NOT THE CORPORATION CANDIDATE.

There is an attempt to make out that the Republican nominee is the corporation candidate for governor.

Those who were in the Assembly will recall that the higher ups were backing Andrew C. Smith for governor.

If any man was close to the big corporations it was the late Hon. Harvey W. Scott, of the Oregonian.

It is a well known fact that he came out in a letter and asked that the Hon. Andrew C. Smith be nominated.

Mr. Bowerman was a shrewd politician and was able to get that nomination against the pull of the corporations.

He stands today for the new order of things in Oregon, where all the power of the state will be brought to bear for development.

Jay Bowerman's record in the senate showed him to be just to the people and the corporations, but he is with the people first.

When the senate was a tie for the railroad amendment to the Constitution, he broke the tie against all the railroad lobby.

Without reflecting on any other candidate for governor the fact remains that Mr. Bowerman is not the corporation candidate.

THE CITY OF ROSEBURG GOES WET AGAIN.

At the city election the other day Roseburg, a dry city, in a dry county, goes wet again.

This may not interest faddists who imagine they can extend theories over actual conditions.

At the last election a city ticket was put up by the dries, and was promptly voted down.

Now again the dry candidates, led by Hon. B. L. Eddy, are snowed under, and Roseburg takes its place in the wet column again.

The city has been selling liquors in open defiance of law and good order and public morals, but that does not concern the faddist.

He enjoys himself calling every man who stands for Home Rule in cities a whiskeyite and a co-partner with vice and debauchery.

That is his game with deluded people who are willing to take denunciation of citizens who differ with the faddist for wisdom.

But the fact remains that it is the duty of honorable, decent citizens to stand for good order and business administration.

LET US HAVE PUBLIC OWNERSHIP.

There should be no interference with the program undertaken by the business men of this city to get public ownership of water.

All technicalities should be made correct, but the main principle of public ownership for the people must not be lost sight of.

The people have decreed by their votes that the water works shall be owned by the city and shall be improved in service.

The people should be taken into the fullest confidence in the whole proceedings to establish public ownership of water.

Public ownership should extend to giving the people water at actual cost or it will be public ownership of their pocket-books.

The present water plant can be made very serviceable and with a new main to the crib will supply good water until a filter plant can be established.

This will require no great outlay, and at the proper time the question of a supply of mountain water can be taken up.

In the meantime for the good name and future of the city, there should be an united and harmonious effort to get possession of the water plant, as the people have voted for that.

TO KILL THE DANDRUFF GERM

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed.—P. C. Perry, Special Agent.

The Call of the Blood.

For purification, finds voice in plums, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life Pills make rich red blood; give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at J. C. Perry's.

Dynamited Treadwell Flume.

(UNITED PRESS LEASED WIRE.)

Juneau, Oct. 6.—A score of men are under arrest today charged with dynamiting the Treadwell ditch and flume. The damage is heavy. Marshal Faulkner wired to the department for authority to name two deputy marshals to go to the basin in an endeavor to prevent trouble. The attorney-general granted the request.

KING ALFONSO OF SPAIN HAS INCURABLE DISEASE

Afflicted With "Caries," His Bones Are Slowly Rotting Away—His Death Would Be Signal for Revolution.

Madrid, Oct. 5.—(By Courier to Hendaye, France, Oct. 6.)—King Alfonso is fatally ill, according to a statement of a high medical authority here today, with a disease described as "caries." A fatal termination is feared in the near future.

The complaint involves the decay of the bones. Mr. Mouru, the celebrated Bordeaux specialist, to whom Alfonso has made frequent visits of late, has been able only to slightly retard the progress of the disease. One of the king's ears has been affected for a long time, and the bones of one cheek and the same side of the nose are now gradually disintegrating.

The king, as is well known in official circles in Spain and at other European courts, has been a sufferer from birth from a hereditary blood disorder. As an infant it was only by the most unremitting attention that he was kept alive.

This care and the vigorous vigilance that he followed as he grew older seemed to work a considerable improvement, and by the time he attained his majority he was externally sound. It was not long, however, before it became evident that his appearance of health was mortally superficial, and that at bottom his constitution was completely undermined.

His majesty suffers mentally from the same complaint which affects him physically. In public he managed to maintain an appearance of health,

but those familiar with his private life say he is constantly afflicted with melancholy. Even his efforts at cheerfulness are often marked by eccentricities suggestive not quite of insanity, but of an unstable mental balance.

