

### FEDERAL PROTECTION FOR BIRDS

Portland, Ore., Oct. 21. (Special)—Federal protection for migratory birds during their flights must be had if these feathered creatures are not to be exterminated, says William L. Finley, of Portland, a widely known ornithologist. Mr. Finley is a bird authority whose researches have been prosecuted from the Atlantic to the Pacific, as well as abroad. He is a lecturer for the National association of Audubon societies of New York City.

He favors the establishment of government or state reservations that shall be retreats for wild birds. These areas, he suggests, may be established on private estates where the owners are willing. Song and game birds, he believes, will thus become abundant in these refuges and will spread out and populate the surrounding country.

Mr. Finley has just returned from California, where he visited the state game farm at Hayward. There he found the state has gone into the business of raising pheasants, which are furnished to farmers and others for propagation, the young being liberated in favorable places throughout the state.

"Pheasant farming offers splendid profit paying opportunities right here in Oregon," said Mr. Finley, "for the climate is well adapted for this business. Pheasants are hardy birds and can be raised about as easily as chickens, while there is much profit in them. Since the numbers of our wild pheasants are being depleted, the state will eventually have to close the season on these birds entirely, or else secure new birds for restocking the fields and woods. If farmers in different parts of the state would raise pheasants, a part of the game fund could well be spent in buying and releasing those birds."

### FOOT BALL TEAM DOES SPLENDID PRACTICE WORK

Last evening the football team had the best practice of the season, bucking the local high school lads. The work was all offensive, consisting of forward passes largely, most of

which were worked effectively, the high school boys being entirely helpless against the puzzling formations and plays of the 'varsity men.

Coach Sweetland has worked his men down to a good degree of perfection in handling the ball on fake plays, and in all open work, so if it may be possible to work them before the heavy O. A. C. men can break through and stop them through the weaker line of the University.

McRae was unfortunate in having a finger broken in the scrimmage of yesterday afternoon, but will be fixed up so he can play all right. The ends, who have heretofore been showing up poorly in receiving forward passes, did a great deal better yesterday, though Low, the left end, missed several good chances.

Today there will be an open practice, when every one will be allowed to watch the team work.

Dr. Sweetland has been excluding all spectators from watching the plays, so a large number is expected to be on the sidelines at today's practice.

### WILLAMETTE TO MEET "AGRIC" IN "KICK FEST"

Tomorrow the Oregon Agricultural College will meet Willamette University on the football field to play one of the most closely contested games that has ever been played upon that field. O. A. C. has one of the best teams in the Northwest, and is confident of victory. Though the odds are on O. A. C., the representatives of the "Old Gold and Cardinal" expect to give them the time of their lives. The lineup for Willamette will be as follows: Blackwell center, Homan right guard, Bellinger left guard, Westley left tackle, McKnight right tackle, Lowe left end, McRae right end, Booth quarter, Cummins left half, McMeachin right half, Rader fullback.

### UNION SHOPMEN GO OUT ON STRIKE

St. Louis, Mo., Oct. 21.—Twenty-five hundred union shopmen employed by the Missouri Pacific and Iron Mountain route railroads struck today. In obedience to orders issued by President O'Connell.

### THE RESTLESS MODERN WOMAN

By Edward Bok, editor of Ladies' Home Journal.

For a number of years there has grown up in America a dangerous type of woman, a woman who, misunderstanding the modern currents of thought, has believed that her work in the world lay outside of the home or who for some reason or other has developed a positive aversion to motherhood.

This aversion to motherhood, this unwillingness to be a woman in the highest sense of the word, leaves the woman unsatisfied. So for what she cannot find a natural outlet in her home, she goes outside, looks around for what is going on, and plunges into the first excitement that she meets. It may be bridge; it may be vivisection; it may be woman's clubs; it may be woman suffrage.

In Chicago they had the cry, 'No ballot, no babies.' Another suffragist simply said that 'it was far more important for a woman to be a woman than to be a mother.' No matter how they phrase it, there is always the same undercurrent; the same basic aversion to motherhood.

And this whole tendency toward an aversion to motherhood on the part of one element of restless American womanhood has brought about a corresponding keenness on the part of another and larger element of American womanhood toward a close study of the conditions of childhood in America.

"Woman Suffrage is an excitement of the restless few; the question of the child is a great operating movement, being born of the many. That is the great ethical question we are facing; the future of the child, and in comparison with it, so far as the real interest and deep a variety of the American woman as a sex is concerned, the question of woman suffrage fades into absolute insignificance."

### AN ATTENDANCE OF A MILLION IS EXPECTED

[UNITED PRESS LEASED WIRE.] New York, Oct. 21.—The greatest aviation meet in American history will begin tomorrow. It is expected that more than 1,000,000 spectators will attend the contests to see many of the world's most prominent aviators in flight.

Principal interest centers in the rivalry between the Wright brothers on one side and all the other contestants on the other. The coming tournament will be the first in which the Wrights have pitted their skill against others in the aeroplane world. The Wrights' exclusiveness heretofore has been attributed to their claim that foreign and American aviators have infringed their patents.

### WOODRUFF CALLS TEDDY AN UNMITIGATED LIAR

[UNITED PRESS LEASED WIRE.] Ithaca, N. Y., Oct. 21.—The talk in Ithaca today is the attack on Theodore Roosevelt made by Professor E. H. Woodruff, of Cornell University, at a political rally over which he presided, and at which he called the colonel such names as "liar" and "unmitigated liar."

During his speech Prof. Woodruff was cheered and hissed at intervals. At frequent intervals there were loud calls for Judge Alton B. Parker, who begged the crowd to allow Prof. Woodruff to finish his speech.

Woodruff reopened the Bellamy Storer episode, which Roosevelt recently declared "closed." He charged that when Roosevelt denied sending Storer to the Vatican he was an "unmitigated liar," and that there were letters in his possession to bear him out.

### A TERRIBLE RIDE ON THE BRAKEBEAM

ADOLPH PETERSON FALLS FROM BRAKE BEAM, BUT HANGS ON AND IS DRAGGED FOR 11 MILES IS HORRIBLY MANGLED.

[UNITED PRESS LEASED WIRE.] Los Angeles, Cal., Oct. 21.—His left leg broken in three places, and his right foot crushed to a pulp as the result of a terrible brake beam ride of 11 miles, Adolph Peterson, a tailor, lies in the Receiving Hospital here today.

Peterson climbed beneath a Southern Pacific train at Burbank last night to ride into Los Angeles. The jolting of the train threw him from his position, but he clung to the beam with both hands. Dragging over culverts and sharp rock track ballast, the man maintained his hold until the train reached the station in this city half an hour later. It was said at the hospital that both legs would have to be amputated.
