RUDYARD KIPLING'S REMARKABLE POEM, "IF."

The American Magazine for October publishes following poem by the greatest of living English poets, and it is in many ways and by all odds the greatest poem that has appeared in a decade:

If you can keep your head when all about you
Are losing theirs and blaming it on you;
If you can trust yourself when all men doubt you,
But make allowance for their doubting too;
If you can wait and not be tired by waiting,
Or being lied about don't deal in lies,
Or being hated don't give way to hating,
And yet don't look too good, nor talk too wise;

If you can dream and not make dreams your master;
If you can think—and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two impostors just the same,
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools;

If you can make one heap of all your winnings
And risk it on one turn of pitch-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them: "Hold on!"

If you can talk with crowds and keep your virtue,
Or walk with Kings—nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much;
If you can fill the unforbearing minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And—which is more—you'll be a Man, my son!

PORTLAND'S BIGGEST STORE.

The Trustee Company of the Henry Building, Portland, is trying to sell bonds on the new Olds, Wortman & King building at Portland.

The officers of the Trustee Company are W. D. Wood, John P. Semmer, C. E. Wightman and C. R. Aldrich.

The Trustee Company owns some of the finest business blocks at Portland, Seattle, Spokane and Portland.

The Olds, Wortman & King building cost \$900,000, and that firm has resources of over a million besides.

Their new department store on Tenth and Morrison has a frontage of 200 feet on four streets in the heart of the city.

The individual members of the firm are W. P. Olds, H. C. Wortman, C. W. King, and U. G. Shipley.

Del. Dinsmoor, formerly with J. L. Stockton & Co., of this city is advertising manager for this biggest store in Portland.

FINE VOTE IN MULTNOMAH COUNTY.

The editor of this newspaper got a fine vote in Multnomah county where not a single newspaper was for him, and where the worst possible misrepresentations were published against him.

He rolled up alone and single-handed 2938 votes and some precincts to hear from, and in ten precincts he had more votes than any other candidate, and tied Mr. Bowerman in one other precinct.

In the precincts where Mr. Hofer spoke he ran ahead, and had he been allowed to speak at any of the ward meetings held by the local candidates he would have carried the city.

In all the storm of attacks in the newspapers not another candidate or newspaper or political leader said one word in his defense and the wonder is that he got any votes at all.

The support he received was from the laborers and poorer class of people who felt that he was their friend and that he spoke from sincere convictions for the eight-hour law and better wages.

To counteract this a lying telegram was sent from Salem Friday night and it was headed up that a Labor Union at Salem had denounced Col. Hofer—a libellous statement that it was too late to answer.

It is a high compliment to a man that the organs of the interests had to exert themselves as they did to defeat a people's candidate.

TWO GREAT COMPANIES INCORPORATE IN OREGON

The Great Northern Railroad With Capital of \$210,000,000 and Oregon & Western Colonization Co., Capital \$12,000,000.

Six hundred and ninety-five foreign corporations have filed articles of incorporation with the secretary of state to engage in business in Oregon to date, and 15,202 domestic corporations have been entered of record, all of which, with the exception of eleemosynary, religious and educational organization, pay taxes into the state treasury annually.

The biggest corporation to have been entered of record in the state to date, aside from the Southern Pacific Company, which increased its capital stock to \$375,928,000 a few years ago, and the Northern Pacific Company, with a capital stock of \$250,000,000, that has filed articles of incorporation to transact business in the state was that of the Great Northern Railway Company, which filed its articles of incorporation yesterday afternoon. The capital stock of this company is given at \$210,000,000; its headquarters in Oregon are located in Portland, and the purposes of incorporating in this state are "to build and improve railroads in the state."

and to engage in the business of a common carrier of freight and passengers, state, foreign and interstate within the state."

