WOMAN FURNISHES INFORMATION WHICH DETECTIVES THINK IS CLUE

THAT BRYCE AND MORRIS ROOMED AT HER HOUSE IS MRS. INGERSOLL'S STORY

J. B. Bryce Was Visited by William Morris—The Woman Overheard the Two Talking of the Purchase and Shipment of Dynamite From the Giant Powder Company—The Men Described by Mrs. Ingersoll Tally With the Description of Men Who Purchased the Powder at Auburn.

[UNITED PRESS LEASED WIRE.] San Francisco, Oct. 13.—Seeking a mysterious woman who is said to have been the mutual friend of the so-called J. B. Bryce and the "squint eyed man" called Morris, suspected of the destruction of the Los Angeles Times plant by dynamite, detectives today began a systematic search of San Francisco. They believe they are close to the possession of facts that will lead to the arrest of the dynamiters within a few hours. Information was furnished by Mrs. E. R. Ingersoll, who told the police that "Bryce" was brought to her home at 3656 Twentieth street, two weeks before the Times explosion by a woman acquaintance. Bryce engaged a room and shortly was joined by the "squint eyed man."

Shortly before the night of the Times explosion Bryce left this city but Morris remained. Mrs. Ingersoll declared that she feared for her life and did not summon up courage to tell the police until last night. She denied today that she had told the police anything and said that the tale had been concocted by newspaper men. Secret Service Agent Burns admitted this afternoon that the woman's story of the plot was true and that she had been instructed to deny until the detectives could take advantage of her information without being hampered by amateur sleuths. The woman who brought Bryce to the Ingersoll home is being sought. She undoubtedly will lead to the men wanted, provided Mrs. Ingersoll's suspicions are correct. It was learned today that J. B. Bryce occupied a room at Mrs. In-

gersoll's from September 4 to September 14. He was visited by a man giving the name of William Morris, who also was known as "Perry" and "Smithy." They claimed to have been printers in Chicago. In the course of these visits Mrs. Ingersoll learned of the alleged plot. Bryce appeared to be the man in charge, and received messages daily by telephone from men and women. Some of these messages were overheard by Mrs. Ingersoll and are said to have related to the purchase and shipment of dynamite at the "Giant plant." Mrs. Ingersoll is believed to have

PARIS MAY AGAIN WITNESS ANOTHER REVOLUTIONARY REIGN OF TERROR

THE STRIKE HAS DEVELOPED INTO REBELLIOUS STRUGGLE TO OVERTHROW GOVERNMENT

Paris, Oct. 13.—Blood flowed in the streets of Paris today when the first real fight between strikers and soldiery was waged for more than two hours. At least six men and two women were seriously hurt. One soldier was reported killed. The battle began when 300 police discovered a meeting of strike leaders in progress in the office of the La Humanite, a Socialist newspaper, and demanded that they submit to arrest. The leaders refused and barricaded the doors of the building. Under Premier Briand's instructions that they were enemies of the republic, and plotters against it, the police ordered them to surrender, threatening to fire through the windows if the orders were not obeyed. Shots Are Exchanged. M. Jaures, leader of the men in the building, appeared at the window and shouted defiance. "We will surrender only when you come and take us," yelled Jaures. As he stepped back into the building a bullet crashed through the window above his head. It was answered from within the building, and a battle, which lasted nearly two hours, was on.

