

# THE STRIKE SITUATION IN CHICAGO

### SOCIETY WOMEN STILL AID THE STRIKERS AND ARE INDIGNANT OVER BEING ARRESTED BY POLICE YESTERDAY, SAYING THEY DID NOTHING UNLAWFUL

[UNITED PRESS LEASED WIRE.] Chicago, Nov. 2.—Quiet followed today the rioting of yesterday in the garment workers' strike, in which a number of prominent society women took part. Automobiles rolled from the fashionable North End residence section to the district in which the strike is in force, bearing society girls, undiscouraged by the outbreaks of yesterday, to continue their support of the strikers. Most of the society women helping the strikers are dressed as working girls.

The society women took their places with the union pickets today around the shops where the strike has been declared, and continued urging the strike-breakers to quit and join the labor movement.

Rioting occurred yesterday when a demonstration was undertaken by the strikers, and nearly 500 of them attempted to invade the downtown shopping district. As a result it was decided at strike headquarters today to confine the work of the strikers to picket duty, and it is probable that no more parades or demonstrations will be attempted.

Although most of the society women were released as soon as their identity became known at police headquarters, the women were indignant at their arrest. Many of them declare today that they were doing nothing illegal, and the police had no authority to interfere with the parade or with the union pickets. An investigation of the matter may be forced by the influential women involved.

### Trouble This Afternoon.

Chicago, Nov. 2.—Shortly after noon today rioting in the garment workers strike was resumed and the police, who charged the strikers and their sympathizers, used their clubs freely. In one instance the patrolmen fired into a crowd of strikers. Society women who have been helping the garment workers, were in the thick of a dozen disturbances today and received part of the rough handling intended for the strikers.

Chief of Police Stewart was waited upon by a delegation of strikers, who complained of rough treatment by the police.

"My men use their clubs when it is necessary," Stewart replied. "If there are complaints of brutality, I will investigate them when this strike is over."

The shooting occurred late this afternoon. A group of strikers had gathered outside of one of the factories where non-unionists are employed. A number of police were summoned and ordered the strikers to leave. The crowd refused to move away from the building. After repeated threats, the officers drew their revolvers and shot into the crowd. The mob scattered at once. No one was injured, according to reports so far received.

### SPAIN SEETHING.

(Continued from page one.)

This situation has been seized upon by the revolutionists, and it is known they have made numerous endeavors to induce the soldiers to join their cause.

Men held in reserve and subject to call for military duty object to service in Morocco. The recent disturbances there and the efforts of the troops, even after strengthened by the reserves, to subdue the tribes they were sent against has not been forgotten. Spain is now trying to collect indemnity amounting to \$31,000,000 from Morocco. A punitive expedition has been sent against Morocco. If it fails, and it is generally expected by the Spanish people that it will, the reserves again will be called out, and will be forced, the people believe, to a long and hopeless campaign. This has increased the unrest in army circles and among the people subject to the call to the service.

If the government attempts to summon the reserves again, it is believed that internal warfare will be inevitable.

Late despatches from Lisbon declare that the Spanish government has uncovered a revolutionary plot. The government has officially admitted this. The plot was discovered just as it was to be carried out. Wholesale arrests were made in all parts of the country simultaneously and the jails in the principal cities are crowded with political prisoners.

COURTS STILL AFTER THE COPPER MAGNATE

[UNITED PRESS LEASED WIRE.] Washington, Nov. 2.—A final effort on the part of the government to force F. Augustus Heinze to face trial on charges of defrauding the Mercantile Bank of New York, was made here today when the supreme court was asked to review the action of United States Judge Hough, of New York, in quashing most of the counts in the indictment against the copper magnate. Heinze was twice indicted by the federal grand jury in New York. After a lengthy hearing Judge Hough quashed most of the counts in the two indictments.

### AS AN OBSTRUCTIONIST SHE IS A SUCCESS

[UNITED PRESS LEASED WIRE.] Oakland, Calif., Nov. 2.—Mrs. Isabella Martin, defending herself on charge of dynamiting the home of Judge Ogden, displayed dilatory tactics today that would have made the most accomplished criminal lawyer green with envy. Although two days of her trial have elapsed, only one juror has so far been accepted, and in each case it has been the keen questioning of Mrs. Martin that has resulted in the disqualification of the veniremen.

### TOLD THE NEWSPAPERS TO GO TO HELL

[UNITED PRESS LEASED WIRE.] Chicago, Nov. 2.—Speaker Joseph G. Cannon arrived in Chicago this afternoon to confer with Acting Chairman Tawney, of the Republican congressional campaign committee. Asked regarding the progress of his campaign in his own district, Uncle Joe became a trifle testy. "You will tell the newspapers for me," he said, shifting his cigar to a defiant angle, "respectfully and diplomatically to go to hell."

Then he proceeded on his way to find Tawney.

### Killed His Playmate.

[UNITED PRESS LEASED WIRE.] Hanford, Calif., Nov. 2.—Cleo Blalock, 11, shot and fatally wounded Jack's Hanford, his playmate, today. The killing was accidental. The boys were playing "soldier," Blalock, aiming an "unloaded" shotgun at Hanford, pulled the trigger. The wounded lad lived an hour.

