When a man feels the necessity of being in two places at the same time he goes to the nearest telephone and sends his voice.

It is not exactly the same thing, but when a man talks hundreds of miles in opposite directions from the same Bell Telephone it is about as good.

In the daily use of the telephone a man travels all over town by wire in a few minutes. It is just as easy too travel all over the state and other states by means of the universal Long Distance Service of the Bell System.

The Pacific Telephone and Telegraph Co.

Every Bell Telephone is the Center of the System.

THE SENATE HAD A QUIET SESSION

STOPPED A JUNKETING TRIP AND TRANSACTED A BUNCH OF ROUTINE BUSINESS — ADJOURNED TO MONDAY.

Save for the backing up and changing of votes on the part of a dozen senators after Senator Sinnott, of The Dalles had given his reason for casting a negative vote on a resolution having for its object the appointment of a committee consisting of two members of the senate and three from the house, to investigate the methods and accounts of the office of Dairy and Food Commissioner Bailey, yesterday's afternoon session of the senate was devoted to the transaction of routine business and was of a quiet character.

The committee reported favorably on the resolution and it was moved to adopt its report and the reading clerk proceeded to call the names of the senators. He went down the line and most of the senators were voting in the affirmative until the name of Senator Sinnott was reached. Prior to casting his vote he arose to say that he was opposed to the appointment of a committee for the purpose designated in the resolution as it would accomplish no good. A grand jury was making an investigation of the matter now, he said, and a committee from the legislature would not have time to make an investigation and would be without authority to make, and in his opinion to send a committee out on a junketing trip of that kind would be but a waste of the people's money.

The reasons given caused several senators to prick up their ears and incidentally to think—an exercise seldom indulged in by some of them—and there were a half a dozen on the floor at the same time requesting from the president and as soon as they secured it they asked to have their vote changed on the same grounds as advanced by the senator form The Dalles.

The committee on resolutions also made a favorable report on a resolution setting forth the fact that Oregon has contributed heavily to the reclamation fund, and that the Klamath and Umatilla irrigation projects are worthy of support from the federal government; and urging the Oregon delegation to use its utmost endeavors to see that these enterprises were given their proportion of the fund.

Can't Consider Veto Bills.

The committee on revision of rules and laws and the committee on judiciary recommended that the governor's veto bills be not taken up at this session. There was a division of opinion as to whether under the constitution they should not have been taken up at a special session held between the last regular session and this session. The house had decided that they should have been taken up at the special session and voted to not take them up as in its opinion they were dead, and, because of this action the senate also decided to not consider them.

Bills Reported On.

The judiciary committee submitted a favorable report on a bill forbidding the sale of fire crackers of a certain size after June 13; a favorable report on a bill providing that names might be given farms by having them recorded with the county clerk; and an unfavorable report on a bill relating to foreign corporations.

A bill was introduced making it unlawful for a person to kill or have in his posession any bird other than a game bird; also a bill giving the board of regents of normal schools authority to pay the railroad fares of certain students upon their compliance with certain requirements of the school; and a bill defining what constitutes trusts and monopolies in restraint of trade.

CHURCH SERVICES

EILERS CLOSING OUT SALE IS NOW ON

POPULAR MUSIC HOUSE IN SALEM MAKES FLATTERING INDUCEMENTS.

The entire stock of Grand and Upright pianos and player-pianos at their store in the Y. M. C. A. building, Salem, must be closed out by January 30, 1911, and rather than go to the expense of shipping back to Portland, we will close out the entire stock at prices the regular dealers usually pays at the factory. We must vacate the store in the Y. M. C. A. building in Salem, by January 30, 1911.

And all our new 1911 models which are beautiful creations of art including Chickering, Grands and Uprights and player-pianos, will be slaughtered in this sale.

All marred and slightly used pianos must go at cost. Following are a few reductions in prices:

$375 pianos, this sale $250
$475 pianos, this sale $320
$385 pianos, this sale $248
$420 pianos, this sale $280
$400 pianos, this sale $260
$415 pianos, this sale $276
$390 pianos, this sale $260
$360 pianos, this sale $217
$350 pianos, this sale $198
$325 pianos, this sale $189

We have several good second-hand upright pianos and a number of square pianos and organs for which no reasonable offer will be refused.

