PRESIDENT'S MESSAGE IS ALL FINISHED

WILL BE FOLLOWED SOON BY A SPECIAL MESSAGE ON RECLAMATION AND IRRIGATION PROJECTS IN THE WEST.

Washington, Dec. 2.—Now that the president's message has actually begun, there is much speculation among the politicians here as to what it may contain.

The president completed the message several days ago, but has revised the document three times. His final labor on it was finished yesterday, just before the reception which marked the official "coming out" of his daughter, Helen.

The greatest speculation among the politicians here is as to the probable reference to the tariff that the message may make. The members of the cabinet, of course, know what the president's course was, and some of them also have been consulted, but all those who have in any way handled the document have been sworn to secrecy, and by far the greater number of the congressmen who have gathered to begin the work of the short session Monday are still wondering just what the document may contain.

The president will give up the rest of the time between now and the opening of congress to the numerous callers who have been besieging the executive offices for a week. The congressmen themselves will be given preference in these engagements, and it is expected that before the session really opens Monday Taft will have tried out most of the members, and will know just how far he can rely on them for support in the measures whose passage he will urge.

Next to the measures which the president will recommend to congress, the greatest interest centers in the appointments that he will make, particularly to the supreme bench. Whether Charles E. Hughes will be made chief justice, or whether a new man, yet to be named, will be given that honor, is a question which is agitating the minds of most of the congressmen and the assembled hosts of politicians.

Many rumors of prospective appointments are being circulated, most of which have been unofficially denied. It is likely that it will be at least two weeks before the judicial appointments are sent to the senate. As yet, according to unofficial statements from the executive office, there has been no decision as to the men to be named.

The regular message will be followed in a few days by a special message, which will accompany the report of the board of army engineers, which has investigated the reclamation and irrigation projects in the West. It is understood that this message will point out the objects which he considers most worthy of support from congress. The president has paid particular attention to the projects, and visited a number of them in his "swing around the circle." He has given almost as much consideration to this special message, it is reported, as he did to the regular annual communication.

Particular interest, in a political way, is attached to the message and the accompanying engineers' report, because of the fact that the president is expected to intimate his opinion of the reclamation service generally, over which there was much discussion during the progress of the Hallinger-Pinchot controversy.

Whether the service is to be commended or not is a matter which has caused considerable speculation here.

ADVOCATES CABLE AROUND THE WORLD

Melbourne, Dec. 2.—The commonwealth government is deeply interest-

ed in the project of an all-red cable from Great Britain to Australia, various schemes having been put forth. The latest to be advanced is by Sir George Reid, the Australian high commissioner in London, who suggests that a new cable be laid from Great Britain via the Shetland Islands to Greenland, across the shores of Labrador and thence to Montreal, where connections will be made with the Pacific cable now in use.

In putting forward his scheme, Sir George states that he believes the introduction of a rival service would reduce one-third the present charges of the Atlantic companies.

DEBS WILL BE EDITOR WHILE WARREN IS IN JAIL

Girard, Kan., Dec. 2.—"Pass up the supreme court and go to jail!" was the word received by Fred D. Warren, editor of the Socialist periodical, "The Appeal to Reason," from Eugene V. Debs, Warren was sentenced to pay a heavy fine and to serve six months in jail, and the judgment was recently affirmed by the United States appellate court. The charge against the editor was "circulating printed matter held to be inflammatory."

Debs also announced that he would come to Girard and act as editor of the paper while Warren serves his sentence.

WANT TO WIPE ROOSEVELT OFF NEW JERSEY MAP

Roosevelt, N. J., Dec. 2.—The name of this town might look good to Oyster Bay, but the majority of the residents here declare that it should be changed, according to leading Democrats today, who, after carrying "Roosevelt" at the last election on an anti-Roosevelt issue, are solemnly campaigning to change the name of the town.

As a coincidence, the name cannot legally be changed until 1912, and the Democratic majority, pledged to abolish the town's strenuous cognomen, fear that issues might become mixed at that time, and the man mistaken for the town.

