LORIMER'S FRIENDS ARE SORE

ROOSEVELT REFUSING TO SIT AT TABLE WITH LORIMER WHO WAS A MEMBER OF THE CLUB INVITING HIM, CAUSES MUCH INDIGNATION.

[UNITED PRESS LEASED WIRE.]

Chicago, Sept. 9.—Colonel Roosevelt's refusal to sit at table with Senator William Lorimer, of Illinois, at the Hamilton Club's banquet last evening, and the club's subsequent withdrawal of Lorimer's invitation, threatens today to have far-reaching effects.

Roosevelt's stand is commended by every morning paper, except the Inter-Ocean. The newspapers predict almost unanimously that the incident will result in widening the already wide breach existing in the Republican ranks in Illinois.

The Hamilton Club immediately took sides when President Patten wired Lorimer last evening withdrawing the invitation. Lorimer is a prominent member of the organization, and has a large following. His friends are highly indignant. It appears certain that a deluge of resignations will follow.

HOW THEY STAND IN AUTO CONTEST

Miss Nettie J. Miller	495
Miss Mabel Morrison	470
Miss Leita Hayes	333
Miss Gertrude Walling	255

Popular Miss Nettie J. Miller is leading the list of four remaining candidates in the contest for the honors of the Auto Queen, and, although there have been two young ladies withdrawn from the list, the interest is being manifested in more ways than one. One young lady who is making quite a brilliant run stated recently that if she obtained the lead she would keep it until the contest closed next Thursday evening.

Although the voting has not been very brisk, and interest has lagged at times, it is believed that several of the candidates have been withholding their ballots until towards the close of the contest, when several surprises will be sprung.

The interest in the automobile races is increasing every day of the week and it is expected that one of the best programs of autmobile events ever offered in this locality will be presented to the people of Salem one week from this coming Sunday afternoon. The entries, although slow in starting, are coming in rapidly at the present time, and the latest to be received was word from "Lucky" Jack Peterson, of Portland, stating that he expects to enter the 50-mile free-for-all, and that he intends to clean up everything else on the field.

The purses which have been offered for the different events will be paid to the winner of the race immediately after the event is closed, and the driver goes to the judges' stand, where he will receive his money. Another matter which is not clear to a good many people is in regard to the money asked to accompany an entry blank. These checks are to made payable to Charles H. Savage of the Cottage Hotel who will refund the money to all those depositing who are ready to start in the race, fair enough isn't it?

THE FARCE ENDS AND THE CURTAIN IS RUNG DOWN

CONSERVATION CONGRESS ADJOURNS WITH ALL ITS BLUSHING HONORS IN ECLIPSE—WAS A CUT AND DRIED AFFAIR BOSSED BY THE EAST.

St. Paul, Minn., Sept. 9.—Delegates to the National Conservation congress left St. Paul today and by noon most of those had been here to attend the meeting had departed. The work of the convention was completed so far ahead of scheduled time that it was able to adjourn late last night after adopting a platform and the election of officers.

The fight over the platform which was threatened when rival factions tried to link the names of Roosevelt and Taft as the great friends of conservation was avoided when the name of the former president was stricken out of the document in committee.

Henry Wallace, of Des Moines, was elected president; Thomas R. Shipp, of Indianapolis, secretary, and D. A. Latshaw, of Kansas City, treasurer.

A movement to name Gifford Pinchot president was headed off by Pinchot, who refused to allow his name to go before the convention.

FERRY BOAT FOUNDERED MANY DROWN

Ludington, Mich., Sept. 9.—Between 15 and 17 members of the crew of the Pere Marquette ferry No. 18 lost their lives when the vessel foundered off Sheboygan, Wisconsin, today according to a wireless message late this afternoon from the Pere Marquette ferry No. 17.

Ferry 17 responded to the sinking vessel's wireless cal for help. The first word from No. 17 after she reached the scene of the disaster was to the effect that 53 members of the crew and three passengers had been rescued. Communication was then lost.

Ludington, Mich., Sept. 9.—A wireless message received here today reports that the Pere Marquette ferry No. 18 has foundered in Lake Michigan. The ferry's crew, numbering 75 men, is reported to have been rescued. The message places the loss at $500,000.