This condition is largely responsible for the care the king's advisers take to guard him from full knowledge of the politically disturbed conditions in Spain. During the uprising at Barcelona last year he spent his time at San Sebastian. When Premier Canalejas was at the height of his troubles with the Vatican, the young monarch was visiting in England. Plans already are under discussion for him to go abroad again if, as seems certain, the state and church quarrel becomes much more acute. The alarming state of Alfonso's health complicates in the most dangerous manner possible the already critical situation in Spain. If any possibility exists of maintaining the present dynasty it can only be done through the utmost efforts of an able and popular ruler. As he is today, Alfonso lacks the ability for such an effort.

Alfonso's early death would involve another long regency, such as preceded the reaching of Alfonso's own majority. Even the Conservatives admit that a fresh regency could not last many months. Queen Victoria, it is contended, has neither the age, experience nor mental equipment, and, as a thorough English woman, who has never been at all in sympathy with the Spanish character, she is heartily disliked from one end of the country to the other. Her mother-in-law, Queen Maria Christiana, is considered even more unsuitable. And there is no one else in Spain who is even thought of for the post.

A GREAT SONGSTRESS, SWEET WOMAN AND AN AMERICAN

ELLEN BACH YAW IS ALL OF THESE AND BESIDES HAS WONDERFUL CHARM AND REMARKABLE BEAUTY.

The mantle of Sembraich has fallen upon Ellen Beach Yaw.

This is the assertion of not one, but a number of eminent critics.

And when one comes to think it over—why not?

Sembraich was the queen of coloratura because she had mastered the finest details of her art. Yaw has done the same.

Sembraich retained her supremacy all her life because her voice was so perfectly placed that critics compared it to a silver bell. Yaw's voice is placed just like that—"a flute in a human throat," says one picturesque writer.

Sembraich retired last year, full of honors. For almost a quarter of a century she had been playing Lucias and Julietas and Glildas, and she played them just as well at the last

as she did at the beginning—better, in fact, for the slight aging of her voice was more than made up by her wonderful gain in artistry.

Yaw has certain advantages which Sembraich never possessed.

In the first place, she is of a physical disposition which will, doubtless, always retain the semblance of extreme youth. Her slenderness is that of a girl of eighteen. She has the superb throat and mighty chest of a great prima-donna, but through right living and exercise she has not laid on a single ounce of embonpoint.

Her voice in itself is a much greater organ, for it surpasses the world in range, and is of the delicate, flute-like timbre which the old Italian masters prized most in a woman's voice, and which the wonderful tones of Jenny Lind are said to have reflected to a marvellous degree.

And Yaw has still another advantage. She is young—and an American!

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co. Toledo, O

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all dealers.

Two Methods—One Result—

The "Green Goods" man pretends to sell his victim what he wants, but gives him something else instead. The "Substitutor" uses his persuasive powers to induce his victim to accept what he does not call for. Each uses a different method, but the result is the same. No reputable merchant will offer you a substitute when you call for a standard advertised article. Patronize home advertisers.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all dealers.

VETCH SEED

I have the largest stock of re-cleaned vetch seed in Salem, and can quote you prices cheaper than you can buy from grower.

BEAUTIFUL FAIRMOUNT PARK THE PORTLAND HEIGHTS OF SALEM

We are Authorized to Make for October Special Prices on this Beautiful Addition

It has no parallel for site and magnificent view combined. To the west, the Polk County Hills, to the north, the river. To the northeast the city, and to the east the valley and the mountains. No other place has a view so varied and comprehensive. It is destined to be the residence district of the same class of people that live in Portland Heights: people of means, that will build artistic, fine homes, and who appreciate to an unusual degree the beauties of nature. Five quarter blocks have already been selected and reserved for that purpose, and plans are being drawn for a fine house and the land is being landscaped preparatory to parking, etc., by a prominent banker of the city—two of the five. We anticipate a great advancement in improving this addition the coming year, now that the barriers of lack of city water supply and sewerage has practically been removed. We expect also advance in prices in the spring, and, if you are interested, we say to you with assurance that it will pay to buy now. The terms and prices to parties who can in good faith work with us in the building up of the addition in this way, will be accommodating. Let us show you the property, or come in and learn more of the particulars.
