AFRAID OF BECOMING A BURDEN

GEORGE HUBERT WILLIAMS DOES NOT WAIT FOR ATROPOS BUT PHILOSOPHICALLY USES THE SCISSORS HIMSELF.

[UNITED PRESS LEASED WIRE.]
Denver, Colo., Oct. 21.—Leaving a note identifying himself and declaring himself fearful that it would be but a matter of a short time until he would become dependent on charity George Hubert Williams, of Marysville, California, is today a suicide, having taken his life at the Elks hotel. In the note he said: "I have drifted into dreary middle age, poverty stricken and friendless, and I view with alarm the prospect of a dependent old age." Williams also left a bundle of manuscript which indulged in philosophical flings at various phases of life. One said: "In comparing religions, I have come to the conclusion that the basis for religion is superstition."

Another said: "Those who haven't the patience to fully pursue the mazes of metaphysics nor the intelligence to reach at lengths in trying to understand speculative science cannot and will not find God." A third and fourth manuscript remarked: "Morality is now understood to mean adherence to custom in the matter of intercourse between the sexes."

"Love is undeniable. Marriage as at present instituted will remain as long as it is needed for economic reasons. When that day goes, there will supervene some other form of union between the sexes."

ABUSING THE INITIATIVE.

Initiative for Matters of General Interest.

"The initiative privilege is a valuable right and the people of Oregon are fortunate in the possession of the same. It is a right though that should be used with discretion. If the initiative is invoked indiscriminately it will be an injury rather than of benefit," says the Pendleton Enet Oregonian in its issue of July 19.

"By the nature of things the initiative should be used for the settlement of questions that are of general state interest and questions upon which the people at large are capable of judging. It was proper that the direct primary law be enacted under the initiative. The law could not have been enacted in any other way. Legislators elected under the old convention system would never have passed the direct primary law. It was proper that the corrupt practices act be enacted under the initiative and referendum. That law pertains to political morality and the people were able to judge of the merits of the law. It is all right to settle the normal school problem under the initiative. The legislature has utterly failed to handle the question."

"But the most glaring abuse of the initiative is on the part of those who have proposed county division measures. Eight bills have been filed asking for the creation of new counties or for the changing of boundary lines. In each case the question involved is of a purely local nature; not of state interest. It will be impossible for the people of the state to judge of these measures with intelligence. All division disputes should have been held in abeyance pending the passage of a law calling for the settlement of such disputes by the people directly concerned. The county divisionists, however, have refused to wait. They have submitted their bills in hopes the people will vote blindly for them. They have abused the initiative privilege and they should be rebuked for doing so. Every county division bill should be voted down."

"Insist that the initiative be used only when it may be invoked with propriety."

O. M'HARG ASSAILS THEODORE

SAYS THAT EMINENT GENTLEMAN DISCOVERED THE TEN COMMANDMENTS, ALL MORALITY AND PUT BUSINESS IN A HOBBLE SKIRT.

[UNITED PRESS LEASED WIRE.]
Atlantic City, N. J., Oct. 21.—Theodore Roosevelt came in for an indignant attack by Ormsby McHarg in the address made before the American Hardware Manufacturers' Association here today. McHarg, who was formerly assistant secretary of commerce and labor, declared that federal control of the country's resources meant "putting American business in a hobble skirt." This policy, he believed, to be nothing short of socialistic.

"It was left for one man to rediscover the ten commandments," said McHarg. "After it was left for one man to discover the laws of ancient morality, and the laws of conservation. It was left for him to discover constitutional checks on headstrong rulers, which was not a good thing for the ruler. All of these things he crystallized into the 'new nationalism.'"

MOUNTAINEERS TAKE LAW INTO THEIR OWN HANDS

[UNITED PRESS LEASED WIRE.]
Lovington, Va., Oct. 21.—Fears are felt here for the safety of John Moore, who was spirited away from the local jail early today by mountaineers, who disappeared in the hills with their captive. Fully 75 men comprised the band that took Moore from the jail.

Moore was convicted of poisoning Frank Howell, in order that he might marry Howell's wife, according to the charges. Moore asserted in his defense that moonshiners poisoned Howell to avenge themselves for derogatory testimony Howell had given against them. That testimony is believed to have so angered the mountaineers that they determined to take Moore's case out of the law's hands.

BALLOONS BROKE RECORDS.

(Continued from Page 1.)

broken by the balloon Helvetia, of Switzerland, which landed at St. Isidore, Quebec, today after having traveled 1,500 miles from St. Louis. The former record was 1,193 miles. The America II and the Dusseldorf are still unreported.

The Helvetia landed without mishap. Pilot Schaeck and Aide Paul Armbruster were well, and declared they had had a perfect trip. The Helvetia was supposed to have landed at Villa Marie, 50 miles from Halleysburg, yesterday, but today it was learned that the balloon which landed there was the Germania, pilot Von Abercron. The Germania, after parting with the America II and the Dusseldorf, the two balloons yet to be heard from, sailed southeast over Manloulin and passed Sudbury, Wanipitae and Lake Toplakaming.

Speculation as to the whereabouts of the America II and the Dusseldorf is rife but it is believed the two are together in an isolated part of the northwest section of Quebec. It is believed they have landed but their pilots are having difficulty in finding their way to a telegraph station to report.

NATIONALS DEFEATED AMERICANS

THIS WAS THE DECIDING GAME, GIVING THE SERIES TO THE NATIONALS—THE SCORE TODAY WAS 6 TO 3.

[UNITED PRESS LEASED WIRE.]

New York, Oct. 21.—The New York Nationals won the inter-city baseball championship this afternoon from the American Highlanders, by taking today's game by a score of 6 to 3. The series resulted as follows: Giants won four games; Highlanders won two games; tied one game.

Christy Mathewson continued to be the star of the series, having won three of the Giants' four games by his effective pitching. The teams practically were evenly matched in other departments of the game, but the American league batsmen were unable to hit Mathewson.

The game today was played before 6000 fans, who braved the cold weather to witness what they expected would prove the deciding game of the series.

DEMOCRATS WANT BALLOT TAKEN FOR PEOPLE'S CHOICE FOR SENATOR TO SUCCEED DOLLIVER — EXTRA SESSION MAY BE CALLED.

[UNITED PRESS LEASED WIRE.]

Des Moines, Ia., Oct. 21.—The Republican senatorial turmoil following the death of Senator J. P. Dolliver was increased today by a Democratic complication.

Chairman Reed, of the Democratic

state central committee has written to Republican Chairman Frank, proposing a primary election to select Dolliver's successor. Reed suggested that the committee should provide extra ballot boxes in each booth and that the result of the vote should be binding upon the legislature when senatorial candidates were before it for election.

On behalf of the Democrats, Reed offered to pay half the cost of the separate election and added that if the Republicans refuse the proposition, he will ask the governor to call a special session of the legislature to amend the law so that a primary election of senator would be legally possible.

WINKELREID DOES "A MYSTERY" STUNT

[UNITED PRESS LEASED WIRE.]

Long Beach, Cal., Oct. 21.—Found kneeling in the pulpit of the First Methodist church with a snake's head grasped tightly in one hand, the other waving an enormous turkey wing, Arnold Winkelreid is held today at the central police station, pending mental examination.

Winkelreid was found by the janitor. How he gained entrance is a mystery to the dignitary, who said the man had been on his knees murmuring incantations and waving fantastic signs with the turkey wing for several minutes before he was interrupted. Winkelreid refused to answer questions at the police station.
