### REPUBLICANS ORGANIZE FOR THE CAMPAIGN

Marion county candidates met with County Chairman Jones last night at the Republican headquarters of the County Secretary, Fred R. Waters. There was a good attendance, and took steps to get the campaign under way. There is great difficulty in adjusting the ways and means to get campaign funds and not violate the Corrupt Practices act. E. M. LaFore has been chosen city chairman and the question of registration for the coming city election is being considered. City Attorney Corby holds that there must be a new registration but some of the city officials are of the opinion that the general registration will be followed. If there must be a new registration, there will be almost no votes cast. Voters are tired of the endless registration system that makes them go to the trouble of registering two or three times in a year.

Chairman W. L. Jones and Secretary Fred R. Waters, of the Republican county central committee, opened up Republican headquarters in room No. 1 in the Jps. Myers' block on State street this morning and are making preparations for the opening of the campaign in this county. It was expected that a meeting of the central committee would be held in this city last evening to outline plans for the conduct of the campaign in this county, but it was called off on the ground that it would not be wise for the county committee to make any definite arrangements until the congressional committee organizes, when the campaign will be made to harmonize with the plans of the congressional committee.

The city Republican central committee held a meeting last evening and organized by electing E. M. LaFore, of the second ward, chairman, and Fred R. Waters secretary and this committee will work in conjunction with the county and congressional committees in outlining the campaign for the general election. Chairman Jones and Secretary Waters, of the county committee, were in consultation this morning and will probably call a meeting of the county committee for Tuesday or Wednesday evening of next week.

### THE GAME WITH MULTNOMAH IS POSTPONED

The game scheduled with the Multnomah Athletic club for Saturday has been called off by the manager of the club. The reason for the postponement of the game is probably through lack of practice and the poor shape the club is in at this time. Coach Sweetland did not definitely know of this till last night at 10 p. m.

This morning he immediately opened negotiations with O. A. C., who have a game with the Catholic Young Men's club, of Portland, next Saturday and obtained the consent of the manager of the O. A. C. team to postpone his game with the C. Y. M. C. until the following Saturday and take on Williamette for this coming Saturday, October 15. Coach Sweetland then tried to speak with the manager of the C. Y. M. C. to obtain his consent to the proposition which O. A. C. had so kindly consented to. Dr. Sweetland was unable to make connections this morning with the manager but he is confident that there will be a game with O. A. C. here next Saturday. He will probably be able to land his man this afternoon.

### WEST SALEMITES MARRIED AT SALEM

Married, at Salem, October 12, 1910, John Ferguson, Jr., to Miss Mary Moll, both of West Salem, Rev. P. S. Knight officiating.

The bride and groom left this morning for Newport, where the family cottage of Uncle John Ferguson awaits them. They will remain at the beach for a short honeymoon, when they will return to Salem and take up their permanent residence at the magnificent farm home of Mr. Ferguson, in West Salem.

John Ferguson, Jr., is a chip off the old block, a thorough-going farmer, and has inherited the acute insight of his Scotch parents. He is a thrifty young man, and will be one of the solid citizens of this community for many years to come. The bride is the handsome and accomplished daughter of O. E. Moll, also of West Salem. She is thoroughly competent to make a most accomplished helpmeet, and both young people are to be congratulated upon their fitting union. Both families, in fact, are to be congratulated, as is also the community upon holding these splendid young people in its midst.

### PERCY H. CUPPER MAY BECOME TOTALLY BLIND

Percy H. Cupper, assistant state engineer, is suffering an affliction of the optic nerve of his right eye, and it is feared that he will become totally blind in consequence. He lost the sight of his left eye several years ago, and if his physicians, prominent specialists in the treatment of eye and ear diseases, of Portland, are not successful in the treatment of the affliction of the right eye he will be rendered totally blind, and unfitted for duty in his chosen profession for the balance of his life. Mr. Cupper is regarded as one of the most competent civil engineers in the state, and his services for the state, in the line of reclamation and topographical surveying, have been very proficient. He recently returned from a surveying trip to Eastern Oregon, and it is believed that the trouble he is now suffering with the right eye was brought on by a strain in lifting upon an automobile which had become disabled, and in which he was a passenger.

### TWO DEMOCRATS FAILED TO FILE ACCEPTANCE

Having failed to qualify by sending in their acceptance of the nomination in time to get their names on the ballot, two Democratic candidates, S. S. Spencer, for state engineer, and D. V. S. Reed, for water superintendent of the first division, will not appear upon the official ballot for the general election, as prepared by the secretary of state yesterday, and handed to the state printer last evening. All of the candidates for the other state offices for both parties filed their acceptances, and it is expected that samples of the ballots will be given the secretary of state by the state printer today.