Ludington, Mich., Sept. 9.—Seven officers of the Pere Marquette ferry No. 18 were drowned when the vessel foundered off Sheboygan, Wis., early today, according to a wireless message received here.

Ferry No. 17, of the same line, has reported that she rescued 52 members of the No. 18's crew and three passengers.

According to the report of the officers of ferry No. 17, her sister ship was in 500 feet of water when she sank. Her wireless operator sent out distress signals, which were picked up at Sheboygan. Aid was sent at once.

Ferry No. 18 was commanded by Captain Peter Kilty, a veteran lake navigator. Ross Needham was chief engineer and Stephen Schzpanek purser. The vessel was recently pronounced seaworthy by government inspectors.

ATTACKED ON STREETS OF SEATTLE

Tacoma, Wash., Sept. 9.—Captain J. D. Blom, president of the Blom Cod Fish company, was found at the Yakima avenue entrance to Wright park early today with his throat cut and nearly dead from loss of blood. He was taken to the Fannie Paddock hospital, where physicians hold little hope for his recovery.

Blom returned from Behring Sea two days ago on the schooner Fortuna, with a big cargo of fish. He had disposed of the catch at a good figure and expected to leave for San Francisco the last of the week to sell the Fortuna and purchase a larger vessel.

Friends of Blom believe an attempt was made to murder him with the belief that he carried the proceeds of the sale of the cargo of cod fish. His pocket book, containing valuable papers, and his watch are missing.

No instrument with which the injury could have been inflicted was found near the place and the police are without any connection that might lead to the apprehension of the assailants of Blom.

SIENNASTINE BETTER THAN POULTICES

A SALEM COMPOUND THAT SUPERCEDES AND IS SUPERIOR TO POULTICES IN TREATING INFLAMATIONS AND SWELLINGS.

The Oregon Manufacturing Co., of Salem, manufacturers of the Siennastine Mineral Compound, a reducer of all inflammations, will incorporate and file papers within a few days. The product they manufacture surpasses any compound produced in the United States, from a mineral substance, for the reduction of swelling and allaying pain.

Siennastine is designed to supersede poultices; it abstracts moisture from the tissues, reduces swelling and capillary congestion, allays pain, checks the growth of germs, and has an alterative effect upon swollen and inflamed glands. It is superior in all forms of inflammation, internal and external, notably in pneumonia, pleurisy, strangles, laryngitis, pharyngitis, tendonitis, scratches, cracked heels, grease, erythema, dermatitis, and is especially superior in swollen and inflamed wounds.

This company is backed by Salem capital; they ask no bonus or special privileges. All they ask is that citizens give their product a fair trial, and if they find it to be as represented, which they will, then to patronize a home industry. Siennastine is handled by all drug stores in Salem. The company will publish testimonials in this paper from time to time, showing the merits of the product they manufacture.

Salem, Ore., July 23, 1910.

This is to certify that I have used the Siennastine Paste on several cases of inflammation, and have found it very effectual in reducing the same. A colt three days old, all the legs swelled one after another and at one time had only one leg sound enough to bear any weight; used the paste on him, and he is now quite well; runs and capers around, with no swelling. I would recommend it for acute swelling and acute inflammation. D. D. KEELER, V. S.

CONNECT LINE.

(Continued from Page 1.)

there is scarcely a city on the coast where so little criticism, of street car service and methods has been made.

The company now has an opportunity to still further add to its reputation for being "white" and awake to the city's interests along with its own. The building of a spur to the Southern Pacific from the line on Oak is an absolute necessity. The entire commounity wants it, asks it from the street car company. The present arrangement is bad at any time of the year, but with the coming of Winter and the rainy season, it will be unbearable. It might not be particularly profitable as a business proposition, and yet the returns should and no doubt would more than meet all the expenses, and would at least, keep the company "even."

The company's managers can do a nice thing for the city by providing this service, and doing it of its own volition now, instead of doig it after a bitter lot of criticism and acrimonious fault-finding. It will have to be done sometime. Why not now, smilingly and with the public commendation, instead of later begrudgingly, and with no credit for doing it, "because it had to."