Mayor-elect Joseph A. Herrman, Democrat, announced that whatever happens throughout the country, Roosevelt will not be Roosevelt in 1912, if the Democrats can help it.

SONG BIRD OF THE SUNNY SOUTH LAND

VIRGINIA DOROTHY HILL, GREAT EST AMERICAN SONGSTRESS OF RECENT YEARS, TO BE HERE WEDNESDAY.

The concert Wednesday evening, December 7, will not only prove the wonderful ability and technique of this phenomenon, but will prove to the musical critics of Salem what an amount of artistic music can be rendered with a powerful and thoroughly trained voice, such as Virginia Dorothy Hill possesses. The singing of this artist will afford the greatest education and study to the people of musical temperament. The rhythm of music, combined with the depths of tone, and such a wonderful variety of color, one can hardly believe the human voice could produce such a combination of harmony.

When singing on the low register one could easily believe that those deep, round tones were being produced by a cello or an organ. The head tones are equally beautiful, only they would remind you of the ringing of beautiful chimes at a distance. Miss Hill has mastered three languages.

Jeannette K. Holcombe will render the following piano solos: Aufschwung Schumann Der Grillen Schumann Warum Schumann Butterfly Etude Chopin A La Bien Aimee—Op 59, No. 2 Edouard Schutt Ticket office will be open Saturday, December 3, from 9 a. m. to 6 p. m., or address Chas Zig Schys, grand opera house, or Minnetta A. Magers or Miss Beatrice Shelton. Prices, 50c, 75c, \$1.00, 1.50. Box seats, \$2.00.

SENT WOMAN BACK TO TURKISH HAREM

New York, Dec. 2.—Ignoring a plea that she would be severely punished, and probably killed, if deported, immigration officials today decided that Marie Sebella, who escaped from a harem at Damascus, must return to Greece. The young woman declared that Grecian authorities were not able to protect her from the wrath of the pasha who once had kidnaped her, and held her prisoner in his seraglio for many years.

Take Care!

Remember that when your kidneys are affected, your life is in danger. M. Mayer, Rochester N. Y., says: "Foley Kidney Pills are a wonderful discovery and I heartily recommend their use. My trouble started with a sharp shooting pain over my back which grew worse each day. I felt sluggish and tired, my kidney action was irregular and infrequent with a fine sand-like substance. While the disease was at its worst I started using Foley Kidney Pills. Their prompt and efficient action was marvelous. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." Red Cross Pharmacy.

DRUSES AND TURKS HAVE HARD FIGHT

REPORT OF BATTLE SAYS 700 DRUSES WERE KILLED AND THAT 10,000 ARE STILL HOLDING OUT AGAINST TURKISH ARMY.

Constantinople, Dec. 2.—Seven hundred Druses were reported slain in a battle with Turkish troops at Houran and Syria, near Damascus, today. The main body of the Druses, estimated at 10,000, is said to be still holding out. Turkish troops are reconnoitering, and another battle is expected within a few days.

The outbreak is reported to have resulted from religious differences. Protestants, oppressed by the Turkish government, and smarting under Turkish outrages, have been secretly gathering arms for weeks.

Messengers who returned to Damascus today reported that the Druses were entrenched in the mountain fastness and were in position to put up stubborn resistance.

PLUGGED THE SPIGOT OPENED THE BUNG-HOLE

Washington, Dec. 2.—Secretary of the Navy Meyer claimed today that he had saved \$5,000,000 in the naval estimates for the next fiscal year, as compared with the appropriations for 1911.

Congressmen, however, declare that the secretary's statement is misleading. They assert that Meyer cut the shipbuilding expenditures \$10,000,000, but that the actual cost of maintenance of the navy was not decreased, but was increased \$5,000,000. They declare that the saving on shipboard was not a real saving, but merely a postponement of ap-

Danderine GROWS HAIR and we can PROVE IT!

A lady from Minnesota writes: "As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.