The Oregon & Western Colonization Company, of South Dakota, stands fourth in point of capitalization or corporations on record in the state, articles of incorporation of which were filed yesterday also, the capital stock of which is given at \$12,000,000, and the purpose of the organization is to engage in a general real estate, mining and development business, with headquarters in Oregon at Portland and Ontario, and the directors are John E. Burchard, Watson P. Davidson, F. E. Kenasten, Orlando A. Robertson, Joseph C. Wood, Frederick E. Skinner and Theodore E. Schultze, all of St. Paul, Minnesota. The incorporators of record and holders of at least one share of capital stock in the company, at \$100 per share, are: Arthur B. Fairbank, Irwin A. Churchill, of Huron; Joseph C. Wood, Edward T. Young and George D. Eygabroad, of St. Paul, Minnesota.

Saved From the Grave.

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs. M. L. Dix, of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do any work, but Dr. Klag's New Discovery has made me feel like a new person. Its best medicine made for the throat and lungs." Obsolete coughs, stubborn colds, hay fever, la grippe, asthma, croup, bronchitis and hemorrhages, hoarseness and whooping cough, yield quickly to this wonderful medicine. Try it. 50c and \$1.00. Trial bottles free. Guaranteed by J. C. Perry.

Precautions Against Forest Fires.

The regulations of the New York State Forest, Fish and Game Commission applying to fires might well be strictly adhered to by campers and sportsmen in any part of the country. They are, in part, as follows:

"The State expends large sums in preserving the forests as a pleasure resort, and asks those seeking its pleasures to contribute their share by guarding carefully against fire.

"Fires will be permitted for the purpose of cooking, warmth and insect smudges on state land; standing timber shall not be used to build fires. Fires must not be started on the leaves; all combustible material must be cleared away five feet from fire. A sand beach or dry creek bed is the safest fire-place. Fires must be thoroughly quenched, not covered up or stamped out. The ground beneath should be saturated with water. Fires must not be started against stumps, trees or near piles of logs or brush.

"Fires other than those mentioned above are absolutely prohibited. Caution must be exercised against allowing fires to originate from use of firearms, cigars and pipes."

During mid-summer it is hard enough to keep down forest fires arising from other causes than neglect and foolhardiness. During a dry summer many fires start from natural causes. A person who has not been in the woods during a bad season of fires can not realize how serious a conflagration can grow out of a spark in an hour's time, if conditions are right. And it does not always happen, as it sometimes does in Maine, that there are plenty of fire

* X-RAYS AND SMILES. *

The trouble with Roosevelt is he is overstocked with advice, having a stock the country cannot absorb.

Taft has given a touch of color to officialism in Washington by appointing a negro register of the treasury. His name Napier, will appear on national bank notes issued after this date, but this will not make them tainted money.

The insurgents of New York named the candidates but to mollify the regulars, adopted a regular standpat platform—Teddy's preaching and his practice do not always dovetail.

Roosevelt is much like a sign board at a road crossing. It points the way but does not travel it.

The Colonel is not satisfied with the New York platform but says the party couldn't get the votes on any other—and there you are.

Any mother could gain distinction by asserting that her children inherited their good traits from the father's side of the house, but mighty few women care much for fame.

THE WHITE

Efficiency

Without a record for efficiency the WHITE could not occupy the position it does among American made Automobiles. That it is efficient under any circumstance that can be imposed upon it, is admitted by the best accepted automobile authorities, and by owners themselves.

Entire, absolute engine efficiency is the thing aimed at, and achieved by the WHITE manufacturers — engine efficiency is, of course, car efficiency, and car efficiency means car satisfaction.

Place a WHITE on the side of a mountain, on a sandy desert or in the chuck holes of a virgin trail, and you may feel that her "good old engine" is with you all of the time.

Style

There is no more beautiful car than the WHITE. From muzzle to tail lamp she is the rolling personification of beauty—and life. She is alive with her own powerful energy. Harmony of line and harmony of color and above it all, the simplified product of mature automobile brains. The WHITE is a thoroughbred.

Up-Keep

Try her out mile for mile with any other American car you may choose to select. The result will be a wonderful record in favor of the WHITE. We have done it—we know. Nothing short of the most exhaustive tests along these lines have satisfied the manufacturers of the WHITE. That's how we know that WHITE up-keep costs can be figured at the most extreme minimum.
