The best way to save money is to spend money wisely, and to sell what you want to get rid of just when the buyer is most eager to get it. That's why so many thrifty, enterprising people are steady readers of the classified ads. in the Capital Journal. Every day there's a new sug-gestion for money-making. Right now, today, it's a safe wager that there's more than one offer for you in the "marketplace of the Munnimakers" in today's Capital Journal. Somebody offering, at a specially advantageous price, just the thing you've been wanting. Or some body, willing to pay a good price for just the thing that you have, and that you are willing to part with. It's just as important to watch for the ads. of people who want to buy from you, as to watch the ads. of people who make it well worth your while to buy from them.