Nasal Catarrh, an inflammation of the delicate membrane lining the air-passages, is not cured by any mixture taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Never mind how long you have suffered nor how often you have been disappointed, we know Ely's Cream Balm is the remedy you should use. All druggists, 50c. Mailed by Ely Bros., 56 Warren street, New York.

### PRESIDENT MAPS OUT A SHORT FAST SESSION

Beverly, Mass., Oct. 12.—President Taft is mapping out for congress a strenuous short session when it convenes this Autumn, and his recommendations will include several measures for which the insurgent Republicans are fighting, according to authentic information obtained today by the United Press.

The president, in his message, will demand the enactment of many new statutes embodying the recommendations contained in the Republican platform adopted in many states. Foremost will come the president's expression of a desire to secure a more economical administration and the recommendation that congress cooperate with the government departments in bringing this about.

Taft will recommend the passage of a law permitting the development of water power on public lands by private capital, with the government retaining the power of using a restraining order where necessary.

He will urge the amendment of the Sherman anti-trust law so as to permit railroads to enter into limited agreements regarding rates, subject to the approval of the interstate commerce commission. A federal charter for corporations also will be urged.

The president will continue his announced policy of favoring the establishment of a strong merchant marine, and in this connection will advert to the progress made in the construction of the Panama canal. The patronage bungalow of the "pork barrel" will be partially plugged with a recommendation to senators and congressmen that they surrender a part of their appointment privileges in order that more government employes may be placed under the conditions of the civil service.

Other probable suggestions are for a new form of government in Alaska, the strengthening of the anti-trust laws, currency reforms and changes in the law governing the issuance of injunctions without notice.

### PRIZES WORTH \$4000 TO BE GIVEN BY HORSE SHOW

[UNITED PRESS LEASES WIRE.] Portland, Or., Oct. 12.—Silver cups and other awards to a value exceeding \$4000 will be distributed to the blue ribbon winners at the fourth annual horse show, which will open tomorrow afternoon for three days in the Oriental building on the Lewis and Clark fair grounds. Seventy cups have been contributed by business and professional men of Portland who are interested in fine horses, and several more will be provided by the Portland Hunt Club, under whose direction the show is being given.

In addition to the cups, several substantial cash prizes are offered by the hunt club.

A large number of horses from all parts of the Pacific Northwest have been entered.

\* X-RAYS AND SMILES. \*  
\*\*\*\*\*

Mrs. Earl White, of Philadelphia, paid \$500 duty on a terrier pup recently. Is this tariff levied for protecting the American dog industry?

does science steal away our inalienable rights.

What society women think of their sisters in lower walks is shown in a Los Angeles dispatch where social leaders object to woman suffrage because every society vote would be nullified by the votes of "50 women who are neither educated nor decent." If snobbery and wealth can go further than this, how?

### FUNERAL TOOK PLACE THIS AFTERNOON

The funeral of Mrs. Thos. Minner took place from the Clough undertaking parlors at 2 o'clock today. The services were conducted by Rev. Richard N. Avison, the new pastor of the First M. E. church. Mrs. Minner came to Salem about 15 years ago, and has made a home for her children at 1504 North Broadway. She was the mother of ten children, of whom eight survive, two sons living in Salem. Her bachelor son, John Minner, a hard-working man, has kept the home for mother and the children.

She was a lifelong member of the Methodist church, a charter member of the first Temperance Union and of the W. C. T. U., later when it was organized. She was a splendid christian woman and all who knew her loved her and she enjoyed the highest respect of the community. The funeral was held from the Clough Undertaking parlors.

### JUST ONE DOSE OF DIAPEPSIN ENDS STOMACH MISERY

You can eat anything your stomach craves without fear of indigestion or Dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapepsin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach and intestines) or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from Indigestion or any stomach disorder, you can get relief within five minutes.

### The Call of the Blood.

for purification, finds voice in pimples, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life Pills make rich red blood; give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at J. C. Perry's.

### THE LATEST STYLES IN NEW YORK

BREAK HATS THAT GO WITH NEW COSTUMES—AN ARTISTIC MELANGE OF MATERIALS—VELVETS, SATINS AND CREPE-FINISHED MATERIALS—NEW MOTOR COATS AND OTHERS.

New York, October 12.—Hats are freaky, but more varied in shape and size than ever, so everyone can find the right thing to suit the face, figure and costume. This last item is not by any means least important. Now that the Directoire styles are once more on the top of the ways, the harmony between the hat and dress must be perfect or all the effect of both is lost.

