IT'S WORTH YOUR WHILE TO WEIGH CAREFULLY IF YOU ARE A MAN OF HEAVY BUILD

OR HAVE SENSITIVE FEET

the merits of the Nettleton Tarsic Model

Particular pains have been taken to insure comfort in every line of its construction. We will demonstrate its value to you in a practical, scientific way, without placing you under obligations to buy unless you wish to do so.

It is our aim to serve your footwear needs with the best obtainable values, at a reasonable pricing policy; and thus to win your confidence and entire patronage.

Ladies' Suits and Coats, First Showing for Fall 1910-11. Priced from \$13.50 to \$50.

The styles for this season are particularly attractive besides the materials are the much wanted home spins, tweeds and mixtures including the usual variety of staple weaves. The jackets are semi seven eights and tight fitting with the usual plain and banded Pleated Skirts. The strike situation in New York has been relieved and we will receive new models daily.

ALBANY RATE NOT EXCESSIVE

RATE PORTLAND TO ALBANY MADE TO MEET BOAT COMPETITION YEARS AGO—THOUGH TOO LOW HAS NEVER BEEN RAISED.

On the ground that the commodity rate of 28 cents per hundred pounds upon shipments of fruits and vegetables in less than railroad lots, between Portland and Albany, Oregon, was established many years ago and was made to meet water competition upon the Willamette river, which was a very strong feature at that time but has since ceased to figure in the light of competition, and that such rate, although it has never been reduced, is too low and unreasonable, the Southern Pacific Company has replied to the complaint of H. S. Gile & Co., of this city, to the Railroad Commission, against the rate of 27 cents per hundred upon similar shipments between Salem and Albany, and asks that the petition for a lower rate from Salem in proportion to the Portland-Albany rate be dismissed.

H. S. Gile & Company set forth in their complaint that the rate of 27 cents between Salem and Albany is out of proportion and unjust when compared to the rate of 28 cents between Portland and Albany, from the standpoint of distance haul and service, and ask that a reduction in the Salem-Albany rate be established. Counsel W. W. Cotton, for the Southern Pacific, recites that the matter was referred to General Freight Agent R. B. Miller, who replied that "the rate of 28 cents, Portland to Albany, as established as a result of water competition which, at the time it was put into effect, was a very strong factor. Such rate is considered unreasonably low and has never been advanced to what should be a reasonable rate for this distance and the service." The distance from Salem to Albany is but 25 miles as against 75 miles between Portland and Albany upon which the 28-cent rate applies.

While They Last—Only 10 gross left—Schram Jars. Pints, 65c; quarts, 75c; 1/2-gallons, \$1.05. 9-1-3t

New Company Admitted—The Fidelity & Deposit company, of Maryland, having complied with all of the provisions of the Oregon insurance law and furnished the required qualifications of the same, has been admitted to transact business in the state of Oregon and a license was today granted the company by Insurance Commissioner Koser to write accident, health, liability, plate glass and burglary and theft insurance.

Up from Sickbed—Curtis Hauser, of Dallas, a member of the clerical force of the Chas. K. Spaulding Logging company of this city, who has been ill of typhoid fever the past eight weeks, has recovered sufficiently to be out and around and will resume his duties with the office force within a few days.

Ackerman to Speak—State School Superintendent J. H. Ackerman has accepted an invitation to address the Clarke and Skamania county teachers' institute, to be held at Vancouver, Washington, next week, and will depart for Vancouver Monday. Mr. Ackerman will speak upon two subjects: "Institutional Responsibility," and "Our Public Schools: A Vision of the Future."

These Are Days of Recognition—We are headquarters for fraternal lodge pins, buttons and charms, latest designs, something new and unique and something that would be a delight to wear. Come in while our stock is complete. We take pleasure in showing our goods. We do watch repairing and cleaning. A. T. Powers, Watchmaker and Jeweler, 247 North Commercial street. 9-1-1f

Give Them a Wide Berth—Mr. and Mrs. J. S. Wyant, Dr. Roy D. Byrd and Roscoe Shelton returned to Salem last night from a three-weeks' hunting and fishing trip in the Cascade mountains in the vicinity of Pamella lake. All of the party are enthusiastic over the success of their expedition from every point of view, and particularly as to their prowess as disciples of Isaac Walton, and the stories that they relate of the size and quality of speckled beauties which they landed are of such a character as to lead to the conclusion that they have gathered experience sufficient to furnish them material for an abundance of thrilling "fish tales" for the ensuing year. "A word to the wise," etc.

man registered independent cannot vote at the primaries. At the general election however, you can vote at you please, but the big battle will be fought at the primaries, so get out and register. Do not delay, as the last day for registration before the primaries is September 13. Try a Journal Want ad.

TERRIFIC EXPLOSION IN SEATTLE

HEAVY CHARGE OF NITRO-GLYCERINE EXPLODED IN LYON BUILDING—SEVERAL PERSONS WERE INJURED AND HUNDREDS OF WINDOWS SHATTERED.

