DEVELOPMENT CONGRESS AT SALEM.

There will be a three-day Development Congress at Salem November 28, 29 and 30.

There is undoubtedly a great year ahead of Western Oregon, and the whole state for that matter.

The Hill system has decided on extensions of its valley

lines the coming year on a large scale. Salem, as the center of the Willamette Valley, has a great deal of interest in this situation.

A three-day Development Congress is a big undertaking, and must not be let become a failure.

C. C. Chapman, of the Portland Commercial Club, is working hard to have a large attendance.

He has secured the services of prominent men to attend the Congress and deliver addresses.

The president of the Northern Pacific railroad will be pres-ent, and so will representatives of the Southern Pacific and the Oregon Electric.

The Capital Journal will get out several special editions to boost the attendance on this Congress and help bring hundreds to Salem.

REPUBLICANS HAVE ABANDONED PARTY.

For years Republicans who had appointive power in Oregon have neglected party interest.

In Oregon this left the party weak at the centers of power. In place of appointing party workers they named mugwumps, Democrats, non-voters---anything but loyal partisans.

When a Democrat appoints a man to a subordinate place he appoints a rustler for the Democratic party.

That was why Chamberlain appointed West State land agent.

When Chamberlain named a Republican to office he al-ways selected as near a dead one as possible.

Republican officials will not learn wisdom.

They will appoint people for charity, to help a lodge or church , for anything but political work for the Republican party.

The Republican party in Oregon for years has been hamstrung by giving patronage to officials who did not even vote the Republican ticket, and some not even voters.

When it got into a hard fight this class was "non-partisan.'

The same class of salary-grabbing mugwumps were put into the federal offices.

Were any of the Taft appointees at Portland helping Republicans who needed help?

Out of a state full of federal office-holders not one was active in the campaign, while every Democrat was at work.

What will the Republicans elected to office do? Will they continue the suicidal policy of party emascula-

tion? Does any one doubt what Governor West will do with his