**The Vogue of Satin Suits**  
Suits of black satin are especially smart but are only desirable where the material is of the best grade, and as the waist, hat, boots, and gloves must correspond in elegance, such costumes rank among extreme luxuries. All black costumes of broadcloths, corduroys, chevrons or silk finished suitings are fashionably worn for almost any occasion with contrasting accessories—hat, gloves, etc., in white or color—or in all black if that is becoming.

**Modish Colors**  
Browns in leather shades, greens in olive tones and blues in royal and navy as well as in the grayish medium shades are very much worn, and the combination of black with everything especially with blue, and with white, is noticeable wherever handsome costumes are seen.  
Black hats with colored trim-

### END IS NEAR

#### THESE ARE THE LAST DAYS

#### None in Salem Will Ever Again See the Like

To purchase a "Standard Made" Piano—an instrument of absolutely unquestioned reputation—at a price usually paid for the ordinary kind, is the opportunity that awaits those who attend this art exhibit and sale at 455 Court street.

The buying of a piano is an important matter. There are many pianos and many dealers.

You must in a large degree rely upon the dealer. He knows piano quality.

Sherman, Clay & Co. have been selling pianos on the Pacific Coast for nearly 40 years and their selling methods are well known.

The following quotation from the Oregon Daily Journal of August 3, 1908, is significant:

"In almost every line of trade there are one or more firms who, by reason of long years of fair dealing and courteous demeanor have earned the confidence and respect of the public. No firm in any line of

trade stands higher than does the house of Sherman, Clay & Co."

"To think own self be true and it must follow as the night the day, thou canst not then be false to any man."

Among the Pianos left you will find some of the world's greatest makes, including STEINWAY, A. B. CHASE, LUDWIG, EMERSON, EVERETT, KINGSBURY, ESTEY and WELLINGTON.

Here and now you can purchase any one of these magnificent instruments on very easy terms—in fact the terms will be made to suit your own convenience.

We have accepted as part payment several used instruments; these can be had for as little as \$35, on easy payments.

If you have any possible use for a piano, by all means come today or during the evening and take advantage of this opportunity.

Remember the address:  
455 COURT STREET.

### Sherman Clay & Co.

ings, especially with white, are decidedly faddish. Amazon turbans with their high velvet facings of black velvet have crowns of white ribbed silk, or of some of the brocades or tapestries so much used for millinery purposes this season. Patterns and materials that have hitherto been used for upholstery purposes are now seen in millinery departments everywhere and these same fabrics are being used for coat trimmings, vests, etc.

### New Long Coats.

New long coats for motor use or general wear are straight cut, as everything is just now, but are loose enough to completely cover the costume and made with ample reverses and wide collars, that can be buttoned up close to the throat, and with wide cuffs, dust guards, big buttons and patch pockets that also fasten with a button in many instances.

Long coats of broadcloth, serge or of ratine which is the latest French craze for this use, are made up in dolmanesque style with straight kimono sleeves cut in one with the rest of the coat, and have the fullness at the back, if there is any confined near the foot by some sort of band trimming, which usually does not extend beyond the side of the garment. Large sailor collars that finish in long front reverses and fastenings below the waist well over toward the left side, characterize the best of these coats, which are used with all sorts of dresses for day and evening wear. The black coat with white, gray, yellow or apricot lining is the one most generally useful, but browns, grays and blues are all smart especially in ratine.

### Gloves and Footwear.

Suede finish leather with pointed

toes are fashionable for dressy footwear, and considerable use is to be made of velvet and silk for the same grade of shoes. Dull gray suede with matching hose is the Parisian fad, but here black is more used for general wear. Gloves with wide stretchings in black or white to contrast with the kid are decidedly modish, and the chamois glove with heavy spear point finish are very smartly worn. Dogskin gloves of similar mannish cut and finish are used for harder wear. As sleeves continue to be abbreviated considerably for almost all dress purposes, the Mousquetaire glove worn is long enough to meet the sleeve. Nothing angrier in a sartorial way exists than the gap often seen between the top of the glove and the sleeve. The very prettiest arm is unattractive so displayed.  
LUCY CARTER.

### The Royal Month and the Royal Disease.

Sudden changes of weather are especially trying and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its bunches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative,—consumption.

### Capital Business College

A good school—none better. Well established reputation. Successful graduates. Skillful, painstaking teachers. Living expenses low. Many other advantages. Let us tell you about them. Write for catalogue.  
W. I. STALEY, PRINCIPAL SALEM, OREGON