Remember, everything must be sold before January 30, 1911.

MISS MARY MANNERING TONIGHT

HER COMING AN EVENT IN THEATRICAL CIRCLES — AMERICA'S LEADING ACTRESS IN ONE OF THE STRONGEST MODERN PLAYS.

Mary Mannering will appear in "A Man's World," the latest successful vehicle provided her by the Shuberts, at the Grand Opera House, Saturday, that is, today. This play which ran for nearly an entire season at the Comedy Theater, New York, when it was presented there, earned appreciation from press and public alike. The story is of first interest to theater goers who care for a drama of human interest and realism, told by clean-cut characters and having for its pivotal idea the exposition of a high moral principal. It is said to appeal to the heart and feelings as well as to the intellect. Miss Mannering is called upon to sustain a role which evidences her powers of emotional range and charm of personality. The scenes are laid in the Bohemian artistic set of New York, and the dramatist has created interesting delineations of character with photograhpic accuracy and vivid realism. Prices, 50c, $1.00, $1.50 and $2.00.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A Reliable Cough Medicine

Is a valuable family friend. Foley's Honey and Tar fulfills this condition exactly. Mrs. Charles Kline, N. 8th St., Easton, Pa., states: "Several members of my family have been cured of bad coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It soothes and relieves the irritation in the throat and loosens up the cold. I have always found it a reliable cough cure and do not hesitate to recommend it highly." For la grippe coughs and stuffy colds, for children and grown persons and for delicate people use only Foley's Honey and Tar. Contains no opiates. Red Cross Pharmacy.

Salem Cement Sewer Pipe

Glazed inside by friction; made with Salem labor, by Salem men, with Salem money. Patronize home industry. Delivered in all parts of the city. House connections a specialty. Cement sewer pipe does not have to be burned, so does not warp as salt-glazed pipe does. Cement pipe has greater compressive tensile and bursting strength.

We exercise the greatest care in the manufacture of this pipe, using a mixture of one part cement to two parts coarse, clean sand.

ECONOMY IN PAVEMENTS.

Lewiston, Idaho, Says That "The Best Is the Cheapest" in the Long Run.

The experience of Lewiston, Ida. in connection with the idea of experimenting with different kinds of pavements is of interest right at this time when Salem is considering what kind of pavement to lay this year. The following is received today from the Lewiston Evening Teller:

"In the recent meeting of taxpayers of Lewiston within the new proposed Normal Hill residence district there was a strong sentiment in favor of paving Eighth street with a hard surface pavement. F. D. Booth one of the most prominent members of the committee, which submitted the general report on the proposed improvement, recently returned from a visit to coast cities, where he made investigations as to pavements. "At Portland I took occasion to examine the various kinds of pavement laid there, and found that bitulithic apparently was standing better wear and looked more durable than other classes of pavement," said Mr. Booth. "The difference is marked in every way," he continued, "and, while I have nothing to say detrimental to other kinds of pavement, I am satisfied that in bitulithic we have the very best pavement in Lewiston that can be found, and it is also the most economical.

"The old adage, 'A thing worth doing is worth doing well,' is especially applicable in the selection of street pavement.

"Looking back at the comparison in Lewiston—macadam, brick in the car tracks, and bitulithic—experience has thoroughly demonstrated that macadam is a waste of money; local rock not properly binding together, working up into mud in the winter and turning to dust in the summer. Continually hauling crushed stone and gravel into the streets for years, and yet always having these streets in a wretched condition, still remains fresh in the minds of some of the oldest residents.

"To those with offices on Main street, the advantages of a flexible pavement, such as bitulithic, are plainly apparent. Lewiston people can congratulate themselves that the early plans of the city officials in laying main street with brick were changed, and a more quiet pavement adopted.

"Brick, concrete and other rigid pavements permit no give to the horses passing over it, and when traffic passes over car tracks the rumble which accompanies the passing vehicle would, if the same condition prevailed on the streets, be deafening and intolerable."