Seattle, Wash., Sept. 1.—The police are making a rigid investigation into the mystery that envelops the attempt to blow up the Lyon office building at Third avenue and James street with dynamite at midnight. As a result of the terrific explosion that spread alarm throughout the city, hundreds of windows in stores and business offices were shattered and the fire department of the entire city was called out on a general alarm. Constable Shannon was severely injured by the shock of the explosion and several citizens passing were thrown to the pavement and injured.

Detectives saw a man running through an alley near the Lyons building just after the explosion and they pursued him. The man was overtaken and is locked up as a suspect.

Thousands gathered at the scene of the explosion and it was first believed that an attempt to wreck the Canadian Bank of Commerce by dynamiting had been made. A hurried investigation showed that the explosion was caused by nitro-glycerine thrown into the bottom of the elevator shaft of the Lyons building which is now in process of construction. The building was to be a six-story structure with a 120-foot frontage on Third avenue. It was to cost \$250,000.

The police declare that the explosion was caused by disgruntled workmen.

HER FOOT CUT OFF BY THE CARS

MISS MABEL KRAUSE, OF AURORA MEETS WITH TERRIBLE ACCIDENT—IS STRUCK BY TRAIN AND HER RIGHT FOOT CUT OFF AT THE ANKLE

With her wedding day set for one month hence, and with none but the brightest prospects for a happy and useful life to look forward to, Miss Mabel Krause, a beautiful, young girl 19 years of age, was run down by the Southern Pacific local passenger, at Aurora last evening and suffered the misfortune of having her right foot completely severed from the limb. At last reports no fears were entertained that any serious complication will arise, but, as it is, she will be obliged to go through the balance of her life a cripple.

Miss Krause, a cousin to Miss Arleta Krause, a school teacher of this city, was employed as an operator at the Aurora telephone station. She was in the act of crossing the Southern Pacific tracks when her attention was attracted by the cries of a girl friend who sought to warn her of her approaching danger, and she turned to step off the track when the train overtook her. The pilot, or cowcatcher, of the engine, caught her foot knocking her down, and the front trucks and drive wheels of the locomotive passed over her ankle before the train could be stopped.

L. A. Standish superintendent of Home Telephone company, was a passenger for Salem on the train and was the first to reach and pick up the unfortunate girl, and when he raised her prostrate form from the ground, the foot which was completely severed from the limb, remained upon the inside of the rail.

SALEM'S POPULATION.

(Continued from Page 1.)

zons and is frequently grinned at by the pessimist and obstructionist. In 1905 the receipts reached a total of \$31,189.07, which advanced the postoffice from the third to the second class, and the receipts have been growing at the rate of over \$5,000 per year ever since, up to the present year when they bid fair to overreach the \$12,000 rate of increase over the receipts for the previous year, 1909. In 1907 the receipts aggregated a total of \$37,894.99, and the following year the earnings amounted to \$42,453.05, advancing the office to the rank of first grade of the first class and the salary of the postmaster to \$3,000 per year. Last year the receipts totalled \$48,820.22 advancing the office to the second grade of the

Heating Stoves

Heater weather is about here. Prepare for it by getting one of those

Moore's Firekeepers

The best wood heating Stoves on the market. They're made of heavy polished steel, with good grey cast iron bottom, top, door and lining, the nickel work is the plain smooth kind and their fire keeping and fuel saving qualities are unexcelled. The MOORES FIREKEEPER is a stove that is made to give many years of service and with ordinary care will do it. We set up, free of charge, all stoves purchased here.

Andirons

Just arrived, a large assortment of iron and brass andirons which we are selling at exceptionally low prices. Your fireplace is not complete without a pair of andirons and why not have a pair which will be an ornament to the room. It will pay you to look these over. See display in our west window.

Buren & Hamilton

COMPLETE HOUSE FURNISHERS

first class and adding another \$100 to the salary of the postmaster, and this year, with the gross receipts of the entire year of 1909 already overshadowed by nearly \$1,000, all previous records will be utterly outclassed and plunged into the shadow of obscurity.

Record Without Precedent.
The receipts for the last quarter of the year 1907, for the first time since the postoffice was established in Salem passed the \$10,000 mark, when it totalled \$12,238.67 and, with the exception of the quarter ending June 30, 1909, when the receipts dropped down to \$9,258.51, there never has been since that time a quarter in which the postal receipts did not exceed the \$10,000 figure. The previous record for receipts of any one quarter in the history of the office was that of the quarter ending March 31, 1909, when they reached a grand total of \$15,913.75, which was doubtless due to the heavy postal business resulting from the session of the legislature, and the nearest approach to this record was the receipts for the quarter ending June 30, 1910, when they amounted to \$11,860.14. The receipts for the first quarter of the present year were \$11,860.60.

The heavy postage in prospect for the present month, due to the distribution of over 145,000 initiative measure and corrupt practices pamphlets incident to the approaching primary and general elections, which alone will amount to over \$5,000 in the aggregate, in addition to the normal amount of postal business, and that which usually comes with the holiday season will swell the total receipts for the year 1910 considerably above the \$60,000 point which will raise the office to the third grade of the first class, second only to the postoffice in Portland, and far and away above that of any other city in the state and many in the Northwest. These figures are taken from the records compiled and kept on file by Postmaster Farrar.