and police had orders to use the flat of their swords, which probably was responsible for the small number of casualties. The strike was even more effective today than yesterday. The Northern line ran a few trains, but no attempt at regular service was made. The Eastern and Western lines made spasmodic effort to resume traffic, but failed. Food trains, heavily guarded, started shortly after noon, but the presence of armed men on the cars did not prevent hostile demonstrations on the part of the strikers. Non-striking railroad men were given permission today to arm themselves to protect their lives and the trains against the strikers. Immediately the news was spread, the strikers made a rush for arms, and thousands of armed men are now parading the streets. The situation is considered desperate. Socialists Arrested. Following the riot at La Humanite office, six prominent labor and Socialist leaders were arrested. The deputies who were at the meeting in the newspaper office were allowed to go free. Clonked by the strike disorders, Apaches have been busy today and last night throughout Paris, and many reports of crimes have been received. Holdups, burglaries, big and little, street brawls and other minor disturbances have occurred, and the police charge their increase to the labor troubles which have resulted in the almost total withdrawal of police from patrol duty. Steps are being taken to rush the proposed whipping post ordinance through the chamber of deputies, which convenes next week. The ordinance calls for the punishment by whipping of all such offenders and it is believed will result in a material decrease of those crimes. It is a Revolution. London, Oct. 13.—A despatch to the Globe from Paris this afternoon, says: "The railroad strike has developed

"bastille," is guarded carefully by a heavy garrison for fear that an attempt will be made to dynamite the noted jail, in which hundreds of Republican prisoners have been shot to death, and in which Prof. Ferrer was executed after a farcical trial. Within the walls of the great edifice hundreds of political prisoners have been buried alive in rat-infested, disease-filled cells. When the revolution comes in Spain, the great Barcelona prison will be one of the objects attacked, and the secrets that its shot-torn walls will disclose will shock and thrill the world. The execution squads of a tyrannical government have been at work three years shooting men for political offenses. Should Barcelona fall into the hands of the Republicans of Spain, the infamous prison will be torn stone from stone. Reports Are Alarming. Madrid, via Hendaye, Oct. 13.—A

immense throng surrounded the building on the outside, and the police charged and counter charged them in an effort to keep the space around the building clear. One Woman Reported Killed. Men and women were run down, and one woman was reported killed. Reinforcements were rushed to aid the sorely tried police, and, after a sharp conflict, the mob was dispersed. The police then turned their attention to those in the newspaper office. The laborites were still barricaded. Most of them appeared to be armed, and shots were fired from the windows. A scattering fire was returned by the police and soldiery, who charged and captured the men within the building. Four men were treated at Labroca and De La Charite hospitals, and many more were said to have been injured and taken elsewhere. Used Flat of Swords. In charging the crowds the troops

FIRES ARE PUT OUT BY HEAVY RAIN

A SOAKING RAIN BRINGS RELIEF TO FIRE SWEPT MINNESOTA AND MANITOBA—EVERY HOME IN RAPID RIVER COUNTRY WAS DESTROYED.

[UNITED PRESS LEASED WIRE.] Winnipeg, Man., Oct. 13.—"Thank God for the rain," was the message sent by Mayor Williams, of Beaudette in his report that the forest fire crisis in Northern Minnesota had passed. A soaking rain fell throughout the night and the smoldering fires in the Rapid River country were quenched. Twenty-one men and boys who walked 25 miles from International Falls declare that every home in the Rapid River section was destroyed by the flames that raged for three days over a great area. They say, however, that they saw no human bodies. Governor Eberhardt stated that he would return to St. Paul this afternoon, leaving militia officers in charge. Martial law is still prevalent in a portion of the burned district.

OREGON IS BUILDING RAILROADS

TWENTY MILES OF ROAD FROM MEDFORD TO BUTTE FALLS ABOUT COMPLETED—OREGON TRUNK LINE LAYING MILE AND HALF OF TRACK DAILY.

[UNITED PRESS LEASED WIRE.] Portland, Ore., Oct. 13.—Extension of the Pacific and Eastern railroad to Butte Falls will be completed November 5, and immediately thereafter train service will be opened between Medford and that point. For the present the trains operate between Medford and Eagle Point. The distance from Eagle Point to Butte Falls is 20 miles and this stretch will tap a rich section of pine timber. John F. Stevens, president of the company, returned today from an inspection of the line and gave out the information that the extension would be completed in November. Stevens said work was proceeding satisfactorily. Excellent progress is being made with track laying on the Oregon Trunk line down the Deschutes canyon. Yesterday 5,530 feet of track was put down which is better than expected. Track laying was begun at Clark station on the Columbia river a few days ago.