### ROBBING THE CRADLE.

—New York American.

Must Cut Off Queues.

Peking, Nov. 2.—An imperial edict issued by the emperor today commands all representatives of the Chinese government stationed outside of China to cut off their queues. The edict takes immediate effect. It is made applicable especially to all members of the diplomatic and consular service.

### ANOTHER MAN BREAKS ALL THE RECORDS

[UNITED PRESS LEASED WIRE.] Walla Walla, Wash., Nov. 2.—Two thousand dollars has been received from J. K. Edmiston, formerly president of the Walla Walla Savings bank, by his counsel, John Sharpstein, to pay over to depositors who lost their savings when the institution failed seventeen years ago.

When the bank went to the wall, the depositors did not receive a cent. Edmiston, after four trials, was convicted of receiving money when he knew the bank was insolvent and sentenced to a year in prison. Released on bail while awaiting another trial, he disappeared.

Only once was he heard from. When he sent money from Egypt to pay bills here. He intends, it is said, to pay the depositors in full.

Judging by the registration, many thousands of Oregon voters are not taking much interest in politics.

### Beneath Your Fat a Graceful Figure Dwells

Hereditarily, tendency, inaction, high living, and inability of the system to dispose of fatty foods are responsible for the pads and rolls of fat which gather on chest, hips, waist, chin, cheeks, and neck, covering up and distorting the life, graceful figure beneath. To remove or prevent these unwelcome deposits—control their quantity and location without paying the price of violent exercise, dieting, self denial or impairment of health; in short, to find one's own slim self beneath the fatty sheath—has been made possible by a noted physician, whose Marmola Prescription helped thousands of over-fat men and women to reduce safely and surely from 10 to 16 ounces per day, until the natural health of the system is restored and slimmest results. Marmola Prescription Tablets, the new form of this great remedy, each contain an exact dose of the famous Marmola Prescription. Like the original prescription, they are absolutely pure and harmless. Nearly every drug-gist keeps these wonderful little tablets, or they may be secured direct by mail from the Marmola Co., 669 Monroe Ave., Detroit, Mich. 75c for a large case is the uniform price.

MAIL WAGON DRIVERS. (Continued from Page 1.)

"I replied that I would gladly do so," he said, "and that I would make every possible concession to end the strike."

Mayor Gaynor this afternoon conferred with Frank Platt, son of the late Senator Thomas C. Platt, head of the United States Express Company. After the meeting the mayor expressed the opinion that a settlement could be effected.

Goynor will meet Mayor Witt Penn, of Jersey City, this evening, and confer over the situation.

HON. W. C. HAWLEY Republican Direct Primary Nominee for Congress

He has a record of unquestioned integrity as an aggressive and successful servant of the people, by whom he has been three times nominated and twice elected to the position to which he aspires. Mr. Hawley is a native of the district which he serves, having been born on a farm near Monroe. As a poor boy he worked himself through the Willamette University and there fitted himself for rendering service to his fellow man. He has enjoyed the confidence and esteem of not only the people of his native state, but also that of Presidents Roosevelt and Taft, the former of whom publicly expressed his appreciation of the cordial manner in which Mr. Hawley had backed up the policies and the measures which the president felt were of such consequence for the welfare of the country. A vote for Mr. Hawley is a vote for a man who has "No interest to serve but the public interests." (Paid Advt.)

THE MAINE WAS BLOWN UP. (Continued from Page 1.)

marine explosion. The president, the secretary of war, the secretary of the navy and four army officers knew this before war was declared against Spain. Part of the cable leading from Moro castle to the mine is now in the navy department at Washington.

"When the bulk of the Maine is raised from the harbor where it has lain since the day of its destruction, a cavernous hole blown inward will be found in the bottom of the hull. "Every statement I am now making will be borne out when the Maine is raised."

Colonel Brady intimated that he would not make public the statement he had made it not for the fact that the government engineers were already working about the vessel preparator to raising it.

Zavaldo was shot. It is believed, because the Spanish officers feared that he would tell the story of the explosion. It is said that the investigating officers have discovered records that prove the Cuban electrician's connection with the affair.

Washington, Nov. 2.—High officers in the army and navy service today pronounced as ridiculous statements made by Captain Brady in his Kansas City lecture regarding the blowing up of the battleship Maine. No piece of cable is now in the possession of the navy department, as Brady asserted, these officers declare. They considered the other statements equally without foundation.

The detailed statement Brady made regarding the destruction of the Maine was received with interest in army and navy circles but no officer was found who could affirm the story.

### INDUSTRIAL WORKERS FIRED FROM FRESNO

Fresno, Calif., Nov. 2.—Fifty-five members of the Industrial Workers of the World pleaded guilty in police court today to violating the street speaking ordinances. They were given orders to leave town before tonight. The leaders say that the national organization failed to back the coast fight and the men became discouraged.

