ironing room on the top floor of the three-story structure, was the last person to come out and she was dazed when assisted to the sidewalk. She had abandoned hope and was resigned to her fate when one of the men who had rushed in from the street grabbed her by the arms and dragged her from the stairs that surrounded the elevator shaft through which the flames quickly spread over the entire structure.

In less than an hour the interior had been devoured, but it is believed that the brick walls were little damaged and that they can be utilized in rebuilding.

GOLD USED IN SALEM'S SIDEWALKS

Salem, Aug. 8.—Ed. Journal: I see you speak of golden pavements in an Oregon town. Perhaps it would interest your many readers to learn that I am laying pavements and floors all the time and that about a month ago one of my helpers panned out a shovelful of black sand that was delivered to me to lay a cement floor in a house on Commercial street, and found many particles of fine gold in the sand when washed down to about a teaspoonful. There is gold in nearly all the sand used for cement in Salem, and gold has been panned out of the gravel taken from the basements of buildings. These are facts and can be verified at any time.

STEAMERS COLLIDE IN ATLANTIC

NORWEGIAN STEAMER COMES INTO PORT WITH BIG HOLE IN HER HULL FROM BEING RAMMED BY COLLIER MARCELLUS.

New York, Aug. 10.—With a gaping hole in her bow, the Norwegian steamer Rosario Digiorgio arrived today from Port Antonio and reported a collision with the United States collier Marcellus at 2 a. m. Tuesday. According to the officers of the steamer the collier sustained little damage.

The two vessels collided in a dense fog, the collier tearing into the hull of the steamer. After striking the vessels sheared off, scraping each other's sides without further injury. The hole in the Rosario is above the water line and she was able to proceed unaided.

The Marcellus is attached to the Atlantic fleet. She has not been reported as yet by the navy department.

LANGFORD TO MEET KAUFMAN

BIG FIGHT SCHEDULED FOR TONIGHT AT PHILADELPHIA—LANGFORD IS FAVORITE DESPITE KAUFMAN'S ADVANTAGE OF WEIGHT.

[UNITED PRESS LEASED WIRE.] Philadelphia, Pa., Aug. 10.—Clouds threatening rain today may necessitate the postponement until next Tuesday night of the Kaufman-Langford fight scheduled to take place in the baseball park tonight.

The Boston tar baby is still the favorite, although those who are watching the development of the fighters say that Kaufman has improved wonderfully. Langford's backers figure that their man will win, despite the fact that Kaufman, who weighs at least 40 pounds more, is seconded by Billy Delaney. The fighters are to receive 75 per cent of the gross receipts. It is understood that this sum is to be divided equally between them. A \$25,000 gate is expected.

Langford's seconds will be Joe Woodman, his manager; George Byers and "Silvers" Davis. Kaufman will be looked after by Billy Delaney, Johnny Loftus and Bob Deady.

A late dispatch says the fight was postponed on account of rain until tomorrow night.

Captured Big Reward, Too.

[UNITED PRESS LEASED WIRE.] Los Angeles, Calif., Aug. 10.—A man arrested at Dillon Wednesday where it is alleged he was trying to rob a bank, has been identified by the authorities there as "Bill" Haney, formerly of Los Angeles, who is wanted in Canada. He will be taken to Canada if the identification proves correct, for endeavoring to rob a train and killing a Canadian frontiersman with whom he fought at the time of the hold-up.

The Canadian authorities, who have been searching for him for more than a year, have been notified, and are ready, it is said, to pay \$6,500 reward for Haney's arrest.

She Will Not Wed Duke. New York, Aug. 10.—"You can say for me that there is absolutely no foundation for the frequent reports of a forthcoming marriage of my daughter to the Duke Abruzzi," declared Senator Stephen B. Elkins today. "I consider these reports amusing. They are nothing more than foolish rumors. I am glad to deny them emphatically."

Charged With Murder. Newark, Ohio, Aug. 10.—The grand jury today returned 39 indictments, five charging murder in the first degree, in connection with the lynching of Detective Carl Etherington several weeks ago.

Etherington was shot to death following the killing of a cafe keeper here during a raid conducted at the instance of the Anti-Saloon league.

Went Through Him Clean.

[UNITED PRESS LEASED WIRE.] Los Angeles, Aug. 10.—Edward J. Mills, a horse dealer of Oakland, was robbed of \$2,180 and three valuable diamonds a few minutes after his arrival in Los Angeles from San Francisco today. Leaving his train at the station Mills started for a downtown hotel. Upon reaching his room he discovered his wallet, containing two \$1,000 bills and a number of smaller denomination and the diamonds, was gone. There is no clue to the thief.

Festivals in Japan. Every month in the year appears to provide some special attraction for the Japanese. No sooner have they passed through the celebration of the New Year than they are in the midst of celebrating the blooming of the plum tree, which even in the cold days of February puts forth sweet blossoms to hasten the spring. In March comes the girls' festival which is devoted to ideals of estheticism and manners, such as women should cultivate. April sees the parks and gardens, and almost every street and avenue, a cloud of flinty-misted cherry blossoms, and the whole population making holiday to see the indescribable exuberance of beauty. May is the month of the iris and the wisteria, July and August the lily, and November the chrysanthemum.—London Standard.