Most of the members of the organization here came from Spokane. The police and the sheriff adopted vigorous methods to check the fight for "free speech" instigated by the members of the order here.

Prominent merchants were in court today to listen to the proceedings. Although feeling against the Industrial Workers is high, there was no demonstration during the trial.

Members of the order jailed last week attempted a wholesale delivery. They were stopped by the sheriff, who put on a night patrol armed with shotguns. It is believed the Industrial Workers will cease their "free speech" fight here.

### ALL DYSPEPSIA AND INDIGESTION VANISHES

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pepp's Diapepsin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring. The Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is feeble and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you can take a little Diapepsin.

An exchange asks: "Where are you going to winter?" Newspaper writers are not worrying over the answer. The puzzle they are seeking the answer for, is "How?"

## Marlin Big Game REPEATING RIFLES

The Special Smokeless Steel barrel, rifled deep on the Ballard system, creates a perfect combustion, develops highest velocity and hurls the bullet with utmost accuracy and mightiest killing impact.

The mechanism is direct-acting, strong, simple and perfectly adjusted. It never clogs. The protecting wall of solid steel between your head and cartridge keeps rain, sleet, snow and all foreign matter from getting into the action. The side ejection throws shells away from line of sight and allows instant repeat shots always.

Built in perfect proportion throughout, in many high power calibres, it is a quick loading, powerful, accurate gun for all big game.

Every hunter should know all the Marlin characteristics. The Marlin Firearms Co. Send for our free catalog. Lockbox 3 change for postage. 42 Willow Street New Haven, Conn.

### WANTS SPECIAL RATES FOR PARTIES OF TEN

[UNITED PRESS LEASED WIRE.] Spokane, Wash., Nov. 2.—Joseph H. Cohen, owner of the Spokane baseball franchise, has made application to the state railway commission at Olympia asking that some action be taken by the commission to secure party rates in all lines in Washington for baseball teams. Should the move turn out successful, it will benefit not only the Northwestern league clubs but every city in the state which has a ball team. The party rate means a fare and a third for round trips for 10 men and over. At present teams pay the full fare of three cents each way.

Under a United States supreme court decision the state railway commission cannot fix rates but the commission has written Cohen, offering to take up the matter with the various railways.

### PEARY LEAVES THE POLE FOR THOSE WHO WANT IT

[UNITED PRESS LEASED WIRE.] Washington, Nov. 1.—Commander Robert E. Peary, after a leave of absence of two years, devoted to polar explorations, was appointed today as advising engineer in the department of justice. Peary will give counsel in naval matters involving engineering problems. He succeeds to the position formerly held by Admiral Endicott. Peary's leave of absence expired last week.

### SAYS REPUBLICANS WILL CARE CALIFORNIA

[UNITED PRESS LEASED WIRE.] Bakersfield, Cal., Nov. 2.—Representative Sylvester C. Smith, of the eighth California district, returned to Bakersfield today after a campaign tour of this district. He predicted the election of the entire Republican state ticket. Johnson, he declared, will be given a plurality of 75,000. Smith said he was confident that he will be returned to congress.

### Aged Professor Dead.

New Haven, Conn., Nov. 2.—Professor William Henry Brewer, 82, professor emeritus in the Sheffield scientific schools, died today at his home here. Professor Brewer was formerly a professor in the University of California. Death was due to old age.

### A Regular Tom Boy.

Was Susie—climbing trees and fences, jumping ditches, whittling, always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. But laws! Her mother just applied Arnica Salve and cured her quick. Heals everything healable—boils, ulcers, eczema, old sores, corns or piles. Try it, 25c, at J. C. Perry's.

Sunset Home-seekers Bureau of Information

## Home of "THE BIG RED APPLE"

NO subject connected with the development of the West is attracting more attention than the great profits Oregon apple growers are making. Other states produce far more apples than Oregon, but Oregon leads the world, according to the largest dealers in apples in this country, in quality of product and high prices received for same. Oregon is a great apple state, and Salem (the Willamette Valley) is the original home of the big red apple that is making a stir throughout the world.

The largest producing apple orchard in Oregon is located near Salem, the vicinity of which is also noted for its prunes, cherries, hops and small fruits.

Salem is the center of Oregon's prune industry, Oregon producing 90 per cent of the "Italian" prunes grown in this country. Salem is the center of Oregon's hop industry, and Oregon produces 40 per cent of the hops grown in the United States. Salem is known as the "Cherry City of the World," the Willamette Valley, of which Salem is the center, originating more commercial varieties of cherries than any other section of this country.

If you are interested in fruit growing, dairying, poultry raising, manufacturing possibilities, or general farming you make a big mistake if you overlook Salem. Salem is the capital city of Oregon—a vigorous, beautiful, progressive community. Write to-day for more information about Salem. Address Secretary, Board of Trade, and mention that you saw this advertisement in SUNSET Magazine.

NOTE—This advertisement was prepared for the Salem Board of Trade by the Sunset Home-seekers' Bureau, Portland, Oregon. It will appear in August Sunset. This service is rendered in connection with the Co-operative Community plan of the Oregon Railroad & Navigation Co.
